Friday - Sunday, July 12 - 14, 2013
Friday - Sunday, July 19 - 21, 2013

Upcoming Events

THE 38TH ANNUAL USC PERIODONTAL AND IMPLANT SYMPOSIUM
Hands-On Cadaver Workshop I: Wednesday, January 23, 2013
Hands-On Cadaver Workshop II: Thursday, January 24, 2013
Symposium: Friday - Saturday, January 25 - 26, 2013
Dental Hygiene Forum: Saturday, January 26, 2013
Dental Hygiene Hands-On Workshop: Saturday, January 26, 2013

MASTERING MOLAR ENDOdontics
Friday - Saturday, February 1 - 2, 2013

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, February 2, 2013

IMPLANT CPR! SUCCESSFUL MANAGEMENT OF PROSTHETIC IMPLANT COMPLICATIONS
Module I - Lecture: Friday, February 8, 2013
Module II - Hands-On: Saturday, February 9, 2013

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, February 9, 2013

CHRONIC OROFACIAL, ORODENTAL AND HEADACHE PAINS FOR THE DENTIST
Friday - Saturday, February 22 - 23, 2013

PORCELAIN VENEERS: OPTIMIZING RESULTS USING SUPRA-GINGIVAL PRINCIPLES, AND UNDERSTANDING ADHESION AND OCCLUSION
Friday, March 8, 2013

IMPLANT THERAPY IN THE ESTHETIC ZONE
Friday - Sunday, March 15 - 17, 2013

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2012 and receive another course for FREE.

Clinical Intravenous Sedation
Before March 1, 2013
Dentist: $295  Auxiliary: $225
After March 1, 2013
Dentist: $345  Auxiliary: $255

Clinical Intravenous Sedation (including 4 prerequisite courses)
Before March 1, 2013
Dentist: $11,950
After March 1, 2013
Dentist: $12,450

Full Refund for Clinical Intravenous Sedation will be granted only if a written cancellation notification is received prior to March 1, 2013. 50% refund for cancellation between March 1 and April 1, 2013. NO REFUND WILL BE ISSUED AFTER APRIL 1, 2013. A $100 processing fee will be withheld for ALL refunds. For additional registrations, xerox this form and send.

**Physical Evaluation**

Monday, May 13, 2013 • 8:30 a.m. - 4:30 p.m.

**LECTURE COURSE**

7 Hours of Continuing Education

**Synopsis**

Adequate preoperative evaluation of the patient is essential to the safe completion of dental treatment. In this program, an easy-to-use system of physical evaluation will be presented, which enables the doctor to determine the potential risk involved in dental treatment of the medically compromised patient.

The medical history questionnaire, dialogue history and physical evaluation will be discussed as means of spotting the potential patient at risk. Specific diseases will be reviewed, stressing their significance to dental management of specific situations that can, and do, arise in dental offices and at home.

It is recommended that all members of your dental team participate in this program. In addition, give serious consideration to enrolling your office staff in the basic life support provider level course (CPR). *This course is a prerequisite for enrolling in the Clinical Intravenous Sedation Course scheduled for July 12-14, 19-21, 2013*

---

**Emergency Medicine**

Tuesday, May 14, 2013 • 8:30 a.m. - 4:30 p.m.

**LECTURE COURSE**

7 Hours of Continuing Education

**Synopsis**

This course is designed to provide all members of the dental office team with a concise, up-to-date and practical review of emergency medicine. The course will review the preparation of the dental office for medical emergencies and the prevention, recognition and management of specific situations that can, and do, arise in dental offices and at home.

It is recommended that all members of your dental team participate in this program. In addition, give serious consideration to enrolling your office staff in the basic life support provider level course (CPR). *This course is a prerequisite for enrolling in the Clinical Intravenous Sedation Course scheduled for July 12-14, 19-21, 2013*

---

**Pharmacology**

Thursday, May 16, 2013 • 8:30 a.m. - 4:30 p.m.

**LECTURE COURSE**

7 Hours of Continuing Education

**Synopsis**

Drugs for the prevention and management of pain and fear are important parts of the dentist's armamentarium. In this program the clinical pharmacology of (1) local anesthetic; (2) sedative, and; (3) analgesic drugs will be reviewed.

**Clinical Intravenous Sedation**

Six days (42 hours) of concentrated study in intravenous moderate sedation for the doctor not previously trained in IV drug administration. The aim of this program is to train doctors and their IV TEAM so that on returning to their practice they are confident in performing dental procedures on patients they have sedated intravenously. This program fulfills dental board requirements for parental (IV) sedation permits. It is a clinical program requiring the doctor and IV TEAM to treat a minimum of twenty (20) patients whom they have sedated intravenously. Considerable time is devoted to the technique of venipuncture and the IV administration of the benzodiazepines - midazolam and/or diazepam. To make the course truly valuable to your office staff (the IV TEAM) it is MANDATORY for the doctor to have two (2) assistants working chairside during all IV procedures. To enroll in this program the doctor must have a currently valid Basic Life Support – Healthcare Provider level (or higher, e.g. ACLS) card issued by the American Heart Association (AHA), in addition to having completed the four prerequisite courses (listed above). *This course is a prerequisite for enrolling in the Clinical Intravenous Sedation Course scheduled for July 12-14, 19-21, 2013*

(Note: This program is scheduled to begin June 17, 2013. Please see the next page for the details.)
