NAMES OF OTHER ENROLLEES:

14 Hours of Continuing Education

Registration Fees
Before April 1, 2014
Dentist: $245
Auxiliary: $195

After April 1, 2014
Dentist: $325
Auxiliary: $275

Fees include course material, continental breakfast, and refreshments during breaks.

Refunds are granted only if a written cancellation notification is received at least 14 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 7 days before this course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

Common Oral Lesions: Soft and Hard Tissue Diseases

CHRONIC OROFACIAL, ORODENTAL AND HEADACHE PAINS FOR THE DENTIST
Friday - Saturday, January 31 - February 1, 2014

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, February 1, 2014

IMPLANT CPR! SUCCESSFUL MANAGEMENT OF PROSTHETIC IMPLANT COMPLICATIONS
Module I - Lecture: Friday, February 7, 2014
Module II - Hands-On: Saturday, February 8, 2014

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, February 8, 2014

MASTERING MOLAR ENDODONTICS
Friday - Saturday, February 21 - 22, 2014

IMPLANT THERAPY IN THE ESTHETIC ZONE
Friday - Sunday, February 28 - March 2, 2014

PORCELAIN VENEERS: OPTIMIZING RESULTS USING SUPRA-GINGIVAL PRINCIPLES, AND UNDERSTANDING ADHESION AND OCCLUSION
Friday, February 28, 2014

SURGICAL AND PERIODONTAL PERSPECTIVES ON IMPLANT TREATMENT PLANNING
Friday, March 7, 2014

USC RUTH RAGLAND 28TH DENTAL HYGIENE SYMPOSIUM
Saturday, March 8, 2014

FUNDAMENTAL PRINCIPLES OF RESTORATIVE IMPLANT DENTISTRY FOR THE SINGLE MISSING TOOTH
Part I - Lecture: Friday, March 14, 2014
Part II - Hands-On: Saturday, March 15, 2014

3 + 1 Free CE Program
The More You Learn, The More You Earn!

Take any 3 CE courses between January and December 2014 and receive another course for FREE.

Refunds are granted only if a written cancellation notification is received at least 14 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 7 days before this course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.
This course is intended to give clinicians a practical and logical approach to recognizing, diagnosing and treating various oral and maxillofacial diseases. Predominantly a case-based approach by expert faculty, this course would be particularly useful for general dentists, dental specialists, dental hygienists or assistants, in addition to medical health care professionals involved in the clinical care of patients with head and neck considerations. This course is a great opportunity to brush up your diagnostic skills, gain insight into modern management techniques and principles, or acquire new areas of expertise that can be applied to your clinical practice. This course will address possible legal ramifications from failing to diagnose pathology, such as cancer.

The course reviews principles of both soft and hard tissue lesion identification and management, and covers common odontogenic infections, cysts and tumors, in addition to non-odontogenic conditions such as mucosal and submucosal pathology, skin lesions of the face, salivary gland diseases, and diseases affecting the jaw bones and temporomandibular joint (TMJ). Cases will be drawn from expert faculty and include clinical images and conventional and advanced imaging studies, such as computerized tomography and TMJ tomography. Concepts of clinical and radiographic recognition of benign versus malignant tumors will be addressed. Faculty will also discuss diagnostic principles and techniques as well as their potential applications.

Topics to be covered:
- Update on oral cancer and precancerous lesions of the oral cavity, including clinical diagnosis, risk factors, prevalence, and prevention.
- The recognition of non-odontogenic lesions, and their differentiation from odontogenic lesions both clinically and through radiographic studies. This includes benign and malignant neoplasms of bone and other hard tissues of the craniofacial region.
- The identification of salivary gland pathology, diagnostic workup of the major and minor salivary glands, and interpretation of test results from salivary gland analysis.
- The diagnosis and treatment of facial muscle and TMJ disorders, atypical odontalgia, phantom tooth pain, attrition, erosion, and abrasion.
- The evaluation of the facial skin for dermatoglyphics and skin lesions during a head and neck examination, and an introduction to common skin lesions, particularly cancers affecting the skin of the face.

Upon completion of this course participants should:
- Know how to identify and diagnose oral soft tissue and hard tissue diseases
- Become familiar with principles of differential diagnosis and techniques for definitive diagnosis
- Be able to apply adjunct diagnostic methods for lesion evaluation
- Know how to diagnose pathology affecting the craniofacial and jaw bones
- Understand the role of conventional and advanced imaging studies in hard tissue pathology
- Know how to make radiographic evaluation and interpretation of osseous lesions
- Be able to identify odontogenic infections, cysts and tumors in the jaws
- Know how to differentiate between odontogenic and non-odontogenic lesions
- Recognize the primary and metastatic cancers affecting the craniofacial and jaw bones
- Recognize and evaluate salivary gland disease
- Become familiar with skin pathology affecting the face
- Know the concepts of treatment and management of soft and hard tissue diseases

University of Southern California Ostrow School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
