Upcoming Courses

LEARNING IMPLANT DENTISTRY FOR THE RESTORATIVE DENTIST
Saturday, May 3, 2014

EXTRACTION SITE MANAGEMENT: FROM A TO Z
(Module Ia and Ib) Saturday, May 3, 2014

PHYSICAL EVALUATION
Monday, May 5, 2014

EMERGENCY MEDICINE
Thursday, May 6, 2014

PHARMACOLOGY
Wednesday, May 7, 2014

MONITORING & SIM-MAN
Thursday, May 8, 2014

ADVANCED RESTORATIVE OPTIONS WITH DENTAL IMPLANTS FOR FULLY EDENTULOUS ARCHES
Part I - Lecture: Friday, May 9, 2014
Part II - Lecture, Demonstration and Hands-On: Saturday, May 10, 2014

COMPREHENSIVE PERIODONTAL SURGERY: ESTHETIC AND FUNCTIONAL PROCEDURES FOR THE GENERAL PRACTITIONER
Pre-Course Review: Thursday, May 29, 2014
Module I - Lecture & Workshop: Friday, May 30, 2014
Module II - Lecture & Workshop: Saturday, May 31, 2014
Module III - Lecture & Workshop: Sunday, June 1, 2014

ENDODONTICS FROM A TO Z: HANDS-ON WORKSHOP FOR THE GENERAL PRACTITIONER
Friday - Sunday, June 13 - 15, 2014
Friday - Sunday, June 20 - 22, 2014

TEMPOROMANDIBULAR DISORDERS, ARTHROCENTESIS AND BOTOX/TRIGGER POINT INJECTIONS
Friday - Saturday, June 20 - 21, 2014

CLINICAL INTRAVENOUS SEDATION
Part I: Friday - Sunday, July 11 - 13, 2014
Part II: Friday - Sunday, July 18 - 20, 2014

NAMES OF OTHER ENROLLEES

24 Hours of Continuing Education

Registration Fees
Before May 15, 2014
Dentist: $2,995
Auxiliary: $1,595

After May 15, 2014
Dentist: $3,295
Auxiliary: $1,795

Fees include course material, continental breakfast, lunch, and refreshments during breaks.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2014 and receive another course for FREE.

Life-Long Tradition and Excellence

ADVANCED SOFT TISSUE AND BONE GRAFTING WITH CADAVER WORKSHOP

Ostrow School of Dentistry of USC
Friday - Sunday, June 13 - 15, 2014
8:00 am - 5:00 pm / 8:00 am - 6:00 pm

Lectures
Hand-On Workshop
Live Sinus Augmentation, Implant Placement and Soft Tissue Graft Surgeries

Ostrow School of Dentistry of USC
Office of Continuing Education
925 W. 34th Street, Room 201J
Los Angeles, CA 90089-0641
Phone: 213.821.2127

Life-Long Tradition and Excellence
Hands-on model and cadaver workshop:
- Lateral window and crestal osteotomy sinus augmentation
- Donor graft harvesting from ramus and symphysis
- Recipient site preparation and block graft fixation
- Bone morphogenetic protein (rhBMP-2) techniques
- Flap and tunnel access design
- Soft tissue augmentation around implants (VISTA)
- Socket preservation and augmentation
- Piezosurgery techniques
- Guided bone regeneration (GBR)

Live surgery demonstration:
- Lateral window and crestal osteotomy sinus augmentation
- Implant placement
- Vestibular Incision Subperiosteal Tunnel Access (VISTA) for soft tissue augmentation

“This course met my expectations and I will recommend this to my colleagues. Dr. Zadeh went above and beyond what I expected. All the speakers gave pertinent and useful information.”
- Jeffrey Hoy, Torrance, CA

**Topics to be discussed:**
- Selection and sequencing of implant site development techniques
- Sinus augmentation rationale and techniques
- Piezosurgery techniques
- Horizontal ridge augmentation
- Vertical ridge augmentation
- Distraction Osteogenesis
- Ridge splitting and expansion
- Mandibular block auto-grafting
- Onlay block grafts: rationale and techniques
- Recipient site preparation and block graft fixation
- Bone morphogenetic protein (rhBMP-2) and PDGF applications
- Soft tissue augmentation around implants
- VISTA for ridge augmentation in the esthetic zone
- Immediate loading
- Diagnostic tools: CT and cone beam imaging, interactive imaging and scan prosthetics
- Computer-assisted implant positioning
- Minimally invasive tooth extraction
- Socket preservation and augmentation
- Immediate vs. staged implant placement
- Minimally invasive implant placement
- Immediate vs. delayed implant loading
- Laboratory techniques and procedures

**Speakers**

**Homayoun H. Zadeh, DDS, PhD (Course Director)**
Associate Professor, Ostrow School of Dentistry of USC. Dr. Zadeh is a graduate of the Ostrow School of Dentistry. He completed the advanced clinical education in Periodontology and earned his PhD degree in Immunology from the University of Connecticut. He is a Diplomate of the American Board of Periodontology. He serves as the editorial reviewer for several scientific journals, and chairs a Scientific Study Section of NIH. Dr. Zadeh also leads a research team, funded by the NIH. His clinical research interests involve studies on minimally-invasive surgery and tissue engineering. He is Director of USC International Periodontal and Implant Symposium and maintains a part-time private practice limited to Periodontology and Implants in Southern California.

**Stephen Wallace, DDS**
Dr. Wallace is a graduate of Boston University School of Graduate Dentistry with a certificate in Periodontics. He is Associate Professor at the New York University Department of Implant Dentistry and a Diplomat of the International Congress of Oral Implantology and a Fellow of the Academy of Osseointegration. He lectures in the United States and abroad on dental implantology and periodontics. He is the author of journal articles and textbook chapters on implantology and co-editor of sinus elevation textbook released in Italy. Dr. Wallace maintains a private practice limited to Periodontics in Waterbury, CT.

**This course is recommended for:**
- Surgical specialists and restorative dentists who would like to acquire a more in-depth and comprehensive understanding, as well as practical skills to achieve predictable treatment outcome in the esthetic zone
- Allied professionals (laboratory technicians, dental hygienists and dental assistants) who participate as members of the implant therapy team and would like to be more effective in their functions by enhancing their fundamental and practical knowledge

**Synopsis**

The success of dental implants depends on their placement in bone of adequate density and volume in order to achieve primary stability. However, usually there is at least some degree of atrophy in most implant sites due to post-extraction remodeling or because of pathologic conditions. There has been a gradual shift in paradigm from merely achieving successful osseointegration to achieving final restorative outcomes that mimic natural dentition and the surrounding oral tissues. These objectives have been materialized by advancements in surgical techniques, as well as availability of biomaterials to enable predictable regeneration of oral hard and soft tissues. This course consists of two modules. The first module consists of two and half days of lecture, hands-on model workshop and live surgery. The second module is a half-day cadaver workshop.

**Sponsors**

University of Southern California Ostrow School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.
