From Treatment Planning to Fixed Restoration

Module I: Friday, March 16, 2012
Module II: Saturday, March 17, 2012
Module III: Sunday, March 18, 2012
9:00am - 5:00pm

Hands-On Workshop
This course is one of three in the successful series of Esthetic Full-Mouth Implant Reconstruction offering a comprehensive review of this treatment modality. It will expose you to treatment planning and sequencing in a step-by-step simplified approach to develop your knowledge in this field. You may take each module separately, but we encourage you to take all modules to maximize your learning experience and fully comprehend this treatment modality.

**MODULE I - Lecture**
From Overdentures to Full-Mouth Fixed
- Fundamental treatment options for the edentulous patient.
- Comprehensive diagnosis and treatment planning.
- Individual attachments vs. bar overdentures.
- Implant supported vs. implant-tissue supported overdentures.
- Esthetic metal-resin and metal-ceramic fixed implant reconstruction.
- Practical and time saving tips for full-mouth reconstruction.

**MODULE II - Lecture**
Fixed Prostheses Designs and Treatment Planning
- Simplicity in design: from one-piece complete arch to segmented design.
- From screw retained to custom abutments and telescopic copings.
- Esthetic full-mouth implant reconstruction in one visit?
- Fixed implant reconstruction of patients with severely resorbed ridges and lack of lip support.
- Surgical reconstruction to recreate lip support.
- Management of complications.

**MODULE III - Hands-On Workshop (Limited Attendance)**
Conversion of Complete Dentures to Fixed Implant Restorations in One Clinical Visit
Faculty: Harel Simon, DMD; Joseph Field, DDS; Sheryl Regalado, DMD; Take Katauya, CDT
In this unique and exclusive course, participants will receive models of completely edentulous arches with implants and corresponding complete dentures. Each participant will convert a complete denture to a fixed implant supported provisional restoration.

This technique is the core philosophy for a simplified approach for implant reconstruction. Mastering this technique simplifies the restorative sequence significantly and enhances the predictability of the treatment from an aesthetic and functional point of view. Upon completion, participants will receive these models for patient education and demonstration of full-mouth implant reconstruction.

**Topics to Be Covered**
- Diagnostic tools such as flapless record base, wax-up, setup, intraoral mock-up and radiographic template.
- Esthetic pontics: horizontally submerged & fused pontic designs.
- Gingiva-colored ceramics design and technique.
- Provisionalization: fixed or removable?
- Transitional implants to support provisional restorations.
- The conversion prosthesis as a treatment philosophy.
- Communication with the surgeon, laboratory and patient to obtain predictable results.
- Laboratory techniques and procedures.
- Surgical considerations.

**Registration Fees (Please Check Boxes)**
- Complete Course: $2,245
- Modules I, II & III (Friday - Sunday, March 16 - 18, 2012)
  - Before February 15, 2012: Dentist $1,995; Auxiliary $1,695
  - After February 15, 2012: Dentist $2,245; Auxiliary $1,845
- Modules I & II (Friday, March 16, 2012)
  - Before February 15, 2012: Dentist $295; Auxiliary $215
  - After February 15, 2012: Dentist $345; Auxiliary $245
- Module III (Sunday, March 18, 2012)
  - Includes free implant reconstruction model - $995 value
  - Before February 15, 2012: $1,795
  - After February 15, 2012: $1,995

**Refunds**
Refunds are granted only if a written cancellation notification is received at least 21 days before the course. A $75 fee will be refunded if the notification occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, see the form and text.

- Transitional implants to support provisional restorations.
- The conversion prosthesis as a treatment philosophy.
- Communication with the surgeon, laboratory and patient to obtain predictable results.
- Laboratory techniques and procedures.
- Surgical considerations.
- Restorative process. With the advent of dental implants, there are various treatment options available today to address the patient’s esthetic and functional needs.

This course will discuss diagnosis and treatment planning for fixed implant supported reconstruction. A variety of treatment options and prosthetics designs will be introduced and the treatment sequence will be reviewed in a step-by-step simplified approach to provide a predictable outcome with aesthetic implant reconstruction.

This course is recommended for:
- Restorative dentists, prosthodontists, periodontists and oral surgeons who would like to be exposed to state-of-the-art esthetic fixed implant reconstruction of the edentulous patient.
- Laboratory technicians, dental assistants and treatment coordinators who would like to learn about this treatment modality, to be able to present this option to patients and collaborate as part of the dental implant team.

**Faculty**
Harel Simon, DMD
Dr. Simon received his DMD degree from the Hebrew University, Jerusalem, Israel in 1991. He received his specialty certificate in advanced prosthodontics from UCLA, School of Dentistry in 2000. Dr. Simon is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prostodontists. He has conducted research, published and lectured nationally and internationally on esthetics and implant prosthodontics. He currently serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International. Dr. Simon practices in Beverly Hills, California and is a Clinical Associate Professor at Herman Ostrow School of Dentistry of USC. Dr. Simon can be reached at hsimon@usc.edu.

Sheryl Regalado, DMD
Dr. Regalado received her DMD degree from the Hebrew University, Jerusalem, Israel in 2005. She received her specialty certificate in advanced prosthodontics from UCLA, School of Dentistry in 2009. Dr. Regalado is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prostodontists. She has contributed numerous articles to various peerreviewed dental publications. Dr. Regalado practices in Beverly Hills, California.

Take Katayama, CDT
Dr. Katayama received his DMD degree from the Osaka Dental College, Japan in 1985. He received his specialty certificate in advanced prosthodontics from UCLA, School of Dentistry in 2000. Dr. Katayama is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prostodontists. He has conducted research, published and lectured nationally and internationally on esthetics and implant prosthodontics. He currently serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International. Dr. Katayama practices in Beverly Hills, California and is a Clinical Associate Professor at Herman Ostrow School of Dentistry of USC. Dr. Katayama can be reached at tkatayama@usc.edu.
