Horizontal & Vertical Augmentation
Lecture & Cadaver Workshop
Herman Ostrow School of Dentistry of USC
Saturday, October 6, 2018
9:00 am - 5:00 pm
Online registration at: dentalcontinuingeducation.usc.edu

Registration Form
FIRST NAME __________________________ MIDDLE NAME __________________________ LAST NAME __________________________
TITLE ___________________ SPECIALTY ___________________ DL# __________________________
ADDRESS __________________________ CITY _______ STATE _______ ZIP _______
PHONE ( ___________ ) __________________________ FAX ( ___________ ) __________________________
E-MAIL __________________________
☐ MASTERCARD ☐ VISA ☐ CHECK ENCLOSED
CARD NUMBER __________________________ EXPIRATION DATE __________________________ TOTAL PAYMENT $ __________________________
SIGNATURE __________________________ MEAL PREFERENCE: ☐ VEGETARIAN ☐ NO PREFERENCE
WOULD YOU BE INTERESTED IN THIS COURSE AS A WEBINAR? ☐ YES ☐ NO

Registration Fees
Before September 1, 2018
Dentist: $1,250
After September 1, 2018
Dentist: $1,475

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2018 and receive another course for FREE.
Visit http://dentalcontinuingeducation.usc.edu for terms & details.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 21 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

Upcoming Courses

PERIODONTAL AND IMPLANT DECISION MAKING: FROM TREATING THE AILING TOOTH TO THE FAILING IMPLANT
Self-Paced Webinar: Friday, August 3, 2018

THE ARTISTIC DENTIST: EXCELLENCE IN DIRECT ANTERIOR AND POSTERIOR COMPOSITES
Friday - Saturday, August 10 - 11, 2018

A SIMPLE TWO-STEP TREATMENT OF SEVERE PERIODONTITIS, AND MORE!
Saturday, August 25, 2018

SLEEP BREATHING DISORDERS: APPROACH FROM DENTISTRY! (LIVE WEBINAR AVAILABLE)
Friday - Saturday, September 7 - 8, 2018

THE USC GERIATRIC DENTISTRY ANNUAL SYMPOSIUM (LIVE WEBINAR AVAILABLE)
Friday, September 14, 2018

FUNCTIONAL CROWN LENGTHENING SURGERY FOR IMPROVED AND PREDICTABLE RESTORATIVE OUTCOMES: HANDS-ON WORKSHOP
Saturday, September 15, 2018

EMERGING DISEASES, INFECTION CONTROL, AND CALIFORNIA DENTAL PRACTICE ACT (LIVE WEBINAR AVAILABLE)
Saturday, September 22, 2018

MINIMALLY INVASIVE ADHESIVE AND ESTHETIC INDIRECT ANTERIOR BONDED RESTORATIONS: LECTURE & HANDS-ON
Friday - Saturday, September 28 - 29, 2018

HEALTHIER INDIRECT RESTORATIONS, USING A SUPRA-GINGIVAL PROTOCOL
Friday - Saturday, October 5 - 6, 2018

THE USC ELEVENTH INTERNATIONAL RESTORATIVE DENTISTRY SYMPOSIUM (LIVE WEBINAR AVAILABLE)
Friday - Saturday, October 12 - 13, 2018
Optional Hands-On Workshop: Sunday, October 14, 2018

COMPREHENSIVE PERIODONTAL SURGERY: ESTHETIC AND FUNCTIONAL PROCEDURES FOR THE GENERAL PRACTITIONER
Friday - Sunday, October 12 - 14, 2018
Many techniques and augmentation materials have been described for horizontal and vertical ridge augmentation. These include guided bone regeneration (GBR), ridge expansion/splitting, autogenous onlay block grafting, titanium mesh techniques, distraction osteogenesis, and interpositional osteotomy. While many techniques offer excellent results in some situations few can be said to guarantee success. Many questions still remain on which methods yield the most predictable results for dental implant placement in grafted bone. The aim of this course is to critically evaluate the current evidence to determine the predictability of various bone augmentation techniques for horizontal and vertical ridge defects for implant placement. A series of cases have been gathered to illustrate risk assessment and predictable management of various critical size defects ranging from moderate to severe defects.

Upon Completion Participants Should:

- Describe various augmentation techniques and materials and understand the criteria for choosing the most appropriate technique
- Understand various factors which may affect augmentation success, including the degree of bone loss, the configuration of the defect, the location in the mouth, the design of prosthesis, patient preference, and clinician experience.
- Understand bone biology and graft healing
- Know how to perform alveolar ridge augmentation using various proven augmentation techniques
- Understand the significance of various flap designs on treatment outcome
- Know how to graft in the esthetic zone
- Know when to perform block graft versus particulate graft
- Know how to perform lingual flap release
- Know grafting of vertical ridge defects
- Know the “screw tent-pole grafting” technique
- Know tunnel grafting
- Know when to perform bone graft versus tissue graft
- Know how to perform flap release around the mental nerve
- Know how to harvest ramus and chin grafts
- Recognize and treat graft complications

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP feels that this disclosure is important for the participants to form their own judgment about each presentation.

This course is designed for dentists, periodontists, oral surgeons, and prosthodontists. Participants are cautioned about the potential risks of using limited knowledge when integrating new techniques into your practices.
