The Cosmopolitan is the most original destination in the heart of The Las Vegas Strip. This unique luxury resort & casino is unlike any other. Enjoy oversized residential-styled living spaces with private terraces and breathtaking views of the Las Vegas skyline. Dining is reinvented with a one-of-a-kind restaurant collection featuring world-class chefs making their Vegas debut including David Myers, Scott Conant and José Andrés along with authentic dining options by famed restaurateurs Costas Spiliadis, The One Group and brothers Bruce & Eric Bromberg. Stylish design and art engage cultural sensibilities while a vibrant nightlife scene captivates perceptions. The Pool District offers panoramic views and unrivaled service, allowing guests to choose between three distinct pool experiences. Combine it all with an eclectic mix of hand-selected boutiques, a 100,000 square-foot casino featuring first-of-their-kind casino cabanas, Marquee Nightclub & Dayclub, and the serenity of Sahra Spa & Hammam to redefine your luxury resort experience.

Cancellation fee will apply if booking is cancelled after June 1, 2014. For course tuition without hotel, please call our office at 213-821-2127.
Day I: Complications Associated with Implant Therapy

The number of claims related to implant complications has increased significantly over the last few years. In addition, complications associated with implant surgery can have a devastating effect on the final outcome of treatment. This lecture course will focus on how to identify and avoid potential complications before they arise and how to manage many of the common complications that can occur with implant therapy. Emphasis will be given to medicolegal implications, patient risk assessment, classifications of complications, and proper treatment planning principles.

Upcoming of the course participants should know how to:

- Perform treatment plan effectively to minimize the incidence of future complications.
- Perform pre-operative risk assessment.
- Manage the most common implant related complications.
- Avoid and manage prosthetic complications.
- Avoid esthetic complications.
- Assess the role implant position plays in restorative complications.
- Avoid and minimize risks associated with implant surgery.
- Manage complications associated with bone graft procedures and sinus augmentation (graft infection and failure, sinusitis, oral-antral communication, and sinus fistula).
- Manage peri-implantitis.
- Manage complications associated with bone graft procedures and sinus augmentation.
- Manage failed implants and remove implants with minimal bone trauma.
- Assess medicolegal implications.
- Assess the role implant position plays in restorative complications.
- Avoid esthetic complications.
- Avoid and manage prosthetic complications.
- Assess the role implant position plays in restorative complications.
- Avoid and minimize risks associated with implant surgery.

- Manage failed implants and remove implants with minimal bone trauma.
- Assess medicolegal implications.

Day II: Immediate Full-Arch Provisional Restorations with Dental Implants

This day will feature scientific lectures and a hands-on workshop focusing on immediate full-arch provisional restorations with dental implants. The course will review the indications, contraindications, patient selection, pre-operative work-up, intraoperative and post-operative techniques to provide the patient with a full arch fixed provisional restoration. The hands-on workshop is designed for the clinician that has prior implant experience and would like to broaden his/her knowledge and scope of practice and improve clinical skills.

Topics to be covered:
- Diagnosis and treatment planning
- Sequencing from a terminal dentition to a full-arch implant-borne prosthesis
- Preoperative preparation and team consistency
- Surgical considerations
- Prosthetic considerations
- Conversion of existing denture into implant supported overdenture
- Accurate impression techniques for a full arch of implants
- Restorative methods needed to fabricate the full arch fixed provisional
- Loading protocol
- Post-operative management
- Denture duplication
- Radiographic stent for CT scanning and surgical guide
- Accurate impression techniques for a full arch of implants

Speakers

Bach Le, DDS, MD, FICD
Dr. Le is a Clinical Associate Professor, Division of Oral and Maxillofacial Surgery and Assistant Director, Oral and Maxillofacial Surgery, Ostrow School of Dentistry of USC and USC Medical Center. He is a Diplomate of the American Board of Oral & Maxillofacial Surgeons, the American Dental Society of Anesthesiologists, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the International College of Dentists and the International Association of Oral and Maxillofacial Surgeons. He maintains a private practice in Whittier, California.

Baldwin W. Marchack, DDS, MBA
Dr. Marchack graduated from the Ostrow School of Dentistry of USC, and received his MBA from the Anderson Graduate School of Management at UCLA. He is a Fellow of the American College of Dentists, the International College of Dentists, and the Pierre Fauchard Academy. He is a member of the Academy of Prosthodontics, the International College of Osseointegration and the Newport Harbor Academy of Dentistry. He is past-president of the American Prosthodontic Society, past-president of the Pacific Coast Society for Prosthodontics, past-president of the American Academy of Esthetic Dentistry and past president of the Osseointegration Study Club of Southern California. Dr. Marchack was inducted as an Honorary Member of the American College of Prosthodontists at its annual meeting in 2012. He serves on the Board of Councils at the Ostrow School of Dentistry of USC, and is currently the Chair of the Editorial Council for the Journal of Prosthetic Dentistry. He maintains a private practice in Pasadena, California.
