CE BONUS REWARD

Modern dentistry is constantly undergoing rapid advances in biology, technology, biomaterials and treatment concepts. Now, more than ever, an interdisciplinary team approach will benefit the oral healthcare professional by enhancing case selection, treatment planning and prognosis thereby promoting clinical success and patient satisfaction. In this course, a team of experts from the Herman Ostrow School of Dentistry of USC will present current interdisciplinary clinical approaches and discuss techniques to help you enhance successful outcome of your clinical cases.

Topics to be covered:

- Orthognatic surgery procedures
- Orthognatic case selection and treatment planning
- Distraction osteogenesis
- Prosthetic restorations assisted by orthodontics
- Surgical procedures to enhance prosthetic rehabilitation outcome
- Treatment planning for patients with complex dental disorders
- Effective and safe antimicrobial approach to periodontal therapy
- Selection of optimal antibiotics and antiseptics for periodontal therapy
- Interrelationship between endodontic and periodontal diseases
- Diagnosis and clinical decision-making for treating endodontic-periodontal cases
- Decision criteria and treatment options to restore endodontically treated teeth
- Multidisciplinary approach for the rehabilitation of endodontically treated teeth

Synopsis

Dennis-Duke R. Yamashita, DDS, FACD, FICD
Dr. Yamashita is a Clinical Professor, Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics and Director of the Advance Oral and Maxillofacial Surgery Residency Program, Ostrow School of Dentistry and USC Medical Center. He is a Diplomat of the American Board of Oral and Maxillofacial Surgeons. Dr. Yamashita holds a Fellowship of the American College of Dentists, and is a Fellow of the International College of Dentists.
Topic: Orthognatic surgery

Ilan Rotstein, DDS (Course Director)
Dr. Rotstein is Professor and Chair of the Division of Endodontics, Oral & Maxillofacial Surgery & Orthodontics and Associate Dean of Continuing Education at the Ostrow School of Dentistry of USC. He is Chair of the Research Committee of the International Federation of Endodontic Associations and past member of the Research and Scientific Affairs Committee of the American Association of Endodontists. Dr. Rotstein published more than 100 papers and textbook chapters in the dental literature and has lectured extensively nationally and internationally in more than 20 countries.
Topic: Endodontic-periodontal continuum

Harel Simon, DMD
Dr. Simon received his DMD degree from the Hebrew University, Jerusalem, Israel in 1991. He received his specialty certificate in advanced prosthodontics from UCLA School of Dentistry in 2000. Dr. Simon is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prosthodontics. He has conducted research, published and lectured nationally and internationally on esthetics and implant prosthodontics. He currently serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International and is the Chairman of the Parameters of Care Committee of the American College of Prosthodontists. Dr. Simon practices in Beverly Hills, California and is a Clinical Associate Professor at the Ostrow School of Dentistry of USC.
Topic: Restorative considerations of endodontically treated teeth

Jørgen Slots, DDS, DMD, PhD, MS, MBA
Dr. Slots is Professor of Dentistry and Microbiology at the Ostrow School of Dentistry of USC. He graduated from the Royal Dental College in Copenhagen, Denmark in 1969. In 1976 he completed his Postgraduate Education in Periodontology at the Royal Dental College in Copenhagen, and in 1977 obtained a Certificate in Microbiology from the Forsyth Dental Center, Boston, MA. He obtained a D.M.D. degree in 1987 and an M.B.A degree in 1989 from the University of Pennsylvania. Dr. Slots has served as Chair of the Dept. of Oral Microbiology at the University of Göteborg in Sweden (1982-1986), Chair of Periodontology at the Ostrow School of Dentistry of USC (1991-2001) and Associate Dean for Research (1990-2000). Since 1991 he has served as Head of the Oral Microbiology Testing Laboratory.
Topic: Microbiologic clinical solutions in periodontics

Baldwin Marchack, DDS, MBA
Dr. Marchack graduated from the Ostrow School of Dentistry of USC and received his MBA from UCLA. He is Past-President of the American Prosthodontic Society, the Pacific Coast Society for Prosthodontics, and the American Academy of Esthetic Dentistry. He is the Chair-elect of the Editorial Council for the Journal of Prosthetic Dentistry, and serves on the Board of Councilors of the Ostrow School of Dentistry of USC. He is the author of numerous articles and has presented over 300 lectures nationally and internationally. Dr. Marchack maintains a private practice in Pasadena, California, with an emphasis on esthetic, restorative and implant dentistry.
Topic: Prosthetic rehabilitation with the aid of orthodontic and surgical procedures

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
