* Completion of Module I is required for enrollment in Module II.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $60 fee is withheld for processing. For additional regulations, see the form and send.
Bach Le, DDS, MD, FICD
Dr. Le is a Clinical Associate Professor, Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics and Assistant Director, Oral and Maxillofacial Surgery, USC School of Dentistry and USC Medical Center. He is a Diplomate of the American Board of Oral & Maxillofacial Surgeons, the American Dental Society of Anesthesiologists, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the International College of Dentists and the International Association of Oral and Maxillofacial Surgeons. Dr. Le maintains a private practice in Whittier, California.

David A. Hochwald, DDS
Dr. Hochwald is a Clinical Professor at the Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics at the USC School of Dentistry. Dr. Hochwald is a Diplomate of the American Board of Oral and Maxillofacial Surgery. He is a Fellow in the American Association of Oral and Maxillofacial Surgeons, a Fellow in the Academy of Dentistry International, and a Fellow in the International College of Dentists. Dr. Hochwald has extensive experience in preprosthetic and implant surgery, which has been his focus of interest in practice. He is currently in private practice in Bellflower and Huntington Beach, California.

Dennis-Duke R. Yamashita, DDS, FACD, FICD
Dr. Yamashita is a Clinical Professor, Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics and Director of Advance Oral and Maxillofacial Surgery Residency Program, USC School of Dentistry and USC Medical Center. He is a Diplomate of the American Board of Oral and Maxillofacial Surgeons. Dr. Yamashita holds a Fellowship of the American College of Dentists, and is a Fellow of the International College of Dentists.

This advance bone graft course will feature scientific lectures and a hands-on workshop. The course will focus on the most current and practical techniques in bone grafting to improve long-term clinical success with dental implants. This course is designed for the clinician that has prior experience in placing implants and who would like to broaden his/her knowledge and scope of practice and improve surgical skills.

Upon completion of this course, participants should be able to:
- Perform minimally invasive and esthetic grafting techniques
- Perform the screw tent-pole grafting technique for ridge augmentation
- Understand the role of growth factors on graft healing
- Know the advantages and disadvantages of various flap designs on overall esthetics
- Perform maxillary sinus grafting
- Know guidelines and indications for block grafts, particulate onlay grafts, ridge expansions
- Compare various graft materials
- Harvest ramus and chin grafts
- Know practical methods of handling the vertically deficient posterior mandible
- Perform atraumatic tooth removal techniques to avoid damage to hard and soft tissue architecture
- Implement CT technology in diagnosis and treatment planning
- Learn and implement piezo electric technology
- Sequence soft tissue procedures for bone grafting and implant surgery
- Understand concepts of papilla regeneration and development as it relates to grafting
- Understand the fundamentals of grafting the esthetic zone
- Know the five criteria for successful and esthetic grafting
- Recognize, manage, and prevent bone graft complications
