★ Life-Long Tradition and Excellence ★
SPEAKERS

Peter Stone, DDS
Dr. Stone is Clinical Associate Professor, Ostrow School of Dentistry of USC and the course director for the Hypnosis Externship in the Undergraduate DDS Program, and has taught in the Section of Behavioral Dentistry. He has taught the techniques and dental applications of hypnosis since 1981 for the Southern California Society of Clinical Hypnosis (SCSCH). Dr. Stone has been on the Board of Directors of SCSCH for thirty years, serving as President in 1991 and 2008. He was an “Approved Consultant in Clinical Hypnosis” for the American Society of Clinical Hypnosis until year 2000. Dr. Stone has practiced in Beverly Hills for more than forty years.

Ronald M. Kaminishi, DDS
Dr. Kaminishi received his dental degree from Northwestern University School of Dentistry in 1968 and completed his oral and maxillofacial surgery residency at the University of California at San Francisco. He has been in private practice and clinical research since 1974 in Bellflower and Huntington Beach, California. Dr. Kaminishi is a Clinical Associate Professor at the Ostrow School of Dentistry of USC and an Assistant Clinical Professor at Loma Linda University and at the University of California Irvine School of Medicine and is on the Board of Directors of the Southern California Society of Clinical Hypnosis and a member of the American Society of Clinical Hypnosis. Dr. Kaminishi is a Diplomate of the American Board of Oral and Maxillofacial Surgery and a Fellow in the American Dental Society of Anesthesiology, the American College of Dentists, the International College of Dentists, and the Pierre Fauchard Academy. He is a Life Fellow in the International Association of Oral Surgeons and a Diplomate of the American Board of Orofacial Pain.

SYNOPSIS

Dental applications of hypnosis include relaxation; relief of fears and anxieties; reduction of perception and severity of pain during and after procedures; control of bleeding and salivation (increasing and decreasing); maintenance of position for lengthy procedures (catalepsy); heightening patient motivation, control of gagging, adjustment to new prostheses; control of bruxism and other habits; and promotion of oral hygiene. This workshop course offers supervised practical experience aimed to assist modern dentists to comfortably use hypnosis in their dental practice. Introductory lectures will be followed by demonstrations and videos of the subjects discussed. Each participant will have the opportunity to practice newly learned skills under supervision.

Topics To Be Discussed:
- Use of hypnosis in dentistry
- Inducing, deepening and alerting from a trance
- Phenomena of hypnosis
- Myths and misconceptions
- Ethics and legal issues
- Resistance to hypnosis
- Self-hypnosis
- Waking hypnosis
- Therapeutic and post-hypnotic suggestions
- Amnesia and recall
- Time distortion
- Patient education
- Imagery
- Ego-strengthening

Upon Completion of the Course Participants Should Be Able To:
- Understand and give appropriate hypnotic and post-hypnotic suggestions
- Demonstrate rapid inductions
- Know how to produce analgesia
- Perform trance-deepening
- Use hypnosis for dental applications

REGISTRATION FEES

Before March 1, 2013
Dentist: $595

After March 1, 2013
Dentist: $695
