Registration Fees
Before March 15, 2011
Part I - Dentist: $245
Parts I & II - Dentist: $995

After March 15, 2011
Part I - Dentist: $295
Parts I & II - Dentist: $1,095

Fees include course material, continental breakfast and refreshments during breaks

Refunds are granted only if a written cancellation notice is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before this course. No refund is granted afterwards. A $70 fee is withheld for processing. For additional registrations, resend this form and send.
Part I (Lecture Only):

TOPICS TO BE COVERED
- Treatment planning for implant restorations
- Individual vs. splinted implant restorations
- Cemented vs. screw retained restorations
- Abutment level vs. implant level restorations
- Internal vs. external connections
- Biomechanics of teeth and implants
- Occlusal schemes for implant restorations

Part II (Demonstrations and Hands-On):

TOPICS TO BE COVERED
- Rationale for prosthesis design
- Abutment selection, stock and custom abutments
- Fabrication of custom abutments
- Fabrication of provisionals
- Fixed full arch restorations: one piece vs segments
- Treatment planning exercises

DEMONSTRATIONS: Instructor will demonstrate
- Fabrication of single unit provisionals
- Fabrication of multiple unit provisionals
- Fabrication of custom impression copings
- Fabrication of custom abutments

HANDS-ON: Participants will have the opportunity to
- Simulate abutment level and implant level impressions
- Attach abutments to implants
- Learn proper use of a torque driver
- Fabricate a single unit provisional
- Fabricate a multiple unit provisional
- Fabricate a custom impression coping
- Fabricate a pattern for a custom abutment

Part II is of Limited Attendance

Synopsis

Patients today are increasingly aware of dental implants, and their expectations are for esthetically and functionally pleasing implant restorations that mimic natural teeth.

This course for dentists will give both the experienced and novice practitioner a better understanding of how restorative implant dentistry has evolved.

On day one, the lectures will feature treatment planning and restorative options for single implants, multiple implants and fully edentulous arches.

On day two, in addition to demonstrations by the instructor, participants will have the opportunity to participate in a hands-on workshop featuring impression-making techniques and fabricating provisionals, custom impression copings and custom abutments.

Registration Fees

Before March 15, 2011
- Part I - Dentist: $245
- Parts I & II - Dentist: $995

After March 15, 2011
- Part I - Dentist: $295
- Parts I & II - Dentist: $1,095

* Participants will be able to take home their typodonts and all the provisionals, custom impression copings and custom abutment patterns that they make during the Part II course.
