It is with a great deal of enthusiasm that I would like to invite you to attend the 42nd International USC Periodontal & Implant Symposium. The theme of this year’s symposium will be: “Risks & Rewards”. The concept is that risk assessment is an essential component of selecting an appropriate therapy for patients and predicting the outcome of the desired therapy. A variety of risk assessment tools are available to assess individual patient’s risks (e.g. Periodontitis, peri-implantitis, prosthetic success, etc), as well as their outcome following therapy (surgical wound healing, disease relapse, prosthetic survival, etc). In order to manage patient risks, a variety of diagnostic and therapeutic techniques and technologies have been developed. These developments are some of the most exciting and important advancements of clinical dentistry. A panel of internationally renowned experts will present the most important challenges that face clinicians every day as well as provide risk assessment tools to help clinicians select the appropriate diagnostic and therapeutic strategies. The program boasts five days with a diverse range of educational opportunities. The two-days of general sessions will include lecture presentation and case presentations, as well as expert panel discussion. In addition, there are a variety of surgical and prosthetic hands-on workshops on models, animal jaws, as well as four cadaver workshops. Although the majority of the general-session presentations are interdisciplinary in nature, there are also sessions designated as “Surgical Track”, “Restorative Track” and “Dental Hygiene Forum” that focus on specific disciplines. The program is sure to inspire you and provide material, which are very germane to clinical practice. This is an educational opportunity not to be missed by the entire oral healthcare team, including specialists, restorative dentists, dental hygienists and dental technologists.

**Millennium Biltmore Hotel Los Angeles**

Friday - Saturday, February 10 - 11, 2017: **General Sessions**

Saturday, February 11, 2017: **Dental Hygiene Forum and Optional Hands-On Workshop: Tools, technology & disease treatment** (Susan Wingrove)

**Hands-On Workshops:**
- **Friday, February 10, 2017**
  - **Osseodensification** (Rodrigo Neiva)
  - **Immediate implant placement and simultaneous bone augmentation** (Neema Bakhshalian)
  - **Restoration of edentulous patient with “consus concept”** (Ernesto Cholakis)
- **Saturday, February 11, 2017**
  - **Intra-operative navigation implant surgery** (Hugo Debruyn & Jan D’Haese)

**Cadaver Workshops at Herman Ostrow School of Dentistry of USC**

- **Modular bone augmentation (MBA) in posterior mandible:** Wednesday, February 8, 2017 (Homa Zadeh)
- **Practical techniques for peri-implant soft tissue augmentation:** Thursday, February 9, 2017 (Mario Roccuzzo)
- **Periodontal plastic surgery:** Sunday, February 12, 2017 (Alfonso Gil & Seiko Min)
- **Novel techniques for sinus augmentation:** February 12, 2017 (Tomaso Vercellotti)
42nd Annual USC International Periodontal & Implant Symposium
Millennium Biltmore Hotel, 506 S. Grand Ave., Los Angeles, CA 90071-2607
