Clinical and Biological Concepts of Modern Endodontics

2010

USC Davidson Executive Conference Center
University Park Campus
Friday - Saturday, November 19 - 20, 2010
8:30 a.m. - 5:00 p.m.

Corporate Sponsors
Dear Friends and Colleagues,  
It is our pleasure to invite you to the Ninth International Endodontic Symposium of the Herman Ostrow School of Dentistry of USC. Internationally renowned experts from France, New Zealand and the United States will present the most recent advances in the field. The program includes updates on current hot topics in endodontics and advanced treatment modalities as well as an insight into the future of endodontics.

This International Symposium promises to be a most exciting event and will provide you, the clinician, with more relevant information and tools to bring you to the next level of excellence in delivering the best evidence-based endodontics to your patients.

We look forward to welcoming you at our symposium.

Ilan Rotstein, DDS  
Symposium Chair

James H. Simon, BA, DDS  
Program Chair

James L. Gutmann, DDS, PhD(honoris causa), FICD, FACD, FADI (USA)

Dr. Gutmann is Professor Emeritus, Baylor College of Dentistry, Texas A&M University Health Science Center, Dallas, Texas. He studied dentistry at the Marquette University School of Dentistry and received his specialty training in endodontics at the University of Illinois College of Dentistry in Chicago. Dr. Gutmann served in the U.S. Army Dental Corps for two years. He was a past president of the American Association of Endodontists, Diplomat of American Board of Endodontics, as well as the past chairman of the Department of Endodontics at Baylor College of Dentistry. Dr. Gutmann has authored three text books and numerous articles on endodontics. He has lectured extensively in 51 countries around the world. Topic: Biologic perspectives on the road less traveled

Charles J. Goodacre, DDS, MSD (USA)

Dr. Goodacre received his DDS degree from Loma Linda University School of Dentistry in 1971. He completed a three year combined program in Prosthodontics and Dental Materials at Indiana University School of Dentistry and in 1974 earned his MSD degree. He began full-time teaching at Indiana University School of Dentistry in 1974 and has received awards from senior dental classes as the outstanding clinical instructor and lecturer. He served as Chairman of the Department of Prosthodontics at Indiana University, and currently is Dean of the Loma Linda University School of Dentistry. He is a Diplomat of the American Board of Prosthodontics, Past-President of the American Board of Prosthodontics, a Fellow of the Academy of Prosthodontists, Fellow of the American College of Prosthodontists, and holds membership in the American Academy of Fixed Prosthodontics. He was co-author of the 4th edition of the textbook and presented presentations in Fixed Prosthodontics, and served as an editor of the International Journal of Prosthodontics. Topic: Tooth retention through root canal treatment or tooth replacement using implants or fixed partial dentures: Which one is best?

James Bahcall, DMD, MS (USA)

Dr. Bahcall is an Associate Professor and Director of the Postgraduate Endodontic Residency Program at Marquette University School of Dentistry. He is a Diplomat of the American Board of Endodontics. He has pioneered and is a leading authority on fiber optic and endoscopic visualization in the field of endodontics. Dr. Bahcall has also co-pioneered polymer-based abrasive rotary files and ultrasonic tips. He has been the recipient of outstanding teaching awards and has published numerous scientific articles, as well as written chapters for endodontic textbooks. He serves as a member of the Scientific Advisory Boards of the Journal of Endodontics, Journal of Maxillofacial & Oral Surgery and Lasers in Surgery and Medicine. Dr. Bahcall lectures on endodontics both nationally and internationally. Topic: Integrating polymer-based abrasive rotary files and ultrasonic tips into your conventional endodontic treatment

Robert A. Handysides, DDS (USA)

Dr. Handysides is an associate professor and chair of the department of endodontics at Loma Linda University School of Dentistry. He received his D.D.S. degree from Loma Linda University in 1983 and a certificate in endodontics in 2001. Dr. Handysides was in private practice for 6 years in Kingston, Ontario, Canada prior to returning to Loma Linda for the post doctoral endodontic residency program. Upon completion of the residency program in 2001, he stayed on at Loma Linda in a full time capacity to pursue his interest in dental education. Dr. Handysides is a Diplomate of the American Board of Endodontics. He teaches both didactically and clinically and actively participates in endodontic patient care. Topic: Management of endodontic emergency patients

Bertrand Khayat, DDS, MSD, (France)

Dr. Khayat graduated from the University of Paris in 1982 and obtained his certificate in endodontics and his master of science in dentistry from the University of Washington in 1987. He maintains a private practice limited to endodontics. Dr. Khayat has lectured extensively both nationally and internationally. He is also widely published and an active member of many international endodontic societies and associations. He maintains a private practice limited to endodontics in Paris, France. Topic: A new vision of endodontic surgery

Robert Love, BDS, MDS, PhD, FRACDS (New Zealand)

Dr. Love is Head of the Department of Oral and Surgical Sciences, and Head of the Endodontic Discipline at the University of Otago School of Dentistry. He practices and teaches endodontics and is actively involved in endodontic research. He has published extensively with his main area of research being the mechanisms involved in bacterial invasion of dentine. He has been involved in numerous professional organizations including President and Editor NZ Endodontic Society, President NZ Section NZ Division IADR, President Otagoo Branch NZ Dental Association, and Councillor Asia Pacific Endodontic Confederation. He previously held the position of Associate Editor, Journal of the NZ Dental Journal, and is on the Editorial Boards of Dental Traumatology, International Endodontic Journal, European Journal of Dentistry, and Scientific Books of the Journal of Endodontics and the Australian Endodontic Journal. Dr. Love is Chairman of the Dental Council of New Zealand and has lectured and presented courses in New Zealand, Australia, USA, and Europe. Topic: The effect of bioactive molecules in preventing bacterial invasion of dentine

Christine Sedgley, BDS, MDS, MSc, FRACDS, MRACDS, PhD (USA)

Dr. Sedgley is Associate Professor and Chair, Department of Endodontics at the Oregon Health and Sciences University, and former Assistant Professor at the University of Michigan. She has participated in approximately 90 continuing education and research presentations. Her research interests include endodontic microbiology and root canal disinfection. Dr. Sedgley has published more than 50 scientific articles, authored and co-authored chapters in the Endodontic Microbiology chapter in Ingle’s Endodontics. She serves on the editorial boards of the Journal of Endodontics, International Endodontic Journal, Brazilian Oral Health and ENDOD Endodontic Practice Today. Dr. Sedgley has lectured extensively both nationally and internationally. Topic: Endodontic irrigation - clinical and biological aspects

James D. Johnson, DDS, MS, FICD (USA)

Dr. Johnson is Chair of the Department of Endodontics at the University of Washington School of Dentistry. He serves as the Program Director of the Advanced Specialty Education Program in Endodontics at the University of Washington. Dr. Johnson retired from the U.S. Navy Dental Corps in 2005 at the rank of Captain. He is a former Specialty Leader for Endodontics, Bureau of Medicine and Surgery to the Surgeon General of the Navy. He was Chairman of the Endodontic Department and Director of the Advanced Specialty Education Program in Endodontics at the University of Washington Dental School, and Chair of the Research Department at the Naval Postgraduate Dental School in Bethesda, Maryland. He is a Diplomate of the American Board of Endodontics, and is a Director of the American Board of Endodontics. He has published many scientific articles and has authored a chapter in the 6th edition of Ingle’s Endodontics. Dr. Johnson has lectured both nationally and internationally. Topic: Pulp revascularization
