Extraction Site Management: 
From A to Z 
Lecture & Hands-On 
Human Cadaver Workshop 

Ostrow School of Dentistry of USC 
Saturday, May 3, 2014 
Module IA - Lecture: 
8:00 a.m. - 1:00 p.m. 
Module IB - Cadaver Workshop: 
2:00 p.m. - 5:00 p.m. 

★ Life-Long Tradition and Excellence ★
Implant site preservation and development is the concept of maintaining the volume and architecture of both the soft and hard tissues. It is critical to minimize tissue loss during extraction to conserve the natural tissue architecture for future implant placement. Tissues should be preserved and maintained in their original forms as much as possible from the time of tooth extraction to the placement of restoration. This concept is crucial to ensure tissue healing, patient comfort, esthetics and functionality of the final implant restoration. This course will highlight several techniques that facilitate a more esthetic, functional and predictable result in implant dentistry, starting with extraction. Discussion will focus on some of the most commonly asked questions in implant dentistry, such as should grafting be performed after tooth extraction? Which is the best graft material to use? What type of interim provisional restorations to use in order to minimize tissue loss? What decisions should be made regarding immediate implant placement versus delayed implant placement. This course is designed for the novice and advanced clinician and is the first in our series on implant site development and bone grafting. The hands-on portion will focus on minimally invasive extraction and grafting techniques and participants will practice on human cadavers.
Upon completion of this course, participants should be able to:

- Know the minimally invasive tooth removal techniques and instrumentation
  - Remove broken and difficult teeth with minimal flap
  - Various incision and flap designs for optimal end results
- To describe the role of socket grafting
  - Literature and indications for grafting
  - What to look for in choosing a graft material
  - Technique
- Know how to evaluate histomorphometric analysis of different graft materials
- Know the management of extraction sites with facial bony defects - “socket repair”
- Know how to manage the post-extraction site in order to minimize hard and soft tissue loss
- Understand the concept of Bone-driven Tissue Regeneration (BTR) and Bone-driven Tissue Transformation (BTT)
- Know the pros and cons of immediate versus delayed implant placement
- To describe minimally invasive bone grafting techniques for the compromised implant site development

Testimonials

“Nicely done!”

“Great. I liked how Dr. Le attempted to simplify very difficult almost seemingly impossible techniques we could use right away in our practice.”

“Excellent course and content. Learned a ton, thanks!!”

Upcoming Course with Dr. Le

MASTERING BONE GRAFTING FOR ESTHETIC IMPLANT SITE DEVELOPMENT - LECTURE & HANDS-ON WORKSHOP
Module I: Saturday, March 29, 2014
Module II: Sunday, March 30, 2014

2014 LAS VEGAS TRAVEL & LEARN PROGRAM
Cosmopolitan Hotel of Las Vegas
Saturday - Sunday, July 13 -14, 2014

THE SECRETS OF GUIDED BONE REGENERATION IN IMPLANT DENTISTRY: HANDS-ON WORKSHOP
Saturday, September 27, 2014

FOCUS ON THE MAXILLARY SINUS: LECTURE & CADAVER HANDS-ON WORKSHOP
Saturday, December 13, 2014

We are on Facebook now! Find us at http://www.facebook.com/USCDentalCE and Like Us for up-to-date information.

3 + 1 Free CE Program

Take any 3 CE courses between January and December 2014 and receive another course for FREE.

Mastering Bone Grafting For Esthetic Implant Site Development
(please complete details, cut or xerox page and send. Online registration at www.uscdentalce.org)

Registration Fees
Before April 15, 2014
☐ Module IA (May 3, 2014 am):
Dentist: $345   Auxiliary: $245
☐ Module IA & IB* (May 3, 2014):
Dentist: $995   Auxiliary: $745
After April 15, 2014
☐ Module IA (May 3, 2014 am):
Dentist: $395   Auxiliary: $295
☐ Module IA & IB (May 3, 2014):
Dentist: $1,195   Auxiliary: $895

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.
