LECTURES & HANDS-ON WORKSHOP

Esthetic Full-Mouth Implant Reconstruction

A step by step approach

USC School of Dentistry
Module I: Saturday, March 14, 2009
Module II: Friday, March 20, 2009
Module III: Saturday, March 21, 2009
9:00am - 5:00pm

MATERIALS USA
This course is recommended for:

- Restorative dentists, prosthodontists, periodontists and oral surgeons who would like to be exposed to state-of-the-art aesthetic fixed implant reconstruction of the edentulous patient.
- Laboratory technicians, dental assistants and treatment coordinators who would like to learn about this treatment modality, to be able to present this option to patients and collaborate as part of the dental implant team.

**Topics to be Covered**

- Diagnostic tools such as flangeless record base, wax-up, setup, intraoral mock-up and radiographic templates.
- Esthetic pontic design of the horizontally submerged ovate pontic and the fused pontic design.
- Gingiva-colored ceramics design and technique.
- Provisionalization: fixed or removable?
- Transitional implants to support provisional restorations.
- The conversion prosthesis as a treatment philosophy.
- Communication with the surgeon, laboratory and patient to obtain predictable results.
- Laboratory techniques and procedures.
- Surgical considerations.

**Module I - March 14, 2009:**
Esthetic implant reconstruction: from overdentures to full-mouth fixed

- Fundamental treatment options for the edentulous patient.
- Comprehensive diagnosis and treatment planning.
- Individual attachments vs. bar overdentures.
- Implant supported vs. implant-tissue supported overdentures.
- Esthetic metal-resin and ceramic-fixed implant reconstruction.
- Practical and time saving tips for full-mouth reconstruction.

**Module II - March 20, 2009:**
Advanced designs and treatment planning for esthetic full-mouth fixed metal ceramic reconstruction

- Advanced prosthesis designs from screw retained to custom abutments and telescopic coping.
- Simplicity in design: from one-piece complete arch to the segmented design.
- Esthetic full-mouth implant reconstruction in one visit?
- Fixed implant reconstruction of patients with severely resorbed ridges and lack of lip support.
- Surgical reconstruction to recreate lip support.
- Management of complications.

**Module III - March 21, 2009:**
Conversion of complete dentures to fixed implant restorations in one clinical visit

HANDS-ON WORKSHOP (Limited attendance) *Completion of either Module I or Module II is required*

Faculty: Harel Simon, DMD; Sam Alawie, DPD; Joseph Field, DDS; Sheryl Regalado, DMD, and USC faculty.

In this unique and exclusive course, participants will receive models of completely edentulous arches with implants and corresponding complete dentures. Each participant will convert a complete denture to a fixed implant supported provisional restoration.

This technique is the core philosophy for a simplified approach for implant reconstruction. Mastering this technique simplifies the restorative sequence significantly and enhances the predictability of the treatment from an aesthetic and functional point of view.

Upon completion, participants will receive these models for their implant team.

**Fees**

- **Complete Course (Module I, II, & III)**
  - Before February 1, 2009: Dentist $2,495; Auxiliary $1,595
  - After February 1, 2009: Dentist $2,295; Auxiliary $1,495

- **Module I (Saturday, March 14, 2009)**
  - Esthetic Full-Mouth Fixed Metal Ceramic Reconstruction
  - Before February 1, 2009: Dentist $2,495; Auxiliary $1,595
  - After February 1, 2009: Dentist $2,295; Auxiliary $1,495

- **Module II (Friday, March 20, 2009)**
  - Advanced Designs and Treatment Planning for Esthetic Full-Mouth Fixed Metal Ceramic Reconstruction
  - Before February 1, 2009: Dentist $2,495; Auxiliary $1,595
  - After February 1, 2009: Dentist $2,295; Auxiliary $1,495

- **Module III (Saturday, March 21, 2009)**
  - Conversion of Complete Dentures to Fixed Implant Restorations in One Clinical Visit (Limited Attendance Hands-On Workshop*)
  - Before February 1, 2009: Dentist $1,595; Auxiliary $995
  - After February 1, 2009: Dentist $1,595; Auxiliary $995

**Refunds**

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition is nonrefundable. Late cancellations occurring within 14 days before this course. No refund is granted after that. A $50 fee is added for processing. For additional registrations, contact via this form and send.

**TOPICS TO BE COVERED**

- Diagnostic tools such as flangeless record base, wax-up, setup, intraoral mock-up and radiographic templates.
- Esthetic pontic design of the horizontally submerged ovate pontic and the fused pontic design.
- Gingiva-colored ceramics design and technique.
- Provisionalization: fixed or removable?
- Transitional implants to support provisional restorations.
- The conversion prosthesis as a treatment philosophy.
- Communication with the surgeon, laboratory and patient to obtain predictable results.
- Laboratory techniques and procedures.
- Surgical considerations.

**Faculty**

Harel Simon, DMD

Dr. Harel Simon received his DMD degree from the Hebrew University, Jerusalem, Israel in 1991. He received his specialty certificate in advanced prosthodontics from UCLA, School of Dentistry in 2000. Dr. Simon is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prosthodontists. He has conducted research, published and lectured nationally and internationally on esthetics and implant prosthodontics. He currently serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International and is the Chairman of the Parameters of Care Committee of the American College of Prosthodontists. Dr. Simon practices in Beverly Hills, California and is a Clinical Associate Professor at USC School of Dentistry. Dr. Simon can be reached at sims1@hotmail.com.
