USC Ruth Ragland 25th Dental Hygiene Symposium
We are pleased to bring you another excellent program. The morning session will be with Dr. Esther Wilkins who will discuss the ever-growing complexity of providing dental hygiene care.

Scientific research has given new technologies, devices, materials, and products for treatment. Using evidence-based information for the standard of practice has become a reality.

Dr. Hessam Nowzari will be presenting a half-day lecture on early-in-life oral infection with the potential to reach epidemic proportions threatening the health of youths around the world. The silent disease is targeting thousands of children and young adults, their smiles and, consequently, their emotional and psychological lives.

The aim of this presentation is to help raise the level of awareness to oral infections. Protecting and restoring the smiles of affected individuals can enhance health and confidence, and diminish anxiety and negative feelings.

### Synopsis

**Morning Lecture - Topics to be covered:**
- The new paradigm: periodontal diseases are inflammatory conditions with significant connections to general body systems and aging.
- Disease diagnosis and care planning are derived using the patient’s risk factors for periodontal infection.
- Complete dental hygiene care planning that involves risk factors for periodontal diseases, dental caries, and oral cancer, with immediate emphasis on early treatment for prevention and patient’s self-responsibility for personal oral health.
- Where basic fundamentals of dental hygiene patient education, instrumentation, and overall treatment hold their place in the application of extended new scientific knowledge and professional ethical responsibilities.

**Afternoon Lecture - Topics to be covered:**
- Negative impact of early-in-life oral infection on the smiles of children around the world.
- Mechanism of tissue destruction.
- Psychological and physical importance of preventing periodontal destruction.
- Treatment modalities.

**Esther Wilkins, BS, RDH, DMD**
Dr. Wilkins graduated from Simmons College, Forsyth School for Dental Hygienists, and completed both Predoctoral and Periodontal Post-Specialty-certificate program at Tufts University School of Dental Medicine, in Boston, Massachusetts. Currently she is a Clinical Professor and teaches Periodontology at Tufts. She has presented many continuing education programs in all 50 states, Canada, and in several foreign countries. She is best known for her textbook *Clinical Practice of the Dental Hygienist*, now in its tenth edition.

**Hessam Nowzari, DDS, PhD**
Dr. Nowzari is a Professor of Clinical Dentistry and the Director of Advanced Periodontics at the Herman Ostrow School of Dentistry of USC. He is a Diplomate of the American Board of Periodontology and holds a PhD in Biology and Health Sciences. He is founder of the Taipei Academy of Reconstructive Dentistry in Taiwan, president of the Pan Pacific Reconstructive Annual Meetings in Taipei, and one of only two American members of the Dniepropetrovsk State Academy of Medical Sciences in Ukraine. Since 2002, Dr. Nowzari has served as one of the selected scientific experts on an international panel charged with assessing and ranking research proposals for the Ministry of Education and Research, section of medical engineering in Italy and was reappointed in 2009. He was elected to the Italian Board of Experts for evaluating medical products for patient safety and health integrity in 2004.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
