**Hands On**

Herman Ostrow School of Dentistry of USC  
Friday - Saturday  
February 24 - 25, 2017  
9:00 a.m. - 5:00 p.m.
**Topics to be discussed:**

- Endodontic anatomy and morphology of molar teeth
- Modern principles of endodontic access
- Root canal length determination - radiographic and electronic
- Cleaning and shaping of molar root canals
- Nickel Titanium rotary instrumentation
- Procedural errors and their prevention
- Root canal obturation
- Case selection for molar endodontics

**Synopsis**

Molar endodontics often present challenges to the clinician. These may include difficulty in isolation and access, negotiation of curved and narrow root canals, calcified canals, difficulty in canal obturation, and managing anatomical variations. However, today many advances in technology, materials and equipment have made it possible to efficiently perform successful molar endodontic treatment with more precision and predictable results.

This two-day intensive course includes lectures and hands-on workshops and is specially designed for General Dentists who wish to advance their clinical skills when performing molar endodontics. Participants will learn how to perform efficient endodontic access, clean and shape the root canal system and finally obturate in a predictable manner. Participants will also perform endodontic treatment from start to finish in real maxillary and mandibular molar teeth. Without a doubt, this course will help you master molar endodontics.

**Participants Should Be Able To:**

- Know when and what to refer
- Approach molar endodontic cases with more confidence and enjoy more predictable results
- Successfully treat both upper and lower molar teeth
- Apply system-based approaches when treating endodontic cases
- Enhance knowledge of clinical concepts of molar endodontics
- Enhance knowledge of clinical concepts of molar endodontics

**Limited Time Offer!**

Participants will be entered in a special raffle to win a copy of the world renowned textbook, *Ingle's Endodontics 7*, a $150 value! Winner will be chosen in a random drawing at the first day of the course.
