Upcoming Courses

NO MORE ANTERIOR CROWNS: VENEERS AS A SUBSTITUTE FOR A FULL CROWN
Friday, January 20, 2017

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, January 21, 2017

FUNDAMENTAL PRINCIPLES OF RESTORATIVE IMPLANT DENTISTRY FOR THE SINGLE MISSING TOOTH
Part I - Lecture: Friday, January 27, 2017
Part II - Lecture & Hands-On: Saturday, January 28, 2017

ADULT AND PEDIATRIC ORAL CONSCIOUS SEDATION RECERTIFICATION PROGRAM
Day I - Adult Oral Conscious Sedation: Saturday, January 28, 2017
Day II - Pediatric Oral Conscious Sedation: Sunday, January 29, 2017

TEMPOROMANDIBULAR DISORDERS: FROM CAPSULITIS TO ARTHRITIS (LIVE WEBINAR)
Friday, February 3, 2017

A SIMPLE TWO-STEP TREATMENT OF SEVERE PERIODONTITIS, AND MORE!
Saturday, February 4, 2017

THE 42ND ANNUAL USC INTERNATIONAL PERIODONTAL AND IMPLANT SYMPOSIUM
Cadaver Workshop (Zadeh): Wednesday, February 8, 2017
Cadaver Workshop (Roccuzzo): Thursday, February 9, 2017
General Sessions: Friday - Saturday, February 10 - 11, 2017
Dental Hygiene Forum: Saturday, February 11, 2017
Dental Hygiene Hands-On: Saturday, February 11, 2017
Cadaver Workshop (Gil & Min): Sunday, February 12, 2017
Cadaver Workshop (Vercellotti): Sunday, February 12, 2017

MASTERING MOLAR ENDODONTICS
Friday - Saturday, February 24 - 25, 2017

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT (WEBINAR AVAILABLE)
Saturday, February 25, 2017
Webinar: Sunday, February 26, 2017

Registration Form

FIRST NAME ___________________________ MIDDLE NAME _______________ LAST NAME ___________________________
TITLE __________ SPECIALTY _______ DL# ______________________________
ADDRESS ______________________________________________________________
CITY __________________ STATE _____ ZIP _________________________________
PHONE ( ) __________________ FAX ( ) _________________________________
E-MAIL ____________________________________________
☐ MASTERCARD ☐ VISA ☐ CHECK ENCLOSED
CARD NUMBER _______________________________ EXPIRATION DATE ______________

I WOULD BE INTERESTED IN THIS COURSE AS ☐ YES ☐ NO

Registration Fees
Before March 1, 2017
Dentist: $275
Auxiliary: $210
After March 1, 2017
Dentist: $315
Auxiliary: $250

Fees include course material, continental breakfast, and refreshments during breaks.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.
Alon Frydman, DDS
Dr. Frydman is an Associate Professor of Clinical Dentistry in the Division of Periodontology and the Division of Restorative Sciences at the Herman Ostrow School of Dentistry of USC. Dr. Frydman received his dental degree from UCLA and graduated from the Advanced Periodontology Program at USC, where he has since been a faculty member. Dr. Frydman teaches courses in treatment planning and implant therapy and lectures nationally on topics related to aggressive periodontitis and implant disease. He is a Diplomate of the American Board of Periodontology as well as an Examiner for the American Board of Periodontology. Dr. Frydman’s research focuses on implant therapy and periodontal disease.

Krikor Simonian, DDS
Dr. Simonian is a graduate of the Herman Ostrow School of Dentistry of USC. He practiced as a general dentist for 11 years, and in the meantime held a faculty position at USC. He obtained his specialty certificate in 2004 upon completion of the 3 year program in Advanced Periodontology at USC, and his board certification by the American Board of Periodontology in 2005. He is a Clinical Assistant Professor at the Herman Ostrow School of Dentistry of USC Advanced Periodontology Program and has lectured nationally. He has published in several leading peer-reviewed journals, including Journal of Periodontology, International Journal of Oral & Maxillofacial Implants, Journal of the California Dental Association, Clinical Implant Dentistry and Related Research, Clinical Advances in Periodontics and the Journal of the Western Society of Periodontology. Dr. Simonian is an active member of the American Board of Periodontology, American Academy of Periodontology, American Dental Association, California Dental Association and the San Gabriel Valley Dental Society.

Understanding implant treatment planning requires both restorative and surgical perspectives. Further complicating implant dentistry are the challenges in treating the ailing implant. Surgically, implants are an obvious choice for edentulous areas, however challenges arise when replacement of questionable teeth with implants are contemplated. Periodontal literature provides insights when maintaining the dentition is possible. However, there are situations where the decision to replace teeth with implants is not very clear. The aim of the course is to explore the multiple facets of implant dentistry including the treatment of ailing implants in order to achieve a broad perspective that will be valuable to surgical and periodontal decision making. Topics will include origins and science behind osseointegration, current trends in peri-implantitis therapy a basic review of surgical procedures typically used for augmentation and implant site preparation, implant success and failure, an understanding of periodontal prognosis of teeth in relation to implant prognosis, and surgical treatment planning of implants. The goal is to combine a broad understanding of the current science behind implants and the treatment of their complications in order to develop a more concise treatment plan that helps navigate the difficult question of when to replace natural teeth with implants, or even when to replace ailing implants.

Topics to be covered:
- Emerging therapies for treating peri-implantitis
- Prevention of peri-implant disease
- Alternatives to titanium implants
- Periodontal diseases and their potential impact on implant prognosis
- Tooth prognosis versus implant prognosis
- Implants as foreign bodies
- Peri-implant disease
- Peri-implantitis in comparison to periodontitis lesions
- Prognostic evaluation of teeth in treatment planning for implants
- Prognosis of traditional therapy versus implant treatment

Upon completion of the course participants should know:
- Current theories behind peri-implantitis
- Emerging modalities for treatment of peri-implant disease
- Principals of osseointegration
- Principals of implant site preparation and augmentation
- Differences between treatment planning implants for sites with and without teeth
- How to assign a concise prognosis for involved teeth
- How to select teeth for strategic extraction
- Indications and contraindications for placing dental implants in periodontally compromised cases

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
