A Contemporary Approach to Diagnosis, Treatment Planning and Therapy in Periodontics

Friday, December 12, 2014
9:00 am - 5:00 pm

★ Life-Long Tradition and Excellence ★
**SPEAKERS**

**Ziv Simon, DMD, MSc**
Dr. Simon is a Diplomate of the American Board of Periodontology and a Fellow of the Royal College of Dentists of Canada. He obtained his dental degree from Tel Aviv University and his periodontal degree from the University of Toronto. He lectures nationally and internationally on esthetic tissue reconstruction and computer-guided implant dentistry. He maintains a private practice limited to periodontics in Beverly Hills, California. Dr. Simon is the creator of *SurgicalMaster*, the surgical training program for dentists.

**Ilan Rotstein, DDS**
Dr. Rotstein is Professor and Chair of the Division of Endodontics and General Practice Residency and Associate Dean of Continuing Professional Education at the Herman Ostrow School of Dentistry of USC. He has been Chair of the Research Committee of the International Federation of Endodontic Associations and past member of the Research and Scientific Affairs Committee of the American Association of Endodontists. Dr. Rotstein published more than 100 papers and textbook chapters in the dental literature and has lectured extensively nationally and internationally in more than 20 countries.

**SYNOPSIS**

Periodontal disease is a chronically destructive condition affecting many patients. The primary bacterial etiology with several possible local and systemic risk factors account for a rather complex disease entity. It is crucial for clinicians to include periodontal considerations in their treatment planning and in the active phase of therapy.

This course is designed to provide clinicians with the most current knowledge on fundamental issues in periodontics. Participants will learn how to diagnose periodontal disease and related conditions and to assess teeth prognosis. The course will also explore several periodontal treatment modalities and their relation to restorative and reconstructive aspects of treatment. State-of-the-art reviews and position statements by the American Academy of Periodontology (AAP) will be included.

The information presented in this course will be clinically-relevant to help participants provide optimal comprehensive care for their patients.

* This course is intended for general dentists, periodontists, prosthodontists, oral surgeons, endodontists, dental hygienists, and other members of the dental team.

**TOPICS TO BE DISCUSSED**
- Bacterial etiology of periodontitis
- Secondary etiologies and risk factors
- Performing a comprehensive periodontal examination
- Classification of periodontal diseases and conditions (AAP)
- How to determine differential diagnoses: periodontal, endodontic and combined lesions
- How to determine prognosis?
- Systemic and localized antibiotic regimens: when is each one indicated?
- The relationship between occlusion and periodontal disease
- The furcation dilemma: What are the treatment options?
- Periodontal disease and the link with systemic diseases
- Surgical vs. non-surgical treatments: when are they indicated?
- Gingival lesions and indications for biopsy
- What is appropriate periodontal maintenance?
- When to refer to a specialist (AAP)

**Registration Fees**

**Before November 15, 2014**
- Dentist: $295
- Auxiliary: $195

**After November 15, 2014**
- Dentist: $375
- Auxiliary: $265

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
