Horizontal, Vertical & Sinus Augmentation: Myths versus Reality - A Hands-On Cadaver Workshop

Lecture and Hands-On Cadaver Workshop
Herman Ostrow School of Dentistry of USC
Saturday - Sunday, September 17 - 18, 2016
9:00 am - 5:00 pm
Online registration available at www.uscdentalce.org

MEAL PREFERENCE: ☐ VEGETARIAN ☐ NO PREFERENCE

» 14 Hours of Continuing Education »

Registration Fees
Before August 25, 2016
Dentist: $2,795
Auxiliary: $2,375

After August 25, 2016
Dentist: $3,275
Auxiliary: $2,785

Fees include course material, continental breakfast, lunch, and refreshments during breaks.

Please mail checks and make payable to:
Herman Ostrow School of Dentistry of USC

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

Upcoming Courses

THE 42nd ANNUAL REVIEW OF CONTINUING EDUCATION IN DENTISTRY (MAUI, HAWAII - TRAVEL & LEARN PROGRAM)
Monday - Thursday, August 1 - 4, 2016

PARENTERAL MODERATE SEDATION FOR DENTISTS: CLINICAL SESSION II
Friday - Sunday, August 5 - 7, 2016

NEW APPROACHES FOR ANTIMICROBIAL TREATMENT OF PERIODONTAL DISEASE
Friday, August 12, 2016

SAFE, PRECISE AND PREDICTABLE IMPLANT PLACEMENT
Saturday - Sunday, August 13 - 14, 2016

THE ARTISTIC DENTIST: EXCELLENCE IN DIRECT ANTERIOR AND POSTERIOR COMPOSITES
Friday - Saturday, August 19 - 20, 2016

FUNDAMENTALS OF IMPANT SURGERY AND RESTORATION
Part I: Friday - Sunday, August 26 - 28, 2016
Part II: Saturday - Sunday, October 15 - 16, 2016
Part III: Saturday - Sunday, November 5 - 6, 2016

MINIMALLY INVASIVE ADHESIVE AND ESTHETIC INDIRECT ANTERIOR BONDED RESTORATIONS: LECTURE & HANDS-ON
Lecture (am) & Hands-On (pm): Friday, September 23, 2016
Hands-On: Saturday, September 24, 2016

THE USC GERIATRIC DENTISTRY ANNUAL SYMPOSIUM
WEBINAR AVAILABLE
Friday - Saturday, September 30 - October 1, 2016

FUNCTIONAL CROWN LENGTHENING SURGERY - FOR IMPROVED AND PREDICTABLE RESTORATIVE OUTCOMES
Saturday, October 1, 2016

COMPREHENSIVE PERIODONTAL SURGERY: ESTHETIC AND FUNCTIONAL PROCEDURES FOR THE GENERAL PRACTITIONER
Pre-Course Lecture: Thursday, October 6, 2016
Module I: Friday, October 7, 2016
Module II: Saturday, October 8, 2016
Module III: Sunday, October 9, 2016

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2016 and receive another course for FREE.
Many techniques and augmentation materials have been described for horizontal and vertical ridge augmentation. These include guided bone regeneration (GBR), ridge expansion/splitting, autogenous onlay block grafting, titanium mesh techniques, distraction osteogenesis, and interpositional osteotomy. While many techniques offer excellent results in some situations, few can be said to guarantee success. Complications remain a common problem with bone augmentation. Many questions still remain on which methods yield the most predictable results for dental implant placement in grafted bone. The aim of this advance course is to critically evaluate the current evidence to determine the predictability of various bone augmentation techniques for horizontal and vertical ridge defects for implant placement. A series of cases have been gathered to illustrate risk assessment and predictable management of various critical size defects ranging from moderate to severe defects.

Upon Completion Participants Should Be Able To:

- Describe various augmentation techniques and materials
- Understand the criteria for choosing the best technique to minimize complications
- Describe critical factors affecting augmentation success
- Know when to perform bone graft versus tissue graft
- Know when to use autogenous bone versus biomaterial
- Understand the significance of flap design on treatment outcome
- Compare different biomaterials and growth factors and know when to use them
- Recognize and treat graft complications

Discussion and hands-on section will include indications and contraindications for:

- GBR techniques
- Autogenous block grafts
- Interpositional osteotomy
- Distraction osteogenesis
- Titanium mesh techniques
- “Screw tent-pole grafting” technique
- Ridge split versus expansion vs onlay grafts
- Different sinus augmentation techniques
