Esthetic Full-Mouth Implant Reconstruction Course Series

CAD/CAM Restorations and Computer Guided Technology

Module I - III:  
Friday - Sunday, November 8 - 10, 2013  
9:00am - 5:00pm

Hands-On Workshop

★ Life-Long Tradition and Excellence ★
The use of Computer Aided Design and Computer Aided Manufacturing (CAD/CAM) has been incorporated into different disciplines of dentistry in the last decade. CAD/CAM implant frameworks designed by a technician on a computer and manufactured by a computer-operated facility to a high level of precision offer many benefits to implant dentistry. The use of computer-aided tomography, computer-assisted treatment planning and computer-guided surgery has been available for a variety of applications. Research and experience with this technology allow us to fine tune and understand its applications and limitations better than ever before. In this course, the use of these advanced technologies will be demonstrated and reviewed clinically. Advantages, disadvantages and limitations will be discussed to ensure maximum benefits of computer technology to a successful implant full-mouth reconstruction.

SYNOPSIS

Harel Simon, DMD (Course Director)
Dr. Simon received his DMD degree from Hebrew University, Jerusalem, Israel in 1991. He received his specialty certificate in advanced prosthodontics from UCLA School of Dentistry in 2000. Dr. Simon is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prosthodontics. He has conducted and published research and lectured nationally and internationally on esthetics and implant prosthodontics. He currently serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International. Dr. Simon practices in Beverly Hills, California and is a Clinical Associate Professor at the Ostrow School of Dentistry of USC. Dr. Simon can be reached at hsimon@usc.edu.

Michael Moscovitch, DDS, MS
Dr. Michael Moscovitch received his D.D.S. from McGill University (1976). He completed his Prosthodontic training at Boston University, Henry M. Goldman School of Dental Medicine (CAGS – Prosthodontics, 1978). Presently he is Assistant Clinical Professor, Division of Restorative Sciences at Boston University, and Clinical Instructor at McGill University Residency Program at the Jewish General Hospital in Montreal. He is a member and Past-President of the Association of Prosthodontists of Canada. In addition he holds memberships in numerous dental organizations including: The Association of Prosthodontists of Quebec, The American College of Prosthodontics, The International College of Prosthodontists, The American Academy of Esthetic Dentistry, The Academy of Osseointegration, The European Academy of Osseointegration, Fellow of the Greater New York Academy of Prosthodontics, Fellow of Northeast Gnathological Society (New York) and Fellow of the American College of Dentists. He has lectured and published internationally, actively contributing to dental education. He maintains a private practice in Montreal, Canada limited to Prosthetics and Implant Dentistry.
This course is one of three in the successful series of Esthetic Full-Mouth Implant Reconstruction offering a comprehensive review of this treatment modality. It will expose you to a larger variety of patients with challenging conditions to enrich your experience in this field. You may take each module separately, but we encourage you to take all modules to maximize your learning experience and fully comprehend this treatment modality.

MODULE I & II - Lectures
- CAD/CAM frameworks rationale and design
- Titanium and Zirconia based restorations
- Computer-guided treatment planning for surgery
- Immediate loading
- Tilted implants: avoid grafting, enhance A-P spread
- Fixed implant reconstruction for every patient
- Complications and limitations
- Laboratory techniques and procedures
- Surgical considerations

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Ostrow School of Dentistry of USC does not view the existence of these interests or uses as impairing bias or decreasing the value to participants. The Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

MODULE III - Hands-On Workshop (Limited Attendance)
Passive Fit of Implant Frameworks
Faculty: Dr. Harel Simon, Dr. Joseph Field, Dr. Sheryl Regalado, Take Katayama, CDT
In this unique course, participants will receive edentulous models with implants and full-arch CAD/CAM Ti and Zi frameworks to be evaluated for fit. Different scientifically based methods will be used to evaluate various frameworks and a quick and practical method will be exercised to allow a quantifiable and objective evaluation of a framework for a clinically acceptable passive fit. Mastering this technique simplifies the restorative sequence significantly and enhances the predictability of the treatment.

Complete Course:
- Modules I, II & III (Fri - Sun, Nov 8 - 10, 2013)
  Before Oct 1, 2013: Dentist $1,995; Aux $1,695
  After Oct 1, 2013: Dentist $2,245; Aux $1,845

- Module I: Lecture (Fri, Nov 8, 2013)
  Before Oct 1, 2013: Dentist $295; Aux $225
  After Oct 1, 2013: Dentist $375; Aux $265

- Module II: Lecture (Sat, Nov 9, 2013)
  Before Oct 1, 2013: Dentist $295; Aux $225
  After Oct 1, 2013: Dentist $375; Aux $265

- Module III: Hands-On (Sun, Nov 10, 2013)
  Before Oct 1, 2013: $1,875
  After Oct 1, 2013: $1,995

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before this course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.
