USC Ruth Ragland 24th Dental Hygiene Symposium: Lecture & Hands-On

USC Davidson Executive Conference Center
Lecture: Saturday, March 6, 2010
Hands-On: Sunday, March 7, 2010
8:00 a.m. - 5:00 p.m.

Online registration at www.uscdentalce.org

Registration Fees

Before February 1, 2010
Lecture Only: $170
Hands-On: $375

After February 1, 2010
Lecture Only: $205
Hands-On: $415

Fees include continental breakfast, lunch, and refreshments during breaks.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. No refund will be granted if cancellation occurs within 14 days before this course. No refund will be given for cancellations received after this date.

7 Hours of Continuing Education For Day 1
8 Hours of Continuing Education For Day 2

Lecture: Saturday, March 6, 2010

8:00am Registration
Continental Breakfast
9:00am Opening Remarks
Diane Melrose, RDH, BS
Chair Dental Hygiene
9:15am Rational Approaches for Antimicrobial Treatment of Periodontal Disease
Jørgen Slots, DDS, DMD, PhD, MS, MBA
10:30am Break
11:00am Jørgen Slots, DDS, DMD, PhD, MS, MBA
12:30pm Lunch
1:30pm Women's Aging Complexities - The 2010 Oral Health Connection
Pam Hughes, RDH, BS, MS
or
Advanced Periodontal Instrumentation (Part I)
Anna M. Pattison, RDH, MS
3:00pm Break
3:30pm Pam Hughes, RDH, BS, MS
or
Anna M. Pattison, RDH, MS
4:30pm Closing Remarks

Hands-On: Sunday, March 7, 2010

7:00am Registration
Continental Breakfast
8:00am - 5:00pm Advanced Periodontal Instrumentation (Part II)
Anna M. Pattison, RDH, MS
Pam Hughes, RDH, BS, MS
Ms. Hughes is Past President of the California Dental Hygiene Educators’ Association and the California Dental Hygienists’ Association. She has 30 years of clinical practice in general and periodontal practice settings and is faculty in the Department of Dental Hygiene at the USC School of Dentistry. With a Masters degree in Gerontology, Ms. Hughes has presented at the Joint Council of National Aging Annual Meeting and the American Society of Aging on the dental professional’s role in recognizing elder abuse and the prevalence and concern of alcohol abuse among the aging population. Additionally, she is faculty in the Gerontology Graduate program at the University of La Verne in Southern California.

Topic: Women’s Aging Complexities - The 2010 Oral Health Connection

Anna M. Pattison, RDH, MS
Anna Pattison received her B.S. Degree in Dental Hygiene from USC in 1967 and her M.S. in Dental Hygiene from Columbia University the following year. She is currently an Associate Professor and former Chair of the Department of Dental Hygiene at USC. Mrs. Pattison is the coauthor of the textbook Periodontal Instrumentation and has contributed to the last five editions of Carranzas (previously Glickman’s) Clinical Periodontology.

Topic: Advanced Periodontal Instrumentation

Jørgen Slots, DDS, DMD, PhD, MS, MBA
Dr. Slots is Professor of Dentistry and Microbiology at USC School of Dentistry. He graduated from the Royal Dental College, Copenhagen, Denmark in 1969. In 1976 he completed his Postgraduate Education in Periodontology at the Royal Dental College in Copenhagen, and in 1977 obtained a Certificate in Microbiology from the Forsyth Dental Center, Boston, MA. He obtained a D.M.D. degree in 1987 and an M.B.A degree in 1989 from the University of Pennsylvania. Dr. Slots has served as Chair of the Dept. of Oral Microbiology at the University of Goteborg in Sweden (1982-1986), Chair of Periodontology at the USC School of Dentistry (1991-2001) and Associate Dean for Research at the USC School of Dentistry (1990-2000). Since 1991 he has served as Head of the Oral Microbiology Testing Laboratory.

Topic: Rational Approaches for Antimicrobial Treatment of Periodontal Disease

Synopsis

We are pleased to bring you another excellent program. The morning session will be with Dr. Jørgen Slots. He will discuss various antimicrobial treatment protocols for periodontal disease. These will include a battery of professionally and patient administered antimicrobial agents. In the afternoon participants will be given a choice to attend a presentation given by Pam Hughes or Anna Matsuishi Pattison. Pam Hughes will identify the top five women’s health concerns as they relate to the aging process. She will address dental hygiene treatment of these issues. Anna Matsuishi Pattison will be presenting a half-day lecture on new instruments for advanced periodontal instrumentation for 2009 and, in addition, an all-day hands-on advanced periodontal instrumentation workshop on Sunday. The lecture course on Saturday afternoon is a prerequisite for the workshop on Sunday unless you have already taken one of her lectures on advanced periodontal instrumentation in the last two years (document of proof required upon registration).

Day 1 (Lecture) - Topics to be covered:

- Periodontal treatment that includes a battery of professionally and patient administered antimicrobial agents
- Available chemotherapeutics that provide effective, safe, practical and affordable means of controlling subgingival colonization of periodontal pathogens and various types of periodontal disease
- Various antimicrobial treatment protocols for periodontal disease
- Identify the top five women’s health concerns as they relate to the aging process
- Connections between oral health and systemic conditions including cardiovascular disease, diabetes, stroke, and oral bisphosphonate therapy for the osteoporosis patient
- Dental hygiene process of care in order to ensure optimal care
- Credible findings from the Nurses’ Health Study and the Women’s Health Initiative for and about women.
- Rationale for root debridement
- The influence of endoscopy on periodontal instrumentation
- Videotape comparing hand and ultrasonic instrumentation
- Use of Gracey 15/16, Gracey 17/18, Extra Rigid Graceys, After Fives™ and Mini Fives™, Micro Mini Fives™, Gracey Curvettes, universal curets, new sickles, files, diamond-coated files, furcation curets, implant instruments and other new periodontal instruments
- Comparison of magnetostrictive and piezoelectric ultrasonic units and tip designs
- Innovative extraoral, reinforced, cross arch and opposite arch fulcrums and positions
- Specific techniques for furcations, line angles, and deep narrow pockets

Day 2 (Hands-On) - Topics to be covered:

- Root planing exercises and root morphology review on extracted teeth
- Keys to effective instrumentation technique
- Sextant by sextant hands-on instrumentation experience on typodonts with accurate root anatomy and periodontal defects
- Use of Gracey 15/16, Gracey 17/18, Extra Rigid Graceys, After Fives™ and Mini Fives™, Micro Mini Fives™, Gracey Curvettes, new sickles, diamond-coated files and furcation curets
- Use of extraoral, reinforced, crossect and opposite arch fulcroms
- Innovative approaches for access to difficult problem areas such as furcations, line angles and deep, narrow pockets
- Instrument sharpening
