### Upcoming Events

**Adult and Pediatric Oral Conscious Sedation Recertification Program (Webinar Available)**

**Recertification Course**
Herman Ostrow School of Dentistry of USC
Day 1 - Adult Oral Conscious Sedation: Saturday, February 9, 2019
Day 2 - Pediatric Oral Conscious Sedation: Sunday, February 10, 2019
9:00 a.m. - 5:00 p.m.
Online Registration at dentalcontinuingeducation.usc.edu

**The Rewards and Challenges of Community-Based Oral Health Programs (Live Webinar Available)**
Saturday, March 23, 2019

**No More Anterior Crowns: Porcelain Veneers as Healthier & More Beautiful Substitutes of Crowns**
Friday, March 29, 2019

**Update on Dental Trauma**
Saturday, March 30, 2019

**Saving Natural Teeth with Endodontic Treatment**
Friday, April 5, 2019

**Minimally Invasive Adhesive and Esthetic Dentistry: A Review of Available Treatment Options & Materials**
Saturday, April 6, 2019

**Exploring Myofascial Pain, Oral Motor Disorders and Headaches (Live Webinar Available)**
Friday - Saturday, April 12 - 13, 2019

**Learning Implant Dentistry for the Restorative Dentist - Part II (Live Webinar Available)**
Saturday, May 4, 2019

**Hands-On for Mini-Residency Certificate in Orofacial Pain**
Thursday, May 30 - June 1, 2019

**Suturing Techniques: A Practical Hands-On Course on Soft Tissue Suturing**
Saturday, June 1, 2019

**Periodontal and Implant Decision Making: From Treating the Ailing Tooth to the Failing Implant (Live Webinar Available)**
Friday, June 7, 2019

**Fixed and Removable Options with Dental Implants for the Fully Edentulous Arches**
Lecture: Friday, June 14, 2019
Lecture & Hands-On: Friday - Saturday, June 14 -15, 2019

**Mastering Oral Pathology, Radiology, and Medicine: An Interactive and Participative Case Based Multidisciplinary Approach!**
Friday, June 21, 2019

**Endodontics from A to Z: Hands-On Workshop for the General Practitioner**
Part I: Friday - Sunday, July 12 - 14, 2019
Part II: Friday - Sunday, July 26 - 28, 2019

**Advanced Clinical Dental Hygiene Techniques**
Part I: Friday, July 12, 2019
Part II: Saturday, July 13, 2019
Part III: Sunday, July 14, 2019

---

**Registration Fees**

**Before January 1, 2019**
- Day 1 - Dentist: $415
- Day 2 - Dentist: $415
- Both Days - Dentist: $710
- Day 1 - Webinar: $415
- Day 2 - Webinar: $415
- Both Days - Webinar: $710

**After January 1, 2019**
- Day 1 - Dentist: $490
- Day 2 - Dentist: $490
- Both Days - Dentist: $810
- Day 1 - Webinar: $490
- Day 2 - Webinar: $490
- Both Days - Webinar: $810

**Special Daily Rate for USC Pediatric Dental Alumni: $325/day**
James Tom, DDS, MS  
(Course Director)  
Dr. Tom is Clinical Associate Professor at the Herman Ostrow School of Dentistry of USC, Division of Endodontics, Orthodontics, and General Practice Residency. He is President-Elect of the American Society of Dentist Anesthesiologists (ASDA) and has served as their Program Director for various continuing education courses. Recently he completed his appointment as the post-doctoral dental anesthesia education representative for the Commission on Dental Accreditation (CODA) and has served as faculty for the ADA’s simulation-based course on the Recognition and Management of Complications During Minimal and Moderate Sedation. He provides anesthesia education in the pre-doctoral, post-doctoral, and dental hygiene levels while also being clinically active in the anesthesia care of children and patients with special needs.

Philip Yen, DDS, MS  
Dr. Yen grew up in Northern California’s Bay Area, then traveled to Southern California for his undergraduate studies. Dr. Yen graduated with a degree in Physiology from UCLA, then went across town to attend dental school at the University of Southern California School of Dentistry and graduated Summa Cum Laude. Throughout his education, he has been involved in many research projects including anesthetic drug profiling, novel ophthalmic protein characterization, and DNA repair mechanisms. Dr. Yen is a board certified diplomate and serves on the board of directors of the American Dental Board of Anesthesiology. This appointment, along with serving as a oral board examiner, allows Dr. Yen to make ongoing contributions towards maintaining and elevating a high standard of practice in the field of Dental Anesthesiology. Dr. Yen contributes continuing education review articles to the journal Anesthesia Progress and lectures to various dental groups.

Andrew S. Young, DDS  
Dr. Young began his undergraduate studies in Biological Sciences at Drexel University in Philadelphia, Pennsylvania. He earned his doctorate at the Herman Ostrow School of Dentistry of USC, before completing a three-year residency in Dental Anesthesiology at the University of Pittsburgh, School of Dental Medicine and the University of Pittsburgh Medical Center. Dr. Young is a board-certified diplomate of the American Dental Board of Anesthesiology. Throughout his training, Dr. Young has actively participated in student education by teaching and lecturing for courses encompassing local anesthesia, medical emergencies, and sedation/general anesthesia concepts. Dr. Young is a published author in notable scientific journals including, Anesthesia Progress and Special Care in Dentistry. He has also presented research both nationally and internationally.

Synopsis

This course is a recertification program geared towards how to safely provide oral conscious sedation for adult and pediatric patients through the study of physiology and pharmacology.

The course on Saturday will complete the 2 year requirement (7 CE hours) for recertification of adult oral sedation. The course on Sunday will complete the 2 year requirement (7 CE hours) or the recertification of pediatric oral sedation. Pediatric oral sedation is defined as 13 and younger. Only recertification courses will be offered. This is NOT an initial certification course.

There will be a review of physiologic principles and how key features affect the administration of sedative medications in different patient populations. Emergency management will be covered in an realistic and applicable manner that reflects the likely scenarios to be encountered when introducing sedation to the dental office. There will be discourse into emergency prevention and proper office training.

This course will present and teach various medications, techniques, and combinations found in published literature, in addition to popular contemporary techniques, with an emphasis on evaluating risk benefit ratios for each. There will be a review on how patient selection and medication selection can help maximize success and reduce the stress of failed outcomes.

There will be an assessment of probabilities and statistics in relation to the dangers of sedation, and how to utilize this data to make purposeful treatment decisions.

Upon completion of this course, participants should be able to:

• Develop a broad knowledge base in the administration of oral conscious sedation.
• Review the techniques and principles of sedation that help uncover the relationship between effectiveness and safety.
• Provide established and novel concepts in sedation for the recertification of an Oral Conscious Sedation Permit in California.

LIVE WEBINARS - ZOOM.US

Join Zoom meeting from your computer or phone: Open the Zoom Meeting link in the email provided by USC Continuing Education or go to http://zoom.us, and enter the Meeting ID to join a meeting. Download and run the application if applicable.

Technical Support:  
Call our continuing education office at +1-213-821-2127, email cedental@usc.edu, OR type in the chatbox provided by Zoom.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation. Participants are cautioned about the potential risks of using limited knowledge when integrating new techniques into your practices.
