From Treatment Planning to Fixed Restoration

Herman Ostrow School of Dentistry of USC

Module I: Friday, March 18, 2011 8:00am - 4:00pm
Module II: Saturday, March 19, 2011 9:00am - 5:00pm
Module III: Sunday, March 20, 2011 9:00am - 5:00pm

Hands-On Workshop
This course is recommended for:

- Restorative dentists, prosthodontists, periodontists and oral surgeons who would like to be exposed to state-of-the-art esthetic fixed implant reconstruction of the edentulous patient.
- Laboratory technicians, dental assistants and treatment coordinators who would like to learn about this treatment modality, to be able to present this option to patients and collaborate as part of the dental implant team.

### Topics to be Covered

- Diagnostic tools such as flawless record base, wax-up, setup, intraoral mock-up and radiographic template.
- Esthetic pontics: horizontally submerged & fused pontic designs.
- Gingiva-colored ceramics design and technique.
- Provisionalization: fixed or removable?
- Transitional implants to support provisional restorations.
- The conversion prosthesis as a treatment philosophy.
- Communication with the surgeon, laboratory and patient to obtain predictable results.
- Laboratory techniques and procedures.
- Surgical considerations.

### Module I - Lecture

From Overdentures to Full-Mouth Fixed

- Fundamental treatment options for the edentulous patient.
- Comprehensive diagnosis and treatment planning.
- Individual attachments vs. bar overdentures.
- Implant supported vs. implant-tissue supported overdentures.
- Esthetic metal-resin and metal-ceramic fixed implant reconstruction.
- Practical and time-saving tips for full-mouth reconstruction.

### Module II - Lecture

Fixed Prostheses Designs and Treatment Planning

- Simplicity in design: from one-piece complete arch to segmented design.
- From screw retained to custom abutments and telescopic copings.
- Esthetic full-mouth implant reconstruction in one visit?
- Fixed implant reconstruction of patients with severely resorbed ridges and lack of lip support.
- Surgical reconstruction to recreate lip support.
- Management of complications.

### Module III - Hands-On Workshop

Conversion of Complete Dentures to Fixed Implant Restorations in One Clinical Visit

Faculty: Harel Simon, DMD; Joseph Field, DDS; Sheryl Regalado, DMD; Take Katayama, CDT; Gordon Russell, RDT

In this unique and exclusive course, participants will receive models of completely edentulous arches with implants and corresponding complete dentures. Each participant will convert a complete denture to a fixed implant supported provisional restoration.

This technique is the core philosophy for a simplified approach for implant reconstruction. Mastering this technique simplifies the restorative sequence significantly and enhances the predictability of the treatment from an esthetic and functional point of view.

Upon completion, participants will receive these models for patient education and demonstration of full-mouth implant reconstruction.

### Faculty

**Harel Simon, DMD**

Dr. Simon received his DMD degree from the Hebrew University, Jerusalem, Israel in 1991. He received his specialty certificate in advanced prosthodontics from UCLA, School of Dentistry in 2000. Dr. Simon is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prosthodontists. He has conducted research, published and lectured nationally and internationally on esthetics and implant prosthodontics. He currently serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International. Dr. Simon practices in Beverly Hills, California and is a Clinical Associate Professor at Herman Ostrow School of Dentistry of USC. Dr. Simon can be reached at hsimon@usc.edu.

### Synopsis

This course is one of the successful series of Esthetic Full-Mouth Implant Reconstruction offering a comprehensive review of this treatment modality. It will expose you to treatment planning and sequencing in a step-by-step approach to develop your knowledge on this field. You may take each module separately, but we encourage you to take all modules to maximize your learning experience and fully comprehend this treatment modality.

### Registration Fees

| Module I: Lecture (Friday, March 18, 2011) | Before February 15, 2011: Dentist $1,945; Auxiliary $1,595 | After February 15, 2011: Dentist $2,145; Auxiliary $1,795 |
| Module II: Lecture (Saturday, March 19, 2011) | Before February 15, 2011: Dentist $275; Auxiliary $175 | After February 15, 2011: Dentist $325; Auxiliary $215 |

*Includes free implant reconstruction model - a $595 value*

### Fees

Fees include course material, continental breakfast and refreshments during breaks.
This course is recommended for:

- Restorative dentists, prosthodontists, periodontists, and oral surgeons who would like to be exposed to state-of-the-art aesthetic implant reconstruction of the edentulous patient.
- Laboratory technicians, dental assistants, and treatment coordinators who would like to learn about this treatment modality, to be able to present this option to patients and collaborate as part of the dental implant team.

This course is one of three in the successful series of Esthetic Full-Mouth Implant Reconstruction offering a comprehensive review of this treatment modality. It will expose you to treatment planning and sequencing in a step by step approach to develop your knowledge in this field. You may take each module separately, but we encourage you to take all modules to maximize your learning experience and fully comprehend this treatment modality.

MODULE I - Lecture
From Overdentures to Full-Mouth Fixed
- Fundamental treatment options for the edentulous patient.
- Comprehensive diagnosis and treatment planning.
- Individual attachments vs. bar overdentures.
- Implant supported vs. implant-tissue supported overdentures.
- Esthetic metal-resin and metal-ceramic fixed implant reconstruction.
- Practical and time saving tips for full-mouth reconstruction.

MODULE II - Lecture
Fixed Prostheses Designs and Treatment Planning
- Simplicity in design: from one-piece complete arch to segmented design.
- From screw retained to custom abutments and telescopic crowns.
- Esthetic full-mouth implant reconstruction in one visit?
- Fixed implant reconstruction of patients with severely resected ridges and lack of lip support.
- Surgical reconstruction to recreate lip support.
- Management of complications.

MODULE III - Hands-On Workshop (Limited Attendance)
Conversion of Complete Dentures to Fixed Implant Restorations in One Clinical Visit
Faculty: Harel Simon, DMD; Joseph Feld, DDS; Sheryl Regalado, DMD; Take Katahara, CDT; Gordon Russell, RDT
This unique and exclusive course, participants will receive models of completely edentulous arches with implants and corresponding complete dentures. Each participant will convert a complete denture to a fixed implant supported provisional restoration.

This technique is the core philosophy for a simplified approach for implant reconstruction. Mastering this technique simplifies the treatment sequence significantly and enhances the predictability of the treatment from an aesthetic and functional point of view.
Upon completion, participants will receive these models for patient education and demonstration of full-mouth implant reconstruction.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% refund will be given if the refund is requested after 21 days. No refund will be given if the course occurs within 14 days before the course. No refund is granted afterwars. A $75 fee is withheld for processing. For additional registrations, access this form and send.

Registration Fees (Please Check Boxes)

- Before February 15, 2011: Dentist $275; Auxiliary $175
- After February 15, 2011: Dentist $325; Auxiliary $215

- Before February 15, 2011: Module I: Lecture (Friday, March 18, 2011)
- After February 15, 2011: Dentist $325; Auxiliary $215

- Before February 15, 2011: Module II: Lecture (Saturday, March 19, 2011)
- After February 15, 2011: Dentist $325; Auxiliary $215

- Includes free implant reconstruction model - a $595 value
- Includes free implant reconstruction model - a $595 value

- Before February 15, 2011: Dentist $1,945; Auxiliary $1,595
- After February 15, 2011: Dentist $2,145; Auxiliary $1,795

□ Complete Course: Modules I, II & III (Friday - Sunday, March 18 - 20, 2011)
- Before February 15, 2011: Dentist $1,945; Auxiliary $1,595
- After February 15, 2011: Dentist $2,145; Auxiliary $1,795

□ Module I: Lecture (Friday, March 18, 2011)
- Before February 15, 2011: Dentist $275; Auxiliary $175
- After February 15, 2011: Dentist $325; Auxiliary $215

□ Module II: Lecture (Saturday, March 19, 2011)
- Before February 15, 2011: Dentist $275; Auxiliary $175
- After February 15, 2011: Dentist $325; Auxiliary $215

□ Module III: Hands-On (Sunday, March 20, 2011)
- Includes free implant reconstruction model - a $595 value
- Includes free implant reconstruction model - a $595 value
- After February 15, 2011: $1,945
- After February 15, 2011: $1,945

□ 7 Continuing Education Units Per Day

Harel Simon, DMD
