Porcelain Veneers: Optimizing Results
Using Supra-Gingival Principles, and
Understanding Adhesion and Occlusion

Lecture
Ostrow School of Dentistry of USC
Friday, February 28, 2014
9:00 a.m. - 5:00 p.m.
Online registration available at www.uscdentalce.org

7 Hours of Continuing Education

Registration Fees
Before February 1, 2014
Dentist: $245
Auxiliary: $175
After February 1, 2014
Dentist: $275
Auxiliary: $195
On-Site Registration
Dentist: $325
Auxiliary: $235

Fees include course material, continental breakfast and refreshments during breaks.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted after that. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

Upcoming Courses

THE USC 12th INTERNATIONAL ENDODONTIC SYMPOSIUM
Friday - Saturday, November 22 - 23, 2013

IMPLANT THERAPY FOR EDENTULOUS PATIENTS
Friday - Saturday, December 7 - 8, 2013

A CONTEMPORARY APPROACH TO DIAGNOSIS, TREATMENT PLANNING AND THERAPY IN PERIODONTICS
Friday, December 13, 2013

FOCUS ON THE MAXILLARY SINUS
Saturday, December 14, 2013

THE 39TH ANNUAL USC INTERNATIONAL PERIODONTAL AND IMPLANT SYMPOSIUM
Hands-On Cadaver Workshop I: Wednesday, January 22, 2014
Hands-On Cadaver Workshop II: Thursday, January 23, 2014
General Sessions: Friday - Saturday, January 24 - 25, 2014
Dental Hygiene Forum: Saturday, January 25, 2014
Optional Dental Hygiene Hands-On: Saturday, January 25, 2014
Hands-On Workshop III: Saturday, January 25, 2014
Hands-On Workshop IV: Saturday, January 25, 2014
Hands-On Cadaver Workshop V: Sunday, January 26, 2014
Hands-On Cadaver Workshop VI: Sunday, January 26, 2014

CHRONIC OROFACIAL, ORODENTAL AND HEADACHE PAINS FOR THE DENTIST
Friday - Saturday, January 31 - February 1, 2014

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, February 1, 2014

IMPLANT CPR! SUCCESSFUL MANAGEMENT OF PROSTHETIC IMPLANT COMPLICATIONS
Module I - Lecture: Friday, February 7, 2014
Module II - Hands-On Workshop: Saturday, February 8, 2014

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, February 8, 2014

MASTERING MOLAR ENDODONTICS
Friday - Saturday, February 21 - 22, 2014

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2014 and receive another course for FREE.

Porcelain Veneers: Optimizing Results Using Supra-Gingival Principles, and Understanding Adhesion and Occlusion

Ostrow School of Dentistry of USC
Office of Continuing Education

★ Life-Long Tradition and Excellence ★
Porcelain veneers have become a popular procedure, however, without a comprehensive and sequential esthetic evaluation, diagnosis, material selection, treatment plan and execution, the successful outcome of porcelain veneers is hard to predict. Supragingival dentistry techniques have made this procedure easier and more predictable than ever before. Dr. Ruiz will explain how correct preparation technique affects the selection of the restorative porcelain material, based on the specific case needs, and how to achieve adequate balance of translucency and strength needed for excellent margin blending for supra-gingival or para-gingival margins. A logical approach for choosing the correct cement and bonding systems for predictable results will also be presented.

In addition, to predictably achieve patient satisfaction, it is imperative to have excellent communication with the patients, understand their unique esthetic perspective and goals, and systematically blend it with the operator’s esthetic preferences and goals. Also, before any case is initiated, it is imperative to properly diagnose the etiology of the condition requiring esthetic treatment. It is crucial to diagnose “occlusal disease” as it is often a major cause of a shorter life span of restorations.

In this course, a practical clinical approach to implement smile design and occlusion to diagnosis and treatment planning of porcelain veneers will be presented.

Upon Completion of the Course Participants Will:

- Learn how to safely restore severely worn out incisal edges
- Recognize the importance of diagnosis of occlusal disease and its correlation with long lasting restorations
- Understand supra-gingival veneer preparation techniques
- Recognize the symptoms of occlusal disease and their relationship with longevity of porcelain veneers
- Know how to choose the correct restorative porcelain material for each specific case
- Understand what substrate is most suitable for long-term bonding stability and how to better bond to each substrate
- Be able to select bonding systems and techniques yielding better long-term results
- Know the 25 parameters of dento-facial of smile design
