Participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

James Tom, DDS, MS (Course Director)

Dr. Tom is currently the Past-President of the American Society of Dentist Anesthesiologists and holds a full-time Associate Professor of Clinical Dentistry position at the Herman Ostrow School of Dentistry of USC. He served as the ADA and ASDA representative on the American Society of Anesthesiologists’ Task Force on Practice Guidelines for Moderate Procedural Sedation and Analgesia. Dr. Tom also serves as the Associate Editor of Anesthesia Progress, and promotes the wide use of anxiety and advanced pain control techniques across all disciplines of dentistry.

Kenneth K. Lee (Course Co-Director and Simulation Director)

Dr. Lee is a graduate of the Herman Ostrow School of Dentistry of USC. He received his D.D.S. degree in 1989. He received his certificate in dental anesthesia from Loma Linda University Medical Center in 1990. He is a fellow of the American Dental Society of Anesthesiology and is a diplomate of the National Dental Board of Anesthesiology. He is currently an associate professor at the Herman Ostrow School of Dentistry of USC where he teaches I.V. sedation to dental students and graduate periodontology residents. He has been appointed as an attending dental anesthesiologist for the dental anesthesiology residency program at NYU. He is the co-director of One to One Anesthesia Seminars, an anesthesia training center for all dental providers performing IV sedation and/or general anesthesia. He is the owner and founder of Solis Surgical Arts Center, a multi specialty licensed surgery center in Tarzana, California, dedicated to the delivery of dental care under general anesthesia. At Solis, he maintains a private practice specializing in comprehensive dentistry under general anesthesia.

Michael Alanes, DDS
Clinical Assistant Professor, Dentist Anesthesiologist, Herman Ostrow School of Dentistry of USC.

George Jaber, DDS
Clinical Assistant Professor, Dentist Anesthesiologist, Herman Ostrow School of Dentistry of USC.

Ryan Wu, DDS
Clinical Assistant Professor, Dentist Anesthesiologist, Herman Ostrow School of Dentistry of USC.

Facilities

Didactic and lecture portions of the course will be held in the Herman Ostrow School of Dentistry located at the University Park Campus of the University of Southern California. The clinical portion of the course will also be conducted in the Herman Ostrow School of Dentistry patient treatment areas enabling all aspects of patient treatment from instrument sterilization to radiographic services.

Enrollment in this clinical course is limited to ensure an abundance of moderate sedation experience with high standards in patient safety. Participants MUST arrange for 2 dental auxiliaries to assist and learn the anesthesia care team concept, and participants will be REQUIRED to provide operational moderate sedation vital signs monitors for use with this course. This intensive course in parenteral moderate sedation will also require participants to perform dental procedures while simultaneously administering moderate sedation drugs with their anesthesia care team. Clinical days will extend late into each Sunday afternoon, and participants should not schedule for flights or other transportation that may limit time to complete clinical requirements.

For more details regarding this course, please contact the Herman Ostrow School of Dentistry Continuing Professional Education at 213-821-2127 or via email at cedental@usc.edu.

Requirements

Documentation:

- Copy of your current CPR (BLS-HCP) certificate. (If yours has expired, please obtain a current card and submit the copy prior to the start of the course) Please note that ACLS certification (provided in the course) does not include BLS certification. BOTH certificates must be held for most licensing boards.
- Copies of your assistants’ current CPR certification (2 assistants required)
- Copy of your current Dental Licence and professional liability statement

Prior to the start of the clinical sessions, you MUST:

- Review two required textbooks
- Obtain a patient monitor for use during the course. Be advised that a patient anesthesia monitor must contain the following
  - Pulse oximeter
  - Non-invasive blood pressure monitoring
  - Exhaled carbon dioxide monitoring (“end-tidal CO2”)
- Obtain a pre-tracheal stethoscope to aid in monitoring respiration and ventilation of your patient. Information and pricing for the monitor and stethoscope can be obtained at: www.sedationresources.com or other suppliers.

Very systematically done and was detailed oriented. Clinical instructions were very clear.

Dr. Navneet Arora

Beyond having a friendly and encouraging environment they still manage to take you to a new level of patient evaluation and management. This is the course for anyone interested in sedation.

Dr. Alon Frydman
The Herman Ostrow School of Dentistry is proud to offer to you this comprehensive adult parenteral moderate sedation course. The 2019 course expands its curriculum to include new drug regimens, advances in patient monitoring, and ACLS Certification. This intensive course consist of 12 days totalling 96 hours: 8 days of lectures and hands-on workshops, and 4 days of clinical patient interaction. Each clinical Saturday will be followed by 2 hours of debrief and classroom troubleshooting. The course meets (and exceeds) the educational requirements established by the ADA Guidelines and fulfills most state regulations for administration of IV moderate sedation to dental patients. Each didactic day begins with a pre-session knowledge assessment and concludes with a case-based group learning exercise. Participants will perform physical evaluation, take medical histories, outline an anesthetic plan, initiate and confirm intravenous access, administer and become competent in the titration of sedative medications, and perform dental procedures under close supervision of faculty who have had post-graduate training in dental anesthesiology. They will also receive over-the-shoulder demonstration of airway management in a live patient setting.

Topics to be covered:
- Patient evaluation, selection, and suitability for moderate sedation through medical history taking, physical diagnosis, and psychological consideration.
- The continuum of sedation and anesthesia, with particular emphasis upon monitoring levels of sedation and the recognition of unintended deep sedation/general anesthesia.
- Respiratory physiology, anatomy, and pathology.
- Pharmacology of moderate sedation agents, adjunctive agents, and local anesthesia.
- Drug interactions and contra-indications.
- Indications and contra-indications for the use of moderate sedation in an office-based setting.
- Review of possible dental procedures done with moderate sedation.
- Principles of patient monitoring.
- Intravenous access, complications, and other routes of parenteral administration.
- Moderate sedation treatment planning.
- Prevention, recognition, and management of systemic complications of moderate sedation.
- Recognition of sedation emergencies, emergency airway management, and patient rescue techniques.
- Record keeping and medico-legal aspects of dental moderate sedation.
- Abuse and diversion.
- Live patient ventilation and clinical exposure to rescuing a patient from unintended loss of consciousness.
- Responsible opioid prescribing & post-operative pain management.

Upon completion participant will know:
- Advantages and disadvantages of moderate sedation.
- Prevention, recognition, and management of complications associated with moderate sedation in an office-based setting.
- Safe and effective administration of moderate sedation and selected drugs to patients in a clinical setting.
- How to recognize abuse potential, occupational hazards, and other untoward effects of the agents utilized for moderate sedation.
- Technique of intravenous access, intramuscular injection and other parenteral techniques.
- Pharmacology of the drugs selected for administration.
- Precautions, indications, contra-indications, and adverse reactions associated with the drugs selected.
- Complications associated with techniques of moderate sedation.
- How to prepare a protocol for management of emergencies in the dental office, and demonstrate understanding in usage of emergency drugs and equipment required for the prevention and management of emergency situations.
- Principles of advanced cardiac life support (ACLS).
- Principles and certification in AHA Advanced Cardiac Life Support (ACLS).
- How to manage an emergency situation.

This course is intended for:
- Dentists
- Dental Hygienists and Dental Assistants as auxiliaries

Approved by Alberta Dental Association - Moderate Sedation Permit For Two Pharmacological Agents

For dentists intending to practice in the Canadian province of Alberta, this course offered by Herman Ostrow School of Dentistry of USC is the ONLY approved course in the United States that allows participants to obtain a Modality 4F: Parenteral and Parenteral-like sedation permit from the Alberta Dental Association & College (ADA&C) without a Modality 4S permit. Alberta dentists, upon explicit written approval granted from the ADA&C, may take this course without the prerequisite of a Modality 4S permit and notify the course directors of their intentions prior to enrollment.

Adult Parenteral Moderate Sedation for Dentists Refresher Course
Friday, July 19, 2019. 9:00am - 5:00pm • 7 Hours of CE
Saturday, July 20, 2019. 8:00am - 5:00pm • 8 Hours of CE
Lecture • Re-Certification

This is an ongoing series of topics, hands-on simulation, and discussion intended for the dentist already employing moderate sedation in their practice. Course content is structured on subject matter review, recognition and management of complications, and introducing new concepts into an already established dental practice utilizing moderate sedation.

Topics to be covered:
• Pharmacology related to sedation
• Monitoring
• Physiology
• Emergency management and complications
• ACLS review & application - (not recertification)
• Case review, presentation, and panel discussion
• Responsible opioid prescribing & post-operative pain management

This course is intended for:
• Dentists, Dental Hygienists, Dental Assistants
• Practitioners and their support staff who have been utilizing parenteral and enteral moderate sedation in their dental practices. Those practitioners seeking initial certification in moderate sedation may use the continuing education credit from this course towards required hours needed to complete the USC Parenteral Moderate Sedation certification course.*

*Must be completed within a certain amount of time (certain states have limitations on the time elapsed between didactics and live patient demonstration completion. Check your state board regulations.

Registration Fee:
Before/After July 1, 2019
☐ $495/$575 per day; ☐ $895/$965 for both days
Instructors:
James Tom, DDS, MS, Kenneth Lee, DDS, Michael Alanes, DDS, George Jaber, DDS, and Ryan Wu, DDS

Adult Parenteral Moderate Sedation For Dentists
Lecture • Hands-On • Certification • Limited Enrollment
Actual Patient Sedation Experiences • Emergency Simulation
★ 96 Hours of Continuing Education Units ★

Lectures and ACLS Workshop: July 17 - 21, 2019
Live Patient Experience: September 5 - 8, 13 - 15, 2019 (USC Campus)

Refresher Course (July 19 - 20, 2019) Tuition Before/After July 1, 2019:
☐ $495/$575 per day ☐ $895/$965 for both days

☐ Lectures In Person (Jul 17 - 21, 2019): $1,595 or ☐ $395 Per Day ______________ (please specify day)

☐ Complete Program: Before/After Apr 1, 2019 $12,250/$13,000
(Fees include course material, continental breakfast, lunch, and refreshments during breaks. Installment options up to 5 payments will be accepted, please call 213-821-2127 for details. Full course participants are required to bring 2 auxiliaries for the last 2 weekends.
