An Interdisciplinary Approach to Periodontics: From Hygiene to Titanium and the Science Between

Cruise to Alaska Aboard Norwegian Pearl
Sunday, June 28 - Sunday, July 5, 2015
An Interdisciplinary Approach to Periodontics: From Hygiene to Titanium and the Science Between

Alon Frydman, DDS
Dr. Frydman is Assistant Professor of Clinical Dentistry in the Division of Periodontology, Diagnostic Sciences and Dental Hygiene and the Division of Restorative Sciences at the Herman Ostrow School of Dentistry of USC. Dr. Frydman received his dental degree from UCLA and graduated from the Advanced Periodontology Program at USC, where he has since been a faculty member. Dr. Frydman teaches courses in treatment planning and implant therapy for Advanced Periodontology and dental students. He lectures nationally and is a Diplomate of the American Board of Periodontology, a member of the American Academy of Periodontology, ADA, CDA and the Western Los Angeles Dental Society.

Synopsis

The aim of the course is to take an in depth look at periodontics from an interdisciplinary perspective. Understanding the current evidence behind periodontal diagnosis, prognosis and treatment will ultimately allow the participant to deliver a more comprehensive treatment plan and more effective therapy. The periodontal perspective will be viewed in relation to the other specialties with the understanding of the overall restorative goals. The review of basic to advanced periodontal therapies will be compared to current and emerging implant science in order to be able to fully weigh treatment decisions and evaluate long term outcomes. Periodontal therapies being utilized today in treatment of periodontal disease, pre-prosthetic issues, esthetic and functional restorative needs, occlusal issues, as well as implant management will also be reviewed. Throughout the course, daily interactive sessions will be conducted. These sessions will allow for participants to enter scenarios from the perspective of insurance companies, utilization reviewers, expert witnesses, as well as the emerging internet informed patient.

Learning Objectives

- Understand peri-prosthetic diagnosis and treatment planning
- Know advances in periodontal therapy
- Recognize the impact of periodontal disease on peri-implant therapies
- Answer case management questions
- Gain an understanding of the theory and science behind periodontal and restorative interactions
- Explore periodontal and restorative interactions
- Understand pre-prosthetic periodontal diagnosis and therapy

NORWEGIAN PEARL, CRUISE AT SEA, ALASKA

Join us as we set sail aboard the brand new, NORWEGIAN PEARL, for 7 breathtaking days in ALASKA. Enjoy nature’s pristine grandeur just as it was hundreds of years ago. It’s an experience unlike any other and one you will not soon forget.

The PEARL was specifically built with FREESTYLE CRUISING in mind and offers its guests the same amenities as a five-star resort, with outstanding restaurants, excellent service and an elegant atmosphere. Dine when you want and choose from 12 different restaurants.

There is so much to see and do on an Alaskan experience. Go whale watching, take the White Pass Railroad to the Yukon, pan for gold, take a helicopter ride and walk on a glacier, try sea kayaking, salmon fishing or even dogsledding!

Enjoy an outstanding CE program in a relaxing atmosphere and in the company of friends and colleagues.

The ship sails from Seattle, Washington on June 28, 2015, and returns to Seattle on July 5, 2015. Please make your own travel reservations to Seattle. Together with our travel agent we will be happy to assist you with any transfers, hotel packages, or shore excursions that you may require. We invite you to get onboard and enjoy an experience of a lifetime!
