Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

Upcoming Courses

CHRONIC OROFACIAL, ORODENTAL AND HEADACHE PAINS FOR THE DENTIST
Friday - Saturday, January 31 - February 1, 2014

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, February 1, 2014

IMPLANT CPR! SUCCESSFUL MANAGEMENT OF PROSTHETIC IMPLANT COMPLICATIONS
Module I - Lecture: Friday, February 7, 2014
Module II - Hands-On Workshop: Saturday, February 8, 2014

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, February 8, 2014

MASTERING MOLAR ENDODONTICS
Friday - Saturday, February 21 - 22, 2014

PORCELAIN VENEERS: OPTIMIZING RESULTS USING SUPRA-GINGIVAL PRINCIPLES, AND UNDERSTANDING ADHESION AND OCCLUSION
Friday, February 28, 2014

IMPLANT THERAPY IN THE ESTHETIC ZONE
Friday, February 28 - March 2, 2014

SURGICAL PERIODONTAL PERSPECTIVES ON IMPLANT TREATMENT PLANNING
Friday, March 7, 2014

USC RUTH RAGLAND 28TH DENTAL HYGIENE SYMPOSIUM
Saturday, March 8, 2014

FUNDAMENTAL PRINCIPLES OF RESTORATIVE IMPLANT DENTISTRY FOR THE SINGLE MISSING TOOTH
Part I - Lecture: Friday, March 14, 2014
Part II - Hands-On: Saturday, March 15, 2014

LAS VEGAS TRAVEL & LEARN PROGRAM: PERIODONTAL SURGERY AND SUTURING TECHNIQUES FOR THE GENERAL PRACTITIONER - A HANDS-ON COURSE
The Cosmopolitan of Las Vegas, NV
Saturday, March 15, 2014

3 + 1 Free CE Program
The More You Learn, The More You Earn!

Take any 3 CE courses between January and December 2014 and receive another course for FREE.

** Life-Long Tradition and Excellence **

Friday, April 5, 2013, 8:00 a.m. - 5:00 p.m.
Saturday, April 6, 2013, 8:00 a.m. - 4:00 p.m.
Sunday, April 7, 2013, 8:00 a.m. - 1:00 p.m.
**Speakers**

Homayoun H. Zadeh, DDS, PhD  
*(Course Director)*
Associate Professor, Ostrow School of Dentistry of USC. Dr. Zadeh is a graduate of the Ostrow School of Dentistry. He completed the advanced clinical education in Periodontology and earned his PhD degree in Immunology from the University of Connecticut. He is a Diplomat of the American Board of Periodontology. He serves as the editorial reviewer for several scientific journals, and chairs a Scientific Study Section of NIH. Dr. Zadeh also leads a research team, funded by the NIH. His clinical research interests involve studies on minimally-invasive surgery and tissue engineering. He is Director of USC International Periodontal and Implant Symposium and maintains a part-time private practice limited to Periodontology and Implants in Southern California.

Alexandre-Amir Aalam, DDS  
Dr. Aalam graduated with a DDS degree from the University of Nice Sophia Antipolis, Nice (France). He subsequently specialized in Advanced Periodontics at the University of Southern California, Los Angeles. Dr. Aalam is a Diplomat of the American Board of Periodontology and a Diplomat of the American Board of Oral Implantology. The French Society and the California Society of Periodontology awarded Dr. Aalam for his contribution to clinical research in the field of implant dentistry. Dr. Aalam is a Clinical Assistant Professor of dentistry at USC. In 2012, Dr. Aalam was appointed as the USC dental school representative on the Board of Governors. He maintains a private practice in Brentwood CA, limited to Periodontics and Reconstructive Implant Dentistry. Dr. Aalam lectures and publishes in the field of dental implants and site development procedures.

**Synopsis**

A variety of clinical scenarios may present themselves, requiring complex prosthetic restoration. A key to success is careful planning and simplification of therapy, based on sound principles. A wide array of restorative options are available today. Selection of the appropriate prosthesis requires consideration of the patient's anatomy; quantity and quality of available hard and soft tissues; the need for augmentation surgery; esthetic requirements; occlusal scheme; and the patient's desires. The objective of this course is to review the fundamentals for prosthetic restoration of implants in patients. An evidence-based approach will be used to provide treatment options with a high degree of predictability. Practical solutions to common prosthetic problems will be provided.

**This course is recommended for:**

- Clinicians interested in gaining practical surgical experience with bone and soft tissue augmentation techniques necessary for management of implant patients.
- Allied professionals (dental assistants hygienists and dental hygienists) who participate as members of the implant therapy team and would like to be more effective in their functions by enhancing their fundamental and practical knowledge.

**Topics to be discussed:**

- Prosthetic options for complex cases
- Treatment of fully-edentulous maxilla and mandible
- Treatment of compromised dentition requiring full-arch extraction
- Decision-tree for selection of fixed versus removable restoration
- Immediate and early loading
- Diagnostic tools: CT imaging, surgical guides
- Computer-assisted planning and implant positioning
- Immediate implant placement vs. staged implant placement
- Assessment of need and sequencing of implant site development techniques
- Implant impression techniques
- Screw-retained vs. cement-retained restorations
- Application of CAD/CAM in abutment and restoration fabrication
- Abutment selection guidelines
- Occlusal considerations and guidelines
- Provisional options and techniques
- Prosthetic complication and their management
- Dental materials used in implant restoration
- Laboratory techniques and procedures

**Hands-On Model Workshop**

- Implant placement for full-arch case
- Implant-level impression
- Fabrication of full-arch immediate load fixed prosthesis

**Live Surgery Demonstration**

- Implant placement for full-arch case
- Implant-level impression
- Fabrication of full-arch immediate load fixed prosthesis

* This course is suitable for clinicians with intermediate or advanced experience in implant dentistry.

**Corporate Sponsors**
