Registration Fees
Before November 10, 2013
Dentist: $1,495
Auxiliary: $795
After November 10, 2013
Dentist: $1,695
Auxiliary: $895

Fees include course material, continental breakfast, lunch, and refreshments during breaks.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $70 fee is withheld for processing. For additional registrations, xerox this form and send.

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2013 and receive another course for FREE.

Upcoming Courses

THE USC 6TH INTERNATIONAL RESTORATIVE DENTISTRY SYMPOSIUM
Friday - Saturday, October 4 - 5, 2013

THE USC 6TH GERIATRIC DENTISTRY SYMPOSIUM
Friday - Saturday, October 18 - 19, 2013

COMPREHENSIVE PERIODONTAL SURGERY: ESTHETIC AND FUNCTIONAL PROCEDURES FOR THE GENERAL PRACTITIONER
Pre-Course Review Lecture: Thursday, October 24, 2013
Module I (Lecture & Hands-On): Friday, October 25, 2013
Module II (Lecture & Hands-On): Saturday, October 26, 2013
Module III (Lecture & Hands-On): Sunday, October 27, 2013

PEDIATRIC ORAL SEDATION CERTIFICATION PROGRAM
Wednesday - Sunday, November 6 - 10, 2013

ESTHETIC FULL-MOUTH IMPLANT RECONSTRUCTION: CAD/CAM RESTORATIONS AND COMPUTER GUIDED TECHNOLOGY
Module I (Lecture): Friday, November 8, 2013
Module II (Lecture): Saturday, November 9, 2013
Module III (Hands-On): Sunday, November 10, 2013

SUPRA-GINGIVAL DENTISTRY WORKSHOP: EASY, PREDICTABLE PORCELAIN VENEERS, ONLAYS AND FULL CROWNS
Friday - Saturday, November 15 - 16, 2013

THE USC 12TH INTERNATIONAL ENDOodontic SYMPOSIUM
Friday - Saturday, November 22 - 23, 2013

A CONTEMPORARY APPROACH TO DIAGNOSIS, TREATMENT PLANNING AND THERAPY IN PERIODONTICS
Friday, December 13, 2013

Ostrow School of Dentistry of USC is an ADA CERP recognized provider.
Homayoun H. Zadeh, DDS, PhD
Dr. Zadeh is not only a graduate of Ostrow School of Dentistry of USC, but also Associate Professor and Director of the Graduate Prosthodontalogy program, and Director of USC International Periodontal & Implant Symposium. Dr. Zadeh is a graduate of the Ostrow School of Dentistry. He completed the advanced clinical education in Periodontology and earned his PhD degree in Immunology from the University of Connecticut. He is a Diplomate of the American Board of Periodontology. His clinical research interests involve studies on minimally-invasive surgery and tissue engineering. He maintains a part-time private practice limited to Periodontology and Implants in Southern California.

Lyndon F. Cooper, DDS, PhD
Dr. Cooper is the Stallings Distinguished Professor of Dentistry of the Department of Prosthodontics at the University of North Carolina at Chapel Hill. He is currently Chairperson, Director of Graduate Prosthodontics and the Director of the Bone Biology and Implant Therapy Laboratory. Dr. Cooper is a Diplomate of the American Board of Prosthodontics and serves as the President of the American College of Prosthodontics. He received the 2004 Clinician/Researcher Award by the ACP. Dr. Cooper’s laboratory focuses on bone biology, adult stem cell bone regeneration, and clinical evaluation of dental implant therapies. The laboratory receives funding through NIH and by industry collaboration and its research findings have been presented in over 70 publications and in more than 200 national and international presentations.

According to CDC data, approximately one-third of Americans over the age 65 are edentulous and their number is projected to increase over the next twenty years. Implant-supported prostheses have been documented to improve the quality of life of patients and are gaining acceptance as the standard of care. A variety of treatment options exist for edentulous patients. Implant-supported prostheses can solve many of the problems experienced by patients with complete dentures. This intense 2-day course brings together surgical and prosthodontic experts for a systematic presentation of therapeutic options for edentulous patients. The format of this course follows lecture, hands-on workshop and live surgery demonstration.

Topics to be discussed:
Diagnosis and treatment planning
- Diagnostic tools: radiographs, CT scan, cone beam, interactive imaging
- Treatment planning and case selection:
  - Implant-supported overdenture vs. fixed restoration
  - Bar-clasp vs. male-female solitary attachments for overdentures
  - Screw-retained vs. cemented fixed restoration
- Surgical guides: lab fabricated and computer-generated surgical guides

Implant prosthetics
- Implant prosthetic considerations
- Occlusion and stress distribution for overdentures and fixed restorations
- Prosthetic space requirement for overdenture or fixed restoration components
- Overdenture attachment selection: bar-clasp, solitary attachments
- Conversion of existing denture into implant-supported overdenture
- Denture border molding

Surgical placement of implants
- Surgical considerations and treatment planning
- Anatomic and skeletal considerations for overdenture vs. fixed restoration
- Loading protocol

Laboratory techniques and procedure
Hands-on workshop
- Participants will place implants in edentulous models and restore with overdenture

Live surgery demonstration
- Participants will observe implant placement and restoration with overdenture on a live patient

Who will benefit from attending this course?
This course is appropriate for any clinician who is interested in gaining a comprehensive training in implant dentistry, such as:
- Both novice and experienced clinicians
- Surgical specialists who would like to acquire a more in-depth understanding of implant restoration
- Restorative dentists who would like to acquire a more in-depth understanding of implant surgery
- Allied health professionals (laboratory technicians, dental hygienists, and dental assistants)

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
