Parenteral Moderate Sedation For Dentists

Lectures/Workshops: July 6 - 10, 2015
Clinical Sessions: July 24 - 26, July 31 - August 2, 2015

Herman Ostrow School of Dentistry of USC

Tuition Before April 15, 2015: $11,950; Tuition After April 15, 2015: $12,750

88 Hours of Continuing Education Units

University of Southern California Herman Ostrow School of Dentistry is an ADA CERP Recognized Provider.

Refunds are granted only if a written cancellation notification is received at least 6 weeks before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 3 weeks before this course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, copy this form and send.

The More You Learn, The More You Earn!
The Herman Ostrow School of Dentistry is proud to offer to you this comprehensive parenteral moderate sedation course. The 2015 course expands its curriculum to include new drug regimens, advances in patient monitoring, and ACLS Certification. The course consists of 11 days for a total of 88 hours; 7 days of lectures and workshops and 4 days of clinical patient interaction. The course meets (and exceeds) the educational requirements established by the ADA Guidelines and fulfills most state regulations for administration of IV moderate sedation to dental patients. Each didactic day begins with a pre-session knowledge assessment and concludes with a case-based group learning exercise. Participants will perform physical evaluation, take medical history, outline an anesthetic plan, initiate and confirm intravenous access, administer and become competent in the titration of sedative medications, and perform dental procedures under close supervision of faculty who have had post-graduate training in dental anesthesiology.

**Topics to be covered:**

- Factors affecting pain and anxiety control
- Patient evaluation, selection, and suitability for moderate sedation through medical history taking, physical diagnosis, and psychological consideration
- The continuum of sedation and anesthesia, with particular emphasis upon monitoring levels of sedation and the recognition of unintended deep sedation/general anesthesia
- Respiratory physiology, anatomy, and pathology
- Pharmacology of moderate sedation agents, adjunctive agents, and local anesthesia
- Drug interactions and contraindications
- Indications and contraindications for the use of moderate sedation in an office-based setting
- Review of possible dental procedures done with moderate sedation
- Principles of patient monitoring
- Intravenous access, complications, and other routes of parenteral administration
- Moderate sedation treatment planning
- Prevention, recognition, and management of systemic complications of moderate sedation
- Recognition of sedation emergencies, emergency airway management, and patient rescue techniques
- Record keeping and medico-legal aspects of dental moderate sedation
- Abuse and diversion

**Upon completion of this course participant will know:**

- Advantages and disadvantages of moderate sedation
- Prevention, recognition, and management of complications associated with moderate sedation in an office-based setting
- Safe and effective administration of moderate sedation and selected drugs to patients in a clinical setting
- How to recognize abuse potential, occupational hazards, and other untoward effects of the agents utilized for moderate sedation
- Technique of intravenous access, intramuscular injection and other parenteral techniques
- Pharmacology of the drugs selected for administration
- Precautions, indications, contraindications, and adverse reactions associated with the drugs selected
- Complications associated with techniques of moderate sedation
- How to prepare a protocol for management of emergencies in the dental office, and demonstrate understanding in usage of emergency drugs and equipment required for the prevention and management of emergency situations.
- Principles of advanced cardiac life support (ACLS)
- How to manage an emergency situation

**Faculty**

**James Tom, DDS, MS (Program Director)**
Dr. Tom is Clinical Associate Professor at the Herman Ostrow School of Dentistry of USC, Division of Endodontics, Orthodontics, and General Practice Residency. He is President-Elect of the American Society of Dentist Anesthesiologists (ASDA) and has served as their Program Director for various continuing education courses. Recently he completed his appointment as the post-doctoral dental anesthesiology education representative for the Commission on Dental Accreditation (CODA) and has served as faculty for the ADA’s simulation-based course on the Recognition and Management of Complications During Minimal and Moderate Sedation. He provides anesthesia education in the pre-doctoral, post-doctoral, and dental hygiene levels while also being clinically active in the anesthesia care of children and patients with special needs.

**Kenneth Lee, DDS**
Clinical Assistant Professor, Dentist Anesthesiologist, Herman Ostrow School of Dentistry of USC.

**Michael Mashni, DDS**
Clinical Assistant Professor, Dentist Anesthesiologist, Herman Ostrow School of Dentistry of USC.

**Shaheen Moezzi, DDS, MS**
Dentist Anesthesiologist, CarePoint Anesthesia, CO.

**Amanda Okundaye, DDS**
Clinical Assistant Professor, Dentist Anesthesiologist, Herman Ostrow School of Dentistry of USC.

**Christine Quinn, DDS, MS**
Clinical Professor, Dentist Anesthesiologist, UCLA School of Dentistry.

**Mary Satuito, DDS**
Clinical Assistant Professor, Dentist Anesthesiologist, Herman Ostrow School of Dentistry of USC.

**Dean Schweitzer, DDS, JD**
Private Practice, Pediatric Dentistry. Attorney At Law, Valencia, CA.

**Kristopher Smith, DDS**
Dentist Anesthesiologist, CarePoint Anesthesia, CO.

**Cara Riley Warmbold, DMD, MS**
Dentist Anesthesiologist, Children’s Hospital Colorado, CO.

**Ryan Wu, DDS**
Dentist Anesthesiologist, Stony Brook, NY.

**Phillip Yen, DDS, MS**
Dentist Anesthesiologist, CarePoint Anesthesia, CO.
