Herman Ostrow School of Dentistry of USC
Continuing Professional Education

Herman Ostrow School
Pay it Forward!
This course discusses different models to provide oral health in a community based setting, engaging the local leaders, families, teachers and medical care providers as part of a multidisciplinary team. The role of the different social actors is analyzed, and the strategies for sustainability are discussed. There are many models and each one has its own ins and outs, thus a discussion on successful experiences will help to identify appropriate ways to provide care, promote oral health, and at the same time, have a financially sustainable project.

### Speakers

- **Roseann Mulligan, DDS, MS, FADPD, DABSCD (Course Director)**

### ADA CERP

University of Southern California Herman Ostrow School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
