A Program in Prosthetic Dentistry for the
- General Dentists
- Prosthodontists
- Periodontists
- Endodontists
- Orthodontists
- Oral and Maxillofacial Surgeons
- Dental Hygienists
- Assistants
- Dental Technologists
- Advanced Education Students
The New USC Odontic Seminar begins 2008 with a look at the auxiliary and their contribution to the clinical practice of prosthodontics. Today's informed patient is faced with the challenge of Evidence Based Treatment Planning. As a result, systemic reviews and outcomes assessments are being prepared to better advise restorative preprosthetic preparation of patients. This year's courses will feature advanced concepts that are PATIENT-BASED rather than PROBLEM-BASED focusing on the longitudinal treatment of patients.

The plethora of new technologies and developments in restorative dentistry courses allow the individual interested in prosthodontics to explore other areas of clinical dentistry with a core of prosthetic oriented principles. The 33rd USC Periodontal Symposium, for example, would be an opportunity to explore the benefits and risks of minimally invasive implant surgery.

This year's program will concentrate on developing reference material and EDB information that will allow the practitioner to apply principles of prosthodontics for the benefit of the patient. We will explore diagnosis and treatment planning in a seminar format, based on options considering EBD, the patient, treatment outcomes, new materials, and procedures. Clinical progress cannot be made without attention to new procedures, products and materials. The dentist, assistants, and auxiliary technicians will be interested in how to use them efficiently, effectively, and work with auxiliary including the expertise of the dental technician and dental assistant. The objective of treatment planning is to bring together endodontists, periodontists, orthodontists, prosthodontists, and oral surgeons to actively interact with restorative dentists and develop patient-based treatment plans. I hope you will continue your support of the USC New Odontic Seminar.

The Program

Directors:
Roy T. Yanase, DDS
Christopher B. Marchack, DDS

Faculty:
Howard M. Landesman, DDS, MSD
Steven J. Sadowsky, DDS
Shane N. White, MS, DDS, PhD
Sandir Holland, RDA
Victor Rodriguez, CDT
Tommy Yamashita, CDT
Roy T. Yanase, DDS

Location:
USC School of Dentistry (unless specified differently)

Tuition:
Dentist: $600 / $250 for individual lecture ($300 at the door)
Auxiliary: $200 / $75 for individual lecture ($100 at the door)
Students: USC: $25 / Other Universities: $75

*SPECIAL Odontic rates will apply to the 33rd Annual USC Periodontal and Implant Symposium on 1/25/08 - 1/26/08. Please call for details.

Students are welcome to attend the meetings of www.oscsc.org.
