★ Life-Long Tradition and Excellence ★
Ziv Simon, DMD, MSc
Dr. Simon is a Diplomate of the American Board of Periodontology and a Fellow of the Royal College of Dentists of Canada. He obtained his dental degree from Tel Aviv University, where he held a teaching position in the department of prosthodontics. He received his periodontal graduate degree from the University of Toronto. He lectures nationally and internationally on esthetic tissue reconstruction and implant dentistry and maintains a private practice limited to periodontics in Beverly Hills, California.

Ilan Rotstein, DDS
Dr. Rotstein is Professor and Chair of the Division of Endodontics, Oral & Maxillofacial Surgery & Orthodontics and Associate Dean of Continuing Education at the Herman Ostrow School of Dentistry of USC. He has been Chair of the Research Committee of the International Federation of Endodontic Associations and past member of the Research and Scientific Affairs Committee of the American Association of Endodontists. Dr. Rotstein published more than 100 papers and textbook chapters in the dental literature and has lectured extensively nationally and internationally in more than 20 countries.

Periodontal disease is a chronically destructive condition affecting many patients. The primary bacterial etiology with several possible local and systemic risk factors account for a rather complex disease entity. It is crucial for clinicians to include periodontal considerations in their treatment planning and in the active phase of therapy. This course is designed to provide clinicians with the most current knowledge on fundamental issues in periodontics. Participants will learn how to diagnose periodontal disease and related conditions and to assess teeth prognosis. The course will also explore several periodontal treatment modalities and their relation to restorative and reconstructive aspects of treatment. State-of-the-art reviews and position statements by the American Academy of Periodontology (AAP) will be included.

The information presented in this course will be clinically-relevant to help participants provide optimal comprehensive care for their patients.

* This course is intended for general dentists, periodontists, prosthodontists, oral surgeons, endodontists, dental hygienists, and other members of the dental team.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
