**Upcoming Courses**

**SUTURING TECHNIQUES: A PRACTICAL HANDS-ON COURSE ON SOFT TISSUE SUTURING**

Saturday, June 1, 2019

---

**PERIODONTAL AND IMPLANT DECISION MAKING:**

**FROM TREATING THE AILING TO THE FAILING IMPLANT (LIVE WEBINAR AVAILABLE)**

Friday, June 7, 2019

---

**COMPLICATIONS OF IMPLANT THERAPY**

Saturday, June 8, 2019

---

**FIXED AND REMOVABLE OPTIONS WITH DENTAL IMPLANTS FOR THE FULLY EDENTULOUS ARCS**

Part I - Lecture: Friday, June 14, 2019

Part I & II - Lecture & Hands-On: Friday - Saturday, June 14 - 15, 2019

---

**MASTERING ORAL PATHOLOGY, RADIOLOGY, AND MEDICINE:**

**AN INTERACTIVE MULTIDISCIPLINARY APPROACH!**

Friday, June 21, 2018

---

**ADVANCED CLINICAL DENTAL HYGIENE TECHNIQUES:**

**HANDS-ON WORKSHOP**

Module I - Lecture: Friday, July 12, 2019

Module II - Hands-On: Saturday, July 13, 2019

Module III - Lectures & Hands-On: Sunday, July 14, 2019

---

**ENDODONTICS FROM A TO Z: HANDS-ON WORKSHOP FOR THE GENERAL PRACTITIONER**

Part I: Friday - Sunday, July 12 - 14, 2019

Part II: Friday - Sunday, July 26 - 28, 2019

---

**ADULT PARENTERAL MODERATE SEDATION FOR DENTISTS**

Lectures & Workshops: Wednesday - Sunday, July 17 - 21, 2019

Clinical Sessions I: Thursday - Sunday, September 5 - 8, 2019

Clinical Sessions II: Friday - Sunday, September 13 - 15, 2019

---

**THE ARTISTIC DENTIST:**

**EXCELLENCE IN DIRECT ANTERIOR AND POSTERIOR COMPOSITES**

Friday - Saturday, August 2 - 3, 2019

---

**A SIMPLE TWO-STEP TREATMENT OF SEVERE PERIODONTITIS, AND MORE!**

Saturday, August 24, 2019

---

**SLEEP BREATHING DISORDERS:**

**APPROACH FROM DENTISTRY! (LIVE WEBINAR AVAILABLE)**

Friday - Saturday, September 6 - 7, 2019

---

**THE USC TWELFTH INTERNATIONAL RESTORATIVE DENTISTRY SYMPOSIUM**

Friday - Saturday, October 4 - 5, 2019
Many techniques and augmentation materials have been described for horizontal and vertical ridge augmentation. These include guided bone regeneration (GBR), ridge expansion/splitting, autogenous onlay block grafting, titanium mesh techniques, distraction osteogenesis, and interpositional osteotomy. While many techniques offer excellent results in some situations few can be said to guarantee success. Many questions still remain on which methods yield the most predictable results for dental implant placement in grafted bone. The aim of this course is to critically evaluate the current evidence to determine the predictability of various bone augmentation techniques for horizontal and vertical ridge defects for implant placement. A series of cases have been gathered to illustrate risk assessment and predictable management of various critical size defects ranging from moderate to severe defects.

### Synopsis Upon Completion Participants Should:

- Describe various augmentation techniques and materials and understand the criteria for choosing the most appropriate technique.
- Understand various factors which may affect augmentation success, including the degree of bone loss, the configuration of the defect, the location in the mouth, the design of prosthesis, patient preference, and clinician experience.
- Understand bone biology and graft healing.
- Know how to perform alveolar ridge augmentation using various proven augmentation techniques.
- Understand the significance of various flap designs on treatment outcome.
- Know how to graft in the esthetic zone.
- Know when to perform block graft versus particulate graft.
- Know how to perform lingual flap release.
- Know grafting of vertical ridge defects.
- Know the “screw tent-pole grafting” technique.
- Know tunnel grafting.
- Know when to perform bone graft versus tissue graft.
- Know how to perform flap release around the mental nerve.
- Know how to harvest ramus and chin grafts.
- Recognize and treat graft complications.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

**Speakers**

Bach Le, DDS, MD, FICD, FACP

(Course Director)

Dr. Le is a Clinical Associate Professor, Division of Oral and Maxillofacial Surgery and Assistant Director, Oral and Maxillofacial Surgery, Herman Ostrow School of Dentistry of USC and USC Medical Center. He is a Diplomate of the American Board of Oral and Maxillofacial Surgeons, the American Dental Society of Anesthesiologists, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the International College of Dentists and the International Association of Oral and Maxillofacial Surgeons. He also maintains a private practice in Whittier, California.
