Esthetic Full-Mouth Implant Reconstruction

A step by step approach

USC School of Dentistry
Module I: Friday, July 24, 2009
Module II: Friday, July 31, 2009
Module III: Saturday, August 1, 2009
9:00am - 5:00pm
In response to the high demand for this topic and following the success of the previous course, this 3-day course is offered in 3 modules. This course is a comprehensive state-of-the-art review of high-end treatment modality. You may take each module separately and enjoy your specific topics of interest. Nevertheless, we encourage you to take all three modules so that you can maximize your learning experience and completely comprehend this treatment modality.

**MODULE I - July 24, 2009:**
- Esthetic implant reconstruction: from overdentures to full-mouth fixed
  - Fundamental treatment options for the edentulous patient
  - Comprehensive diagnosis and treatment planning
  - Individual attachments vs. bar overdentures
  - Implant supported vs. implant-tissue supported overdentures
  - Esthetic metal-resin and metal-ceramic fixed implant reconstruction
  - Practical and time saving tips for full-mouth reconstruction

**MODULE III - August 1, 2009:**
- Conversion of complete dentures to fixed implant restorations in one clinical visit
  - Hands-on workshop (limited attendance)
  - Completion of either Module I or Module II is required

**TOPICS TO BE COVERED**
- Diagnostic tools such as flawless record base, wax-up, set-up, intraoral mock-up and radiographic templates
- Esthetic pontic design of the horizontally submerged ovate pontic and the fused pontic design
- Gingiva-colored ceramics design and technique
- Provisionalization: fixed or removable?
- Transitional implants to support provisional restorations
- The conversion prosthesis as a treatment philosophy
- Communication with the surgeon, laboratory and patient to obtain predictable results
- Laboratory techniques and procedures
- Surgical considerations

This course is recommended for:
- Restorative dentists, prosthodontists, periodontists and oral surgeons who would like to be exposed to state-of-the-art esthetic fixed implant reconstruction of the edentulous patient
- Laboratory technicians, dental assistants and treatment coordinators who would like to learn about this treatment modality, to be able to present this option to patients and collaborate as part of the dental implant team.

**Registration Form**
(please complete form, cut or xerox this page and send to: USC School of Dentistry Office of Continuing Education)

**Fees include course material, continental breakfast and refreshments during breaks.**
