Horizontal, Vertical & Sinus Augmentation: Myths versus Reality - A Hands-On Cadaver Workshop

Lecture and Hands-On Cadaver Workshop
Herman Ostrow School of Dentistry of USC
Saturday - Sunday, September 12 - 13, 2015
9:00 am - 5:00 pm
Online registration available at www.uscdentalce.org

4 Hours of Continuing Education

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

Registration Fees
Before August 15, 2015
Dentist: $2,795
Auxiliary: $2,375

After August 15, 2015
Dentist: $3,275
Auxiliary: $2,785

Fees include course material, continental breakfast, lunch, and refreshments during breaks.
Please mail checks and make payable to:

Herman Ostrow School of Dentistry of USC
Continuing Professional Education

COMPUTER GUIDED IMPLANT DENTISTRY
Friday - Saturday, August 1 - 2, 2015

THE 41ST ANNUAL REVIEW OF CONTINUING EDUCATION IN DENTISTRY (MAUI, HAWAII - TRAVEL & LEARN PROGRAM)
Monday - Thursday, August 3 - 6, 2015

NEW APPROACHES FOR ANTIMICROBIAL TREATMENT OF PERIODONTAL DISEASE
Friday, August 7, 2015

THE ARTISTIC DENTIST: EXCELLENCE IN DIRECT ANTERIOR AND POSTERIOR COMPOSITES
Friday - Saturday, August 7 - 8, 2015

FUNDAMENTALS OF IMPLANT SURGERY AND RESTORATION
Part I: Friday - Sunday, August 28 - 30, 2015
Part II: Saturday - Sunday, October 3 - 4, 2015
Part III: Saturday - Sunday, October 31 - November 1, 2015

SURGICAL ASSISTANT HANDS-ON TRAINING
Saturday - Sunday, August 29 - 30, 2015

MINIMALLY INVASIVE ADHESIVE AND ESTHETIC INDIRECT ANTERIOR BONDED RESTORATIONS
Lecture: Friday, September 18, 2015
Hands-On: Saturday, September 19, 2015

FUNCTIONAL CROWN LENGTHENING SURGERY - FOR IMPROVED AND PREDICTABLE RESTORATIVE OUTCOMES
Saturday, September 26, 2015

THE USC GERIATRIC DENTISTRY ANNUAL SYMPOSIUM
Friday - Saturday, October 2 - 3, 2015

COMPREHENSIVE PERIODONTAL SURGERY: ESTHETIC AND FUNCTIONAL PROCEDURES FOR THE GENERAL PRACTITIONER
Pre-Course Lecture: Thursday, October 8, 2015
Module I: Friday, October 9, 2015
Module II: Saturday, October 10, 2015
Module III: Sunday, October 11, 2015

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, October 10, 2015

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2015 and receive another course for FREE.

Herman Ostrow School of Dentistry of USC
Saturday - Sunday, September 12 - 13, 2015
9:00 am - 5:00 pm

Life-Long Tradition and Excellence
Speakers

Bach Le, DDS, MD, FICD (Course Director)

Dr. Le is a Clinical Associate Professor, Division of Oral and Maxillofacial Surgery and Assistant Director, Oral and Maxillofacial Surgery, Herman Ostrow School of Dentistry of USC and USC Medical Center. He is a Diplomate of the American Board of Oral and Maxillofacial Surgeons, the American Dental Society of Anesthesiologists, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the International College of Dentists and the International Association of Oral and Maxillofacial Surgeons. He also maintains a private practice in Whittier, California.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP feels that this disclosure is important for the participants to form their own judgment about each presentation.

Synopsis

Many techniques and augmentation materials have been described for horizontal and vertical ridge augmentation. These include guided bone regeneration (GBR), ridge expansion/splitting, autogenous onlay block grafting, titanium mesh techniques, distraction osteogenesis, and interpositional osteotomy. While many techniques offer excellent results in some situations, few can be said to guarantee success. Complications remain a common problem with bone augmentation. Many questions still remain on which methods yield the most predictable results for dental implant placement in grafted bone. The aim of this advance course is to critically evaluate the current evidence to determine the predictability of various bone augmentation techniques for horizontal and vertical ridge defects for implant placement. A series of cases have been gathered to illustrate risk assessment and predictable management of various critical size defects ranging from moderate to severe defects.

Upon Completion Participants Should Be Able To:

• Describe various augmentation techniques and materials
• Understand the criteria for choosing the best technique to minimize complications
• Describe critical factors affecting augmentation success
• Know when to perform bone graft versus tissue graft
• Know when to use autogenous bone versus biomaterial
• Understand the significance of flap design on treatment outcome
• Compare different biomaterials and growth factors and know when to use them
• Recognize and treat graft complications

* Discussion and hands-on section will include indications and contraindications for:
  • GBR techniques
  • Autogenous block grafts
  • Interpositional osteotomy
  • Distraction osteogenesis
  • Titanium mesh techniques
  • “Screw tent-pole grafting” technique
  • Ridge split versus expansion vs onlay grafts
  • Different sinus augmentation techniques
