**Ove Peters, DDS (USA)**
Dr. Peters is currently a co-Chair and Director of the Advanced Education Program in Endodontology at the Arthur A. Dugoni School of Dentistry in San Francisco. He received his postgraduate education in endodontics at the University of Zurich as well as at UCSF and is a Diplomate of the ABE. Dr. Peters has published more than 150 manuscripts and abstracts related to endodontic technology and biology. He received the Hans Genet Award of the European Society of Endodontology and more recently the Louis I. Grossman Award of the American Association of Endodontists.

**Topic: Endodontic Biology: What have we learned in a decade of pulp regeneration?**

---

**Parish P. Sedghizadeh DDS, MS (USA)**
Dr. Sedghizadeh is an Associate Professor of Clinical Dentistry at the University of Southern California (USC), Herman Ostrow School of Dentistry, and Director of the USC Center for Biofilms. He is also the Section Chair of Diagnostic Sciences, and the Director of the Oral Pathology and Radiology Hybrid Program. Dr. Sedghizadeh conducts research, publishes, consults, and teaches oral and maxillofacial pathology, radiology, and medicine with an active clinical practice. He has over 80 peer-reviewed publications, and his research laboratory and clinical research projects at USC focus on the characterization and treatment of microbial biofilm infections, particularly jaw osteomyelitis and osteonecrosis where he has developed novel bone-targeted antimicrobial therapeutics.

**Topic: Endodontic considerations of medication-related osteonecrosis of the jaw.**

---

**Christine M. Sedgley, BDS, MDS, MDSc, PhD, FRACDS, MRACDS (USA)**
Dr. Sedgley is Professor and Chair of Endodontology at the Oregon Health and Science University in Portland, Oregon. She received her BDS, MDS, MDSc (Endodontics), FRACDS and MRACDS (ENDO) qualifications in Australia. She earned her PhD in oral microbiology from the University of Hong Kong, and received her advanced specialty education certificate in endodontics from the University of Michigan. She is a Diplomate of the American Board of Endodontics. She has more than 60 research and chapter publications and has participated in over 150 continuing education and research presentations worldwide. Dr. Sedgley is an Associate Editor of the Journal of Endodontics.

**Topic: Has bioinformatics changed how we treat root canal infections?**

---

**Thomas von Arx, Prof. Dr. med.dent. (SWITZERLAND)**
Dr. von Arx graduated in 1980 from the University of Bern, Switzerland. He specialized in Oral Surgery. He spent a research year at UTHSC in San Antonio, Texas in 1999 (Dept. of Periodontics). Thereafter, he joined the Dept. of Oral Surgery and Stomatology, University of Bern, Switzerland. Dr. von Arx became Associate Professor at the same department in 2008. Recently, he spent a 6-month sabbatical at the Department of Anatomy, University of Hawaii, Honolulu. Dr. von Arx has lectured in five continents and has authored and co-authored 190 papers and book chapters. His main area of clinical research is “Apical Microsurgery”. Dr. von Arx is the author of “Clinical Oral Anatomy”, a book published in 2017 by Springer.

**Topic: Apical surgery: inspection and management of the cut root face.**

---

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

Participants are cautioned about the potential risks of using limited knowledge when integrating new techniques into your practices.

This course is intended for endodontists, general practitioners, and any other specialist in dentistry who are interested in endodontic-related topics.

**ADA CERP**

University of Southern California Herman Ostrow School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.
