Esthetic Full-Mouth Implant Reconstruction Course Series

From Treatment Planning to Fixed Restoration

Hands-On Workshop

Module I - III:
Friday - Sunday, March 20 - 22, 2015
9:00 am - 5:00 pm

★ Life-Long Tradition and Excellence ★
Restoring the edentulous patient with an aesthetic reconstruction may present numerous challenges to the clinician. The patient’s occlusal vertical dimension, centric relation, esthetics and phonetics need to be determined and maintained throughout the restorative process. With the advent of dental implants, there are various treatment options available today to address the patient’s esthetic and functional needs.

This course will discuss diagnosis and treatment planning for fixed implant supported reconstruction. A variety of treatment options and prosthesis designs will be introduced and the treatment sequence will be reviewed in a step-by-step simplified approach to provide a predictable outcome with esthetic implant reconstruction.

### SYNOPSIS

**MODULE I - Lecture**

- From Overdentures to Full-Mouth Fixed
  - Fundamental treatment options for the edentulous patient.
  - Comprehensive diagnosis and treatment planning.
  - Individual attachments vs. bar overdentures.
  - Implant supported vs. implant-tissue supported overdentures.
  - Esthetic metal-resin and metal-ceramic fixed implant reconstruction.
  - Practical and time saving tips for full-mouth reconstruction.

**MODULE II - Lecture**

- Fixed Prostheses Designs and Treatment Planning
  - Simplicity in design: from one-piece complete arch to segmented design.
  - From screw retained to custom abutments and telescopic copings.
  - Esthetic full-mouth implant reconstruction in one visit?
  - Fixed implant reconstruction of patients with severely resorbed ridges and lack of lip support.
  - Surgical reconstruction to recreate lip support.
  - Management of complications.

**MODULE III - Hands-On Workshop (Limited Attendance)**

Conversion of Complete Dentures to Fixed Implant Restorations in One Clinical Visit

Faculty: Harel Simon, DMD; Joseph Field, DDS; Sheryl Regalado, DMD; Take Katayama, CDT

In this unique and exclusive course, participants will receive models of completely edentulous arches with implants and corresponding complete dentures. Each participant will convert a complete denture to a fixed implant supported provisional restoration. This technique is the core philosophy for a simplified approach for implant reconstruction. Mastering this technique simplifies the restorative sequence significantly and enhances the predictability of the treatment from an esthetic and functional point of view.

Upon completion, participants will receive these models for patient education and demonstration of full-mouth implant reconstruction.
Fees include course material, continental breakfast and refreshments during breaks.

Harel Simon, DMD (Course Director)
Dr. Simon received his DMD degree from Hebrew University, Jerusalem, Israel in 1991. He received his specialty certificate in advanced prosthodontics from UCLA School of Dentistry in 2000. Dr. Simon is an active member of various professional organizations including the American College of Prosthodontists, the Academy of Osseointegration and the Pacific Coast Society of Prosthodontics. He has conducted and published research and lectured nationally and internationally on esthetics and implant prosthodontics. He currently serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International. Dr. Simon practices in Beverly Hills, California and is a Clinical Associate Professor at the Herman Ostrow School of Dentistry of USC. Dr. Simon can be reached at hsimon@usc.edu.

This course is one of three in the successful series of Esthetic Full-Mouth Implant Reconstruction offering a comprehensive review of this treatment modality. It will expose you to a larger variety of patients with challenging conditions to enrich your experience in this field. You may take each module separately, but we encourage you to take all modules to maximize your learning experience and fully comprehend this treatment modality.

Registration Fees (Please Check Boxes)

Complete Course:
- Modules I, II & III (Fri - Sun, Mar 20 - 22, 2015)
  Before Feb 15, 2015: Dentist $1,995; Aux $1,695
  After Feb 15, 2015: Dentist $2,245; Aux $1,910

- Module I: Lecture (Fri, March 20, 2015)
  Before Feb 15, 2015: Dentist $295; Aux $250
  After Feb 15, 2015: Dentist $375; Aux $320

- Module II: Lecture (Sat, March 21, 2015)
  Before Feb 15, 2015: Dentist $295; Aux $250
  After Feb 15, 2015: Dentist $375; Aux $320

- Module III: Hands-On (Sun, March 22, 2015)
  Before Feb 15, 2015: $1,875
  After Feb 15, 2015: $1,995

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before this course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.
