USC SCHOOL OF DENTISTRY

ADVANCED IMPLANT RESTORATION

Lectures
★ Hands-on workshop
★ Live implant surgery & immediate loading

USC School of Dentistry
Friday, June 5, 2009. 8:00 a.m. - 5:00 p.m.
Saturday, June 6, 2009. 8:00 a.m. - 4:00 p.m.
Sunday, June 7, 2009. 8:00 a.m. - 1:00 p.m.
**Domenico Cascione, CDT**  
Domenico obtained his primary education in Bari (Italy), where he was also certified as a Dental Technologist (CDT) in 1985. From 1991 to 2004 he carried out metallurgy research becoming a specialist in dental metallurgy. From 1986 to 2004, he was the owner and director of a Dental Laboratory in Bari. He specialized in metallurgy, implant work and complex rehabilitation. He is often invited to lecture in Italy. Since January 2005, he became Research Associate at the Center of Dental Technology, the University of Southern California School of Dentistry. In 2006, he received a Bachelor’s Degree in Science of Dental Technology from the University of Illinois. He is the author and co-author of several articles in the literature.

**Arnold Rosen, DDS, MBA**  
Dr. Rosen’s background spans all arenas of patient care, administration, and academia. His specialty from Boston University School of Graduate Dentistry and Sloan Kettering Memorial Cancer Institute was Prosthodontics and Maxillo-Facial Prosthetics and he has since added an MBA from Boston University. He has served as Director of the Dental Implant Center and Founder of the Dental Implant Fellowship Program at Tufts University. He has also worked in telemedicine and teledental technologies as a consultant to the international medical forum in Argentina, and as Co-Founder of a telemedicine company and Founder of Transcend, Inc.

**Clark M. Stanford, DDS, PhD**  
Centennial Fund Professor in the Dows Institute for Dental Research and in the Department of Prosthodontics, and Associate Dean for research at University of Iowa. Dr. Stanford received his BS, DDS, Certificate in Prosthodontics and PhD in Cell Biology from the University of Iowa. He is a member of several professional organizations and serves on their governing board and committees. He is also a Fellow in the Academy of Prosthodontics. His research activities include bone and connective tissue responses to mechanical stimuli, bone mineralization and clinical studies evaluating material outcomes. Dr. Stanford maintains a clinical prosthodontic practice within the College of Dentistry.

**Homayoun H. Zadeh, DDS, PhD**  
Associate Professor, USC School of Dentistry. Dr. Zadeh is a graduate of the USC School of Dentistry. He completed the advanced clinical education in Periodontology and earned his PhD degree in Immunology from the University of Connecticut. He has an extensive publication track and serves as the editorial reviewer for several scientific journals, as well as a consultant to the NIH Center for Scientific Review. Dr. Zadeh also leads a research team, funded by the National Institute of Health, to investigate the mechanisms of periodontal diseases. Dr. Zadeh is the Director of USC Periodontal and Implant Symposium.

---

**Topics to be covered:**  
- Prosthetic options for complex cases  
- Treatment of fully-edentulous maxilla and mandible  
- Treatment of patients requiring restoration of multiple teeth and implants  
- Decision tree for selection of fixed versus removable restoration  
- Immediate and early loading  
- Diagnostic tools: CT imaging, surgical guides  
- Computer-assisted planning and implant positioning  
- Immediate implant placement vs. staged implant placement  
- Assessment of need and sequencing of implant site-development techniques  
- Implant impression techniques  
- Screw-retained vs. cement-retained restorations  
- Application of CAD/CAM in abutment and restoration fabrication  
- Abutment selection guidelines  
- Occlusal considerations and guidelines  
- Provisional options and techniques  
- Prosthetic complications and their management  
- Dental materials used in implant restoration  
- Laboratory techniques and procedures

**Hands-on workshop**  
- Fabrication of full-arch immediately load provisional prosthesis

**Live patient demonstration**  
- Full-arch computer-guided implant placement  
- Implant impression techniques and bite registration  
- Immediately loaded provisional prosthesis

*This course is suitable for clinicians with intermediate or advanced experience in implant dentistry*
