35th Annual USC International Periodontal and Implant Symposium

The Age of Speed

USC School of Dentistry

Wilshire Grand Los Angeles

General Sessions: Friday - Saturday, January 29 - 30, 2010
Dental Hygiene Forum: Saturday, January 30, 2010

Hands-On Cadaver Workshop and Live Surgery: Thursday, January 28, 2010
Dear colleagues and friends:

We are pleased to invite you to attend the 35th International Periodontal & Implant Symposium. As you know the lifestyle of people in the 21st century is fast-paced and many advances in the technology and service sector have enabled this lifestyle. Many material and protocols have also been developed in dentistry to increase the speed of therapy. While some of these material and protocols have been well-documented, others are not supported by scientific data. Therefore, decision making is an important aspect of treatment planning in order to provide predictable therapies. Examples of some of these developments include advanced surface technology of implants to accelerate the rate of osseointegration, growth factors to enhance bone and soft tissue healing, short and narrow implants to obviate the need for augmentation and imaging technologies which replace visual access. Examples of some of the protocols developed include immediate placement of implants into extraction sites, immediate or early loading of implants, accelerated osteogenic orthodontics (AOO), computer-guided implant placement and minimally invasive surgery for implant site development and placement to reduce the healing time. Clinicians should be cautioned that our ultimate objective is predictable therapeutic outcome rather than the speed with which therapy is delivered. Therefore, a prudent approach is to embrace those technological advances that improve therapeutic outcomes, while at the same time reduce treatment time. On the other hand, we should avoid those materials and protocols which are not adequately documented. A panel of internationally renowned speakers will review and discuss these material and protocols. The program boasts four days with a diverse range of educational opportunities. These include two all-day programs, with hands-on workshops on models and cadavers. There is also a full-day program dedicated to dental hygienists. Although the majority of the general-session presentations are interdisciplinary in nature, there are also sessions designated as “Surgical Track” and “Restorative Track” that focus on specific disciplines. This is an educational opportunity not to be missed by the entire oral healthcare team, including specialists, restorative dentists and dental hygienists.

We hope to see you all in Los Angeles in January 2010.

Homayoun Zadeh, DDS, PhD
Symposium Chair and Moderator
# Program-At-A-Glance

Speakers

**Lars Senneryd, DDS, PhD (SWEDEN) (Keynote Presentation)**
Professor, Department of Biomaterials, Institute of Clinical Sciences, Sahlgrenska Academy at Gothenburg University, Sweden. Private Practice in Gothenburg, Sweden and Feltre, Italy. Co-Editor-in-Chief of Clinical Implant Dentistry and Related Research.

*Leo and Sydelle Ward Foundation Endowed Keynote Lectureship*
Topic: Immediate/early loading of dental implants. What have we learned?

---

**Domenico Cascione, CDT, BS (USA)**
Mr. Cascione obtained his primary education in Bari, Italy, where he was also certified as a Dental Technologist (CDT) in 1985. From 1986 to 2004, he was the owner and director of a dental laboratory in Bari. He specialized in dental metallurgy, implant work and complex rehabilitation. He is often invited to lecture in Italy. Since January 2005, he became Research Associate at the Center of Dental Technology, the University of Southern California School of Dentistry. In 2006, he received a Bachelor’s Degree in Science of Dental Technology from the University of Illinois. He is the author and co-author of several articles in the literature.

Topic: The Art of Communication: Bonded Porcelain and Dental Implant Restorations

---

**Yang Chai, DDS, PhD (USA)**
Dr. Chai is George and Mary Lou Boone Professor of Craniofacial Molecular Biology, Associate Dean of Research and Director of the Center for Craniofacial Molecular Biology at the USC School of Dentistry. He completed his dental education, as well as earned the Ph.D. degree in Craniofacial Biology at USC. He had previously obtained his dental degree, as well as post-doctoral training in Oral-Maxillofacial Surgery at the Peking University, Beijing, China. He engages in active NIH-funded research at the Center for Craniofacial Molecular Biology (CCMB) at USC, focusing on craniofacial development, malformations and tissue regeneration. He has published extensively in peer-review journals, as well as book chapters. Dr. Chai received numerous awards, including several Awards of Excellence in Teaching at USC.

Topic: Cranial Neural Crest Cells and Their Utility in Jaw Bone Regeneration

---

**Lyndon F. Cooper, DDS, PhD (USA)**
Dr. Cooper is the Stallings Distinguished Professor and Chair of the Department of Prosthodontics at the University of North Carolina, Chapel Hill. He is the Director of the Advanced Education Program in Graduate Prosthodontics and the Bone Biology and Implant Therapy Laboratory. A Diplomate of the American Board of Prosthodontics, Dr. Cooper is the President of the American College of Prosthodontists.

Topic: Advanced Surface Technologies and Contemporary Dental Implant Therapy

---

**Jodi Deming, RDH (USA)**
Ms. Deming has spent 22 years mastering non-surgical therapy. She currently practices in both periodontic and prosthodontic offices. She has developed lectures and hands-on workshops nationally and internationally in advanced instrumentation with the combination of ultrasonic and hand instruments. Jodi has been involved with the initial prototype and research of the dental endoscope and continues in these activities to evaluate instrumentation. She provides courses on the endoscope at several universities and numerous private practices.

Topic: EmPower Non-Surgical Therapy; Accelerated Instrumentation and Adjunctive Treatment Modalities for Dental Hygiene (DH Forum)

---

**Ueli Gründer, DMD (SWITZERLAND)**
Dr. Gründer received his DMD degree from the University of Zurich, Switzerland, in 1982. His post-graduate education in advanced fixed prosthodontics also came from the University of Zurich, where he is senior lecturer since 1987. He is a certified specialist for reconstructive dentistry. He maintains a private practice together with Thomas Gaberthüel since 1989 in Zollikon-Zurich and has published numerous papers and extensively lectured nationally and internationally on the surgical and prosthetic aspects of implant dentistry. Dr. Gründer is a Past-President of the Swiss Society of Oral Implantology (SSOI) and a Past-President of the European Academy of Esthetic Dentistry (EAED).

Topic: Aesthetics in Implantology - Predictable Site Development
Speakers

Hajime Igarashi, DDS, PhD (JAPAN)
Director of Igarashi Oral Implantology Center, Dr. Igarashi is certified as a supervising practitioner by the Japanese Academy of Clinical Periodontology and the Academy of Gnathology and Occlusion. He is currently a member of the Japanese Society of Oral Implantology and ICOI (International Congress of Oral Implantology), JAPAN. He is also serves on the organizing committees of ICOI JAPAN, Osseo-Integration Study Club of Japan, and ISO (International Society of Osseointegration).
Topic: Immediate Loading of Implant

Curtis E. Jansen, DDS (USA)
Dr. Jansen completed his DDS degree and his Prosthodontic education at the USC School of Dentistry. After finishing his graduate degree in Prosthodontics he accepted a full-time teaching position at the USCSD. He has lectured internationally on subjects emphasizing Restorative, Esthetic, and Implant dentistry. Dr. Jansen has an extensive past involving research and design in implant dentistry with a number of patents for implant restorative components being used by major manufactures through out the world. He is an Associate member of the American College of Prosthodontics, a Fellow of the American College of Dentists and member of the Academy of Osseointegration. Currently, he has a full-time practice limited to Prosthetic dentistry and a dental laboratory in Monterey California.
Topic: Integrating Dentistry with CAD/CAM. Just Do It!

Sascha A. Jovanovic, DDS, MS (USA)
Dr. Jovanovic has been formally trained in Periodontics at UCLA School of Dentistry, in Implant Dentistry at Loma Linda University and in Prosthodontics at the University of Aachen, Germany and holds a Master of Sciences degree in Oral Biology from UCLA. He specializes in dental implant therapy, is a lecturer at UCLA and is the Academic Chair of gIDE Education Institute. He is the past-president of the European Association for Osseointegration (EAO) and a past-board member of the Osseointegration Foundation (OF). He teaches worldwide and has published over 60 articles and book chapters.
Topic: Localized Ridge Augmentation using rh-Bmp2 for the purpose of Implants (Live Surgery)

Seong-Hun Kim, DMD, MSD, PhD (KOREA)
Dr. Kim is an Assistant Professor, Department of Orthodontics at the Catholic University of Korea, Uijongbu St. Mary’s Hospital. He is also a visiting assistant professor of Orthodontics at UCSF, and at the National Hospital of Odonto-Stomatology in HCMC, Vietnam. Dr. Kim obtained a PhD degree in Dept. of Orthodontics, School of Dentistry at the Seoul National University, Korea. He is currently the Editor of Clinical Affair in the Korean Journal of Orthodontics and on the editorial review board of AJODO, AO, and OCR. He is the author of five text books and over 80 scientific articles.
Topic: Current Stream in Corticotomy Assisted Orthodontics: Accelerated Osteogenic Orthodontics (AOO) Vs Speedy Surgical Orthodontics (SSO)

Fouad Khoury, DMD, PhD (GERMANY)
Dr. Khoury is currently Professor at the Department of Oral & Maxillofacial Surgery of the University of Münster, Germany and Chairman of the Privatklinik Schloss Schellenstein, Implantology center, Olsberg, Germany. He has received his DMD degree from Joseph University, Beirut. He is on the editorial board of multiple scientific journals. Professor Khoury holds several patents and more than 100 publications and 700 lectures / courses on Oral Surgery, Bone Transplantation and Implantology.
Topic: Predictable Long Term Reconstruction: Biological Concept for Bone Grafting (Hands-On & Cadaver Workshop)

Hong Chan Lee, DDS, PhD (KOREA)
Dr. Lee has received his dental education as well as MS degree from Wonkwang University School of Dentistry and earned the PhD degree from Chosun University School of Dentistry in Korea. He has served as fellow at the University of Illinois in Chicago, Department of Restorative Dentistry and Implant Center. Dr. Lee is the Founder and Director of OSC Institute. He has made numerous presentations nationally and internationally, as well as published with a specific emphasis on minimally invasive sinus augmentation.
Topic: On-site Sinus Compaction (OSC)
Speakers

**Baldwin Marchack, DDS, MBA (USA)**
Dr. Marchack graduated from the USC School of Dentistry and received his MBA from UCLA. He is a Fellow of the American College of Dentists, a Fellow of the International College of Dentists, and a Fellow of the Pierre Fauchard Academy. He is the immediate past-president of the American Prosthodontic Society, past-president of the Pacific Coast Society for Prosthodontics and the American Academy of Esthetic Dentistry, and serves on the Board of Councilors for the USC School of Dentistry. Dr Marchack is the Vice-Chair of the Editorial Council for the Journal of Prosthetic Dentistry, and maintains a private practice with a focus on esthetic, restorative and implant dentistry in Pasadena, California.
**Topic:** Fixed Esthetic Implant Supported Restorations in the Age of Speed

**Ziv Mazor, DMD (ISRAEL)**
Dr. Mazor is a leading Israeli periodontist. He graduated from the periodontal department of Hadassah School of Dental Medicine-Jerusalem Israel where he served as clinical instructor. Since 1993 Dr. Mazor is engaged in clinical research in the field of Bone Augmentation and Sinus Floor Elevation. Dr. Mazor maintains a private practice limited to periodontal and implant dentistry in Raanana, Israel. He serves on the editorial board of several international dental journals. Dr. Mazor is a world renown speaker and has lectured extensively both nationally and internationally. He is the past president of the Israeli Periodontal Society.
**Topic:** Acceleration of Bone Healing and Loading Protocol of the Augmented Sinus Using Autologous Growth Factors

**Peter K. Moy, DMD (USA)**
Dr. Moy is Professor, Department Oral & Maxillofacial Surgery, Director of Implant Dentistry and Surgical Implant Center at UCLA. He received his dental degree from the University of Pittsburgh, a certificate in General Practice Residency from Queen’s Medical Center in Honolulu, Hawaii and his certificate in Oral and Maxillofacial Surgery from UCLA Hospital and Medical Center. Dr. Moy has written numerous articles related to Implant Dentistry and Osseointegration, specifically, on bone grafting and augmentation procedures for the atrophic ridges. He has lectured nationally and internationally, most recently at the 98th Annual Meeting of the American Association of Oral and Maxillofacial Surgeons. He established and maintained his private practice in the West Coast Center for osseointegration in Brentwood, California.
**Topic:** Clinical evidence that rhBMP-2 provides steady, predictable ridge augmentation in the Age of Speed

**Kevin G. Murphy, DDS, MS (USA)**
Dr. Murphy received his dental degree from the University of Illinois where he also received specialty certificates in both Prosthodontics and Periodontics, as well as a master’s degree in Oral Histology. Dr. Murphy is a Diplomate of the American Board of Periodontology. He maintains a private practice in Baltimore, Maryland. Dr. Murphy is also an Associate Professor in the Department of Periodontics, University of Maryland, Baltimore College of Dentistry.
**Topic:** Clinical Periodontal Procedures of the Periodontally Accelerated Osteogenic Orthodontics (PAOO) Technique

**Mamaly Reshad, DDS, MSc (USA)**
Dr. Reshad is the Co-Chair for fixed and Operative Dentistry at the USC School of Dentistry. He is the co-director of the pre-clinical Fixed Prosthodontics programs. He is also the course director for dental materials for the advanced programs. Dr. Reshad received his training in Prosthodontics from the USC School of Dentistry. He completed his Master’s in Conservative Dentistry with Distinction at the Eastman Dental Institute, London University. He has published in numerous peer-reviewed journals on a wide range of topics in Prosthodontics. His area of research expertise is in dental materials. He maintains a private practice limited to Prosthodontics at the USC Oral Health Center.
**Topic:** The Art of Communication: Bonded Porcelain and Dental Implant Restorations
Speakers

Fernando Rojas-Vizcaya, DDS, MS (USA)
Dr. Rojas maintains a private practice limited to implant surgery and prosthodontics. He is the founder of the Mediterranean Prosthodontic Institute in Castellón, Spain. He also holds a position as Adjunct Assistant Professor in the Department of Prosthodontics in the University of North Carolina at Chapel Hill. He received his DDS degree from the University Javeriana in Colombia, his University Specialist Degrees in Oral Surgery, Oral Medicine and Implant Dentistry and his Doctorate in Buccal Surgery at the University Complutense in Madrid, Spain. Dr. Rojas received his post-graduate specialty degree along with a MS in Prosthodontics, and a Fellowship in Oral Implantology from UNC.

Topic: Esthetic Design for Immediate Placement & Loading of Maxillary Complex Cases

George Romanos, DDS, PhD (USA)
Professor of Clinical Dentistry at the Univ.of Rochester, NY; Director of the Unit of Laser Dentistry; fully trained in Periodontics, Prosthodontics and Oral Surgery in Germany; Assoc. Professor for Oral Surgery and Implantology in Frankfurt, Germany; former Professor of Implant Dentistry at the NYU; Chairman of the World Federation of Laser Dentistry (WFLD) (North American Division). Edit.Board Member: IJOMI, Clinical Implant Dentistry and Related Research, J Prosthodontics, Implant Dentistry; more than 170 publications and 3 books on Lasers and immediate loading; over 500 presentations worldwide.

Topic: Bone Response After Immediate Loading of Dental Implants. Short or Long Term Success? (Gen. Session)

Laser Irradiation in Periodontal Therapy. What Are the Goals and What We Can Achieve? (DH Forum)

Songtao Shi, DDS, MS, PhD (USA)
Dr. Shi is a tenured Associate Professor at the Center for Craniofacial Molecular Biology of the University of Southern California School of Dentistry. He received his DDS degree from Peking University followed by specialty training in Pediatric Dentistry. He has earned his Ph.D. degree in Craniofacial Biology from USC. Dr. Shi is considered a world authority in the field of mesenchymal or adult stem cell biology and has pioneered their application in tissue engineering and tooth regeneration.

Topic: Periodontal Ligament Stem Cell Mediated Tissue Regeneration

Maurizio Tonetti, DMD, PhD, MMSc (ITALY)
Dr. Tonetti is Executive Director of the European Research Group on Periodontology in Genova, Italy. He is also Editor-in Chief of the Journal of Clinical Periodontology. He has served as the Professor and Chair of the Division of Periodontology and Head of the Department of Oral Health and Diagnostic Sciences at the University of Connecticut School of Dental Medicine, as well as Professor and Head of the Department of Periodontology, Eastman Dental Institute and Hospital, University College London.

Topic: Periodontal Regeneration

Atsuo Uematsu, DDS, PhD (JAPAN)
Dr. Uematsu is a Visiting Professor of Periodontology at the Kanagawa Dental College, as well as the Director of the Society of Japan Clinical Dentistry in Tokyo. Dr. Uematsu is a graduate of Kanagawa Dental College, and received clinical training in periodontology from the same institution and most recently earned the PhD degree. He has published extensively in area of implant surgery and esthetic dentistry.

Topic: Optimal Timing for Implant Placement in the Esthetic Zone

Homayoun H. Zadeh, DDS, PhD (USA) (Symposium Chair)
Associate Professor, USC School of Dentistry. Dr. Zadeh is a graduate of the USC School of Dentistry. He completed the advanced clinical education in Periodontology and earned his PhD degree in Immunology from the University of Connecticut. He is a Diplomate of the American Board of Periodontology. He serves as the editorial reviewer for several scientific journals, and chairs a Scientific Study Section of NIH. Dr. Zadeh also leads a research team, funded by the NIH. His clinical research interests involve studies on minimally-invasive surgery and tissue engineering. He is Director of the USC International Periodontal and Implant Symposium and maintains a part-time private practice limited to Periodontology and Implants in Southern California.

Topic: Minimally Invasive Periodontal Plastic Surgery (Hands-On Cadaver Workshop and Live Surgery)
Workshops

Hands-On Cadaver Workshop and Live Surgery
January 28, 2010 - USC School of Dentistry
Minimally Invasive Periodontal Plastic Surgery
Speaker: Homayoun H. Zadeh, DDS, PhD

Upon completion of this course participants will know:
• Rationale for mucogingival periodontal plastic surgery
• Tunneling techniques for minimally invasive access
• Palatal donor tissue harvesting
• Recombinant human platelet derived growth factor (rhPDGF-BB) for treatment of gingival recession defects

Cadaver workshop to gain practical experience
Live surgery to demonstrate connective tissue and rhPDGF-BB for treatment of gingival recession defects

Hands-On & Cadaver Workshop
January 31, 2010 - USC School of Dentistry
Predictable Long Term Reconstruction: Biological Concept for Bone Grafting
Speaker: Fouad Khoury, DMD, PhD

Upon completion of this course participants will know:
• Technique of safe harvesting of bone blocks
• Technique of block grafting (high graft vitality)
• Soft tissue management for graft protection and soft tissue augmentation
• Surgical and prosthetic protocol of early loading in grafted bone

General Information

EVENT LOCATION
Wilshire Grand Los Angeles
930 Wilshire Blvd., Los Angeles, CA 90017
• Right in the heart of downtown Los Angeles
• 25 minutes from Los Angeles International Airport
• Minutes away from CA-110, I-10, I-101, and I-5.
  Telephone: 213-688-7777
  Reservation: 888-773-2888 (ask about the room block by USC School of Dentistry)
  Website: www.wilshiregrand.com
• Book your rooms early! Special guest room rate is available for enrollees for 35th USC Periodontal & Implant Symposium if you book prior to Jan. 15, 2010. The special rates for Jan. 27 through Jan. 31 are $149 for superior level, $169 for junior suites and $189 for executive level. Please call Wilshire Grand Hotel at 888-773-2888 and ask for special rates for USC School of Dentistry. To book online for special rate, please contact our office at cedental@usc.edu.

QUESTIONS?
Please contact USC School of Dentistry Office of Continuing Education by one of the following methods:
Mail: 925 W. 34th St. Room 201J., Los Angeles, CA 90089

Online Registration Available at www.uscdentalce.org

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before this course. No refund is granted afterwards. A $60 fee is withheld for processing. For additional registrations, xerox and send.
MASTERING MOLAR ENDODONTICS
Friday - Saturday, February 5 - 6, 2010

BASIC PROTOCOLS IN IMPLANT SURGERY AND RESTORATION
Thursday - Sunday, February 18 - 21, 2010

CHRONIC OROFACIAL, ORODENTAL AND HEADACHE PAINS FOR THE DENTIST
Friday - Saturday, February 19 - 20, 2010

PORCELAIN VENEERS: OPTIMIZING LONG TERM ESTHETIC OUTCOME USING SMILE DESIGN AND MANAGING OCCLUSION DISEASE
Friday, February 26, 2010

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, February 27, 2010

APPLIED HYPNOSIS: TREAT PAIN, TMD & OTHER DENTAL CONDITIONS
Saturday - Sunday, February 27 - 28, 2010

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, March 6, 2010

USC RUTH RAGLAND 24TH DENTAL HYGIENE SYMPOSIUM (LECTURE & HANDS-ON WORKSHOP)
Lecture: Saturday, March 6, 2010
Hands-On Workshop: Sunday, March 7, 2010

IMPLANT THERAPY IN THE ESTHETIC ZONE
Friday - Sunday, March 12 - 14, 2010

ESTHETIC FULL-MOUTH IMPLANT RECONSTRUCTION: FROM TREATMENT PLANNING TO FIXED RESTORATION
Module I: Friday, March 19, 2010
Module II: Saturday, March 20, 2010
Module III: Sunday, March 21, 2010

MASTERING BONE GRAFTING FOR ESTHETIC IMPLANT SITE DEVELOPMENT
Lecture & Hands-On Workshop: Friday, March 26, 2010
Cadaver Workshop: Saturday, March 27, 2010

NEW APPROACHES FOR ANTIMICROBIAL TREATMENT OF PERIODONTAL DISEASE (SACRAMENTO)
Friday, April 9, 2010

IMPLANT THERAPY IN COMPROMISED SITES
Friday - Sunday, April 9 - 11, 2010

COMMON ORAL LESIONS (1): UPDATE ON EARLY ORAL CANCER AND PRECANCER DETECTION
Saturday, April 10, 2010

ESTHETIC PERIODONTAL SURGERY FOR THE GENERAL PRACTITIONER
Lecture: Friday, July 23, 2010
Lecture: Saturday, July 30, 2010
Hands-On Workshop: Sunday, July 31, 2010

ADVANCED BONE AND SOFT TISSUE AUGMENTATION - CADAVER WORKSHOP
Sunday, April 11, 2010

TEMPOROMANDIBULAR DISORDERS, ARTHROCENTESIS AND BOTOX/TRIGGER POINT INJECTIONS
Friday - Saturday, July 30 - 31, 2010

DIGITAL PHOTOGRAPHY IN DENTISTRY
Part I: Friday, April 16, 2010
Part II: Saturday, April 17, 2010

A COMMON SENSE APPROACH TO REMOVABLE PARTIAL DENTURE DESIGN
Saturday, April 24, 2010
35th Annual USC International Periodontal and Implant Symposium
Wilshire Grand Hotel, Los Angeles
January 28 - 31, 2010
