Bach Le, DDS, MD, FICD

Dr. Le is a Clinical Associate Professor, Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics and Assistant Director, Oral and Maxillofacial Surgery, Herman Ostrow School of Dentistry of USC and USC Medical Center. He is a Diplomate of the American Board of Oral & Maxillofacial Surgeons, the American Dental Society of Anesthesiologists, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the International College of Dentists and the International Association of Oral and Maxillofacial Surgeons. He also maintains a private practice in Whittier, California.

David A. Hochwald, DDS

Dr. Hochwald is a Clinical Professor at the Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics at the Herman Ostrow School of Dentistry of USC. Dr. Hochwald is a Diplomate of the American Board of Oral and Maxillofacial Surgeons, a Fellow in the Academy of Dentistry International, and a Fellow in the International College of Dentists. Dr. Hochwald has extensive experience in preprosthetic and implant surgery, which has been his focus of interest in practice. He is currently in private practice in Bellflower and Huntington Beach, California.

Arthur W. Curley, JD, BS

Mr. Curley is a senior trial attorney in the San Francisco based health care defense firm of Bradley, Curley, Asiano, Barrabee & Gale, PC. After graduating from UC Berkeley with honors in 1970, he obtained his JD in 1974 from the University of California, Hastings School of Law in San Francisco. He is currently an Assistant Professor of Dental Jurisprudence at the Arthur A. Dugoni School of Dentistry in San Francisco. As a trial attorney, he has been defending doctors for over 30 years and has given risk management courses throughout the United States. He is an associate of the American Board of Trial Advocates. Mr. Curley has published several articles on risk management and authored chapters in text books such as Babbush (Implants), Peterson (Oral Surgery), Cohen (Endodontics) and Block (Implants).

Baldwin Marchack, DDS, MBA

Dr. Marchack graduated from the Herman Ostrow School of Dentistry of USC and received his MBA from UCLA. He is currently President of the American Prosthodontic Society, immediate Past-President of the Pacific Coast Society for Prosthodontics, and Past-President of the American Academy of Esthetic Dentistry. He is the Vice-Chair of the Editorial Council for the Journal of Prosthetic Dentistry, and serves on the Board of Councilors of the Herman Ostrow School of Dentistry of USC. He is the author of numerous articles and has presented over 300 lectures nationally and internationally. Dr. Marchack maintains a private practice in Pasadena, California, with an emphasis on aesthetic, restorative and implant dentistry.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

Synopsis

The number of claims related to implant complications has increased significantly over the last few years. In addition, complications associated with implant surgery can have a devastating effect on the final outcome of treatment. This lecture course will focus on how to identify and avoid potential complications before they arise and how to manage many of the common complications that can occur with implant therapy. Emphasis will be given to medico-legal implications, patient risk assessment, classifications of complications, and proper treatment planning principles. At the end of this course, participants will have a better understanding of the prevention and management of complications related to implant therapy.

Testimonials:

“Great. I liked how Dr. Le attempted to simplify very difficult almost seemingly impossible techniques we could use right away in our practice.”

“Thank you, it is a perfect program.”

Upon completion of this course participants will know how to:

• Perform treatment plan effectively to minimize the incidence of future complications
• Perform pre-operative risk assessment
• Manage the most common implant related complications
• Avoid and manage prosthetic complications
• Avoid esthetic complications
• Assess the role implant position plays in restorative complications
• Avoid and minimize risks associated with implant surgery
• Manage complications associated with bone graft procedures and sinus augmentation (graft infection and failure, sinusitis, oral-antral communication, and sinus fistula)
• Manage peri-implantitis
• Manage nerve injury associated with implant surgery
• Manage failed implants and remove implants with minimal bone trauma
• Assess medico-legal implications of treatment failures
• Discuss recent case settlement and outcomes
