Upcoming Events

PERIODONTAL AND IMPLANT DECISION MAKING: FROM TREATING THE AILING TOOTH TO THE FAILING IMPLANT (LIVE WEBINAR AVAILABLE)
Friday, June 1, 2018

COMPLICATIONS OF IMPLANT THERAPY
Saturday, June 2, 2018

ADVANCED RESTORATIVE OPTIONS WITH DENTAL IMPLANTS FOR FULLY EDENTULOUS ARCHES
Part I - Lecture: Friday, June 8, 2018
Part II - Lecture, Demonstration, Hands-On: Saturday, June 9, 2018

MASTERING ORAL PATHOLOGY, RADIOLGY, AND MEDICINE: AN INTERACTIVE AND PARTICIPANT CASE BASED MULTIDISCIPLINARY APPROACH! (LIVE WEBINAR AVAILABLE)
Friday, June 22, 2018

SUTURING TECHNIQUES: A PRACTICAL HANDS-ON COURSE ON SOFT TISSUE SUTURING
Saturday, June 23, 2018

ADVANCED CLINICAL DENTAL HYGIENE TECHNIQUES: HANDS-ON WORKSHOP
Module I - Lecture: Friday, July 6, 2018
Module II - Hands-On: Saturday, July 7, 2018
Module III - Lectures & Hands-On: Sunday, July 8, 2018

ENDODONTICS FROM A TO Z: HANDS-ON WORKSHOP FOR THE GENERAL PRACTITIONER
Part I: Friday - Sunday, July 13 - 15, 2018
Part II: Friday - Sunday, July 20 - 22, 2018

PARENTERAL MODERATE SEDATION FOR DENTISTS
Lectures & Workshops: Monday - Sunday, July 16 - 22, 2018
Clinical Sessions I: Thursday - Sunday, August 9 - 12, 2018
Clinical Sessions II: Friday - Sunday, August 17 - 19, 2018

2018 LAS VEGAS TRAVEL & LEARN PROGRAM: THE IMMEDIATE IMPLANT - ATRAUMATIC EXTRACTION, IMMEDIATE IMPLANT PLACEMENT, CHAIRSIDE PROVISIONAL RESTORATION - A LECTURE AND HANDS-ON WORKSHOP
Cosmopolitan Las Vegas: Saturday - Sunday, July 28 - 29, 2018

3D Printing Technology for Dentists
Lecture & Hands-On Workshop
Herman Ostrow School of Dentistry of USC
Saturday - Sunday, September 8 - 9, 2018
8:00 a.m. - 5:00 p.m.

Online registration at dentalcontinuingeducation.usc.edu

How Did You Hear About This Course? ___________________________

Would You Be Interested in This Course as a Webinar? □ Yes □ No

Up to 8 Hours of Continuing Education

Registration Fees
Before August 1, 2018 Dentist: $1,195
After August 1, 2018 Dentist: $1,395

Fees include course material, continental breakfast, lunch, and refreshments during breaks.

Refunds are granted only if a written cancellation notice is received at least 14 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 7 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2018 and receive another course for FREE.

3D Printing Technology For Dentists
Herman Ostrow School of Dentistry of USC
Saturday - Sunday, September 8 - 9, 2018
8:00 a.m. - 5:00 p.m.

Online registration at dentalcontinuingeducation.usc.edu
Endodontics has seen significant technological advances in the last decade enhancing the precision and predictability of treatment. Although endodontic treatment is a predictable modality, certain case limitations may lead to failure. Difficult access, severely calcified canals and inaccessible surgical sites, can lead to failures or poor to guarded prognosis.

The purpose of this comprehensive is to introduce new digital technology related to 3D printing and planning for both implants and endodontic cases. These advancements in digital dentistry has made such cases predictable and highly successful. It also increases patients’ acceptance to treatment. Understanding this technology allows for minimally invasive procedures with lower risks.

Day 1
Morning Session
- The role of digital evaluation and treatment planning.
- CBCT scans; Myths and Reality.
- Types of affordable printers available for dentistry.
- Pros, cons and limitations of some printers and softwares.
- Open interface planning softwares - BlueSky Plan and Meshmixer.

Day 1
Afternoon Session
- Printing and designing of implant surgical guides using BlueSky Plan.
- Hands-on planning in BSP, Meshmixer and RayWare, using attendees own laptops.

* Attendees are encouraged to bring laptops with a gaming video card equivalent to or higher than Nvidia GTX 1060.

Day 2
- 3D guided endodontics. K-Endo access guide for severely calcified cases, clinical cases presentation, 3D guided endodontics.
- K-Endo surgical guide fabrication and applications.
- Hands-on planning of an endodontic access guide.

At conclusion participants should be able to:
- Develop a balanced decision process of guided case selection and treatment planning.
- Use the RayWare Software for dental 3D printing applications.
- Create an implant surgical guide in BSP.
- Develop an understanding of the use of the K-Endo access guide and its applications.
- Develop an understanding of new advancements in 3D endodontics and 3D apical surgery utilizing guided technology.
- Use BSB (Blue Sky Bio) software to design and fabricate the K-Endo guides for treating moderate to severe calcified cases and apical surgery.

This workshop course is designed and intended for dentists only.

Participants are cautioned about the potential risks of using limited knowledge when integrating new techniques into your practices.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

Herman Ostrow School of Dentistry of USC
Saturday - Sunday, September 8 - 9, 2018
8:00 a.m. - 5:00 p.m.
LECTURE & HANDS-ON WORKSHOP
8 Hours of Continuing Education Per Day

David W. Kelliny, DDS
Dr. Kelliny earned his Bachelors in Dental Surgery from Cairo University in 1992. He graduated with a Doctor of Dental Surgery degree from the University of Southern California in 1998 and earned a Certificate in Endodontics also from USC in 2001.

He is currently a part-time Clinical Assistant Professor in the Advanced Endodontics program of USC, where he has been teaching since 2002. He is involved in teaching and lecturing on various aspects of endodontics with specific emphasis on surgical endodontics and 3D dentistry.

Dr. Kelliny is a member of the American Dental Association, California Dental Association, Western Los Angeles Dental Society, American Association of Endodontists, American Dental Society of Anesthesiology and the International Congress of Implantologists.
