Module I - Lecture: Friday, March 18, 2011
Module II - Lecture: Saturday, March 19, 2011

Full Refund for Clinical Intravenous Sedation will be granted only if a written cancellation notification is received prior to March 1, 2011. 50% refund for cancellation between March 1 and April 1, 2011. NO REFUND WILL BE ISSUED AFTER APRIL 1, 2011. A $100 processing fee will be withheld for ALL refunds. For additional registrations, xerox this form and send.

Physcial Evaluation

Monday, May 16, 2011

Emergency Medicine

Tuesday, May 17, 2011

Monitoring and Clinical Emergency Medicine

Wednesday, May 18, 2011

Clinical Intravenous Sedation

Thursday - Sunday, July 7 - 10, 2011

Friday - Sunday, July 15 - 17, 2011
Clinical Intravenous Sedation

Stanley F. Malamed, DDS
Professor of Anesthesia and Medicine, Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics, Herman Ostrow School of Dentistry of USC, Los Angeles, California.

Ken Reed, DMD
Clinical Assistant Professor of Anesthesia and Medicine, Herman Ostrow School of Dentistry of USC, Los Angeles, California.

H. William Gottschalk, DDS
Amanda Okundaye, DDS
Kenneth Lee, DDS

Physical Evaluation*
Monday, May 16, 2011 • 8:30 a.m. - 4:30 p.m.
LECTURE COURSE
7 Hours of Continuing Education

SYNOPSIS
Adequate preoperative evaluation of the patient is essential to the safe completion of dental treatment. In this program, an easy-to-use system of physical evaluation will be presented, which enables the doctor to determine the potential risk involved in dental treatment of the medically compromised patient.

The medical history questionnaire, dialogue history and physical evaluation will be discussed as means of spotting the potential patient at risk. Specific diseases will be reviewed, stressing their significance to dentistry. These will include: cardiovascular, respiratory, neurologic and endocrine disorders.

The USC Physical Evaluation System will be introduced as method of categorizing the medically compromised patient and determining the need for therapy modifications. Stress reduction protocols and practical steps which significantly reduce patient risk during treatment, will be reviewed.

*This course is a prerequisite for enrolling in the Clinical Intravenous Sedation Course scheduled for July 7-10, 15-17, 2011

Emergency Medicine*
Tuesday, May 17, 2011 • 8:30 a.m. - 4:30 p.m.
LECTURE COURSE
7 Hours of Continuing Education

SYNOPSIS
This course is designed to provide all members of the dental office team with a concise, up-to-date and practical review of emergency medicine. The course will review the preparation of the dental office for medical emergencies and the prevention, recognition and management of specific situations that can, and do, arise in dental offices and at home.

It is recommended that all members of your dental team participate in this program. In addition, give serious consideration to enrolling your office staff in the basic life support provider level course (CPR).

*This course is a prerequisite for enrolling in the Clinical Intravenous Sedation Course scheduled for July 7-10, 15-17, 2011

Monitoring and Clinical Emergency Medicine*
Wednesday, May 18, 2011 • 8:30 a.m. - 4:30 p.m.
LECTURE COURSE
7 Hours of Continuing Education

SYNOPSIS
The prevention and management of medical emergencies are vitally important components of an in-office program in preparedness for such life-threatening situations. This clinical program for the doctor, hygienist and assistant, provides didactic demonstration and hands-on experience in the monitoring of patients before and during dental office procedures for the management of life-threatening situations.

The monitoring portion of the course will provide experience in the recording of blood pressure, the heart rate and rhythm (via palpation and electronic pulse meter) and monitoring of heart/lung sounds via stethoscope. The use of the ECG will also be demonstrated. The proper use of emergency equipment will be the subject of the second portion of the course. Demonstrations and practice will be provided in the use of the positive pressure/demand valve (Robert-Shaw, Elder Valve), the self-inflating bag-valve-mask (Ambu bag), the oropharyngeal and nasopharyngeal airway as well as laryngoscope and endotracheal tubes.

*This course is a prerequisite for enrolling in the Clinical Intravenous Sedation Course scheduled for July 7-10, 15-17, 2011

Clinical Intravenous Sedation
Thursday - Sunday, July 7 - 10, 2011 • 8:30 a.m. - 4:30 p.m.
LECTURE, DEMONSTRATION AND PARTICIPATION
49 Hours of Continuing Education • Limited Enrollment

SYNOPSIS
Seven days (49 hours) of concentrated study in the basics of intravenous sedation for the doctor not previously trained in this technique. The aim of this course is to enable doctors completing it to return to their practices and feel confident in using intravenous sedation on their patients. This course fulfills the dental board requirements for parental sedation permits. This is a clinical course requiring the doctor to treat dental patients who are receiving intravenous medications. This course devotes considerable time to the technique of venipuncture and the intravenous benzodiazepines midazolam and diazepam. To make the course truly valuable for your office staff, it is recommended that they be urged to attend along with the doctor. To be accepted in this course, the doctor must have a currently valid basic life support provider level (or higher) card from either the American Heart Association or the American Red Cross plus the above 3 prerequisite courses.

Fees for the prerequisite courses “Physical Evaluation”, “Emergency Medicine” and “Monitoring and Clinical Emergency Medicine” are already included in the fee for this course. CPR is required and not included. Additional faculty will be included as needed to enhance faculty to participant ratio.

Registration Fees

Physical Evaluation*
Emergency Medicine*
Before March 1, 2011
Dentist: $275 • Auxiliary: $175
After March 1, 2011
Dentist: $325 • Auxiliary: $195

Monitoring and Clinical Emergency Medicine*
Before March 1, 2011
Dentist: $375 • Auxiliary: $215
After March 1, 2011
Dentist: $415 • Auxiliary: $265

Clinical Intravenous Sedation
Before March 1, 2011 Dentist: $11,450
After March 1, 2011 Dentist: $11,950
(Tuition includes all 3 prerequisite courses for the dentist only)
Participants can bring 2 non-dentist auxiliaries to assist in the July clinical sessions
*Assisting auxiliaries will not receive CE credits

Dentist: $415 • Auxiliary: $265
