Endodontics from A to Z: A Hands-On Workshop for the General Practitioner

21 hours of Lectures
21 hours of Hands-On Experience

Testimonials

“Endodontic treatment can be very challenging. This course has greatly allowed me to diagnose and treat my patients objectively with confidence.”
- Russell West, Santa Clarita, CA

“This course was helpful. It really opened my eyes to how endodontics really should be done. This is an awesome class.”
- La Ron Cotton, Orange, CA

Herman Ostrow School of Dentistry of USC
Friday - Sunday, 9:00 a.m. - 5:00 p.m.
July 8 - 10, 2016 (Part I)
July 22 - 24, 2016 (Part II)

* Life-Long Tradition and Excellence *
Endodontics has gone through many exciting changes in the past several years. Recent advances in technology, materials and equipment have changed the way endodontics is practiced today. These advances have made it possible to efficiently perform successful endodontic treatment with improved precision, predictable results, and with much greater patient acceptance.

This comprehensive state-of-the-art course includes series of seminars and hands-on workshops specially designed for General Dentists who wish to advance their knowledge and clinical skills in the art and science of endodontics. A team of endodontic specialists from the Herman Ostrow School of Dentistry of USC will thoroughly discuss evidence-based clinical and biological concepts of modern endodontic therapy. These experts will walk you, from start to finish, through all the necessary steps and phases that will enable you to enhance the way you practice endodontics so you can provide the best standards of endodontic care to your patients.

During the 3-day hands-on part of this course, you will have the opportunity to apply the principles discussed by the USC team of experts and practice in one of the most advanced facilities in California. You will perform endodontic treatment from start to finish in both single-rooted and multi-rooted teeth and will also practice endodontic retreatment.

Without doubt, this course will be a complete learning experience!

Topics to be covered

- Diagnosis and case selection in endodontics
- Use of ultrasonics to facilitate treatment
- Preparation for endodontic treatment
- Endodontic treatment
- Current principles of endodontic access
- Endodontic-periodontal interrelationship
- Canal length determination including electronic apex locators
- Endodontic emergencies
- Nickel Titanium rotary instrumentation
- Canal irrigation and intracanal medication
- Endodontic treatment in the young patient
- Procedural errors and their prevention
- Endodontic considerations in elderly patients
- Root canal obturation techniques
- Achieving better success in endodontic cases

Upon completion of this course you will be able to

- Enhance knowledge of clinical and biological concepts of modern endodontics
- Understand the indications and apply appropriate techniques for endodontic retreatment
- Successfully treat single-rooted and multi-rooted teeth
- Approach endodontic cases with confidence and enjoy more predictable results
- Know when and what to refer to a specialist

42 Hours of Continuing Education

Fees include course material, continental breakfast, lunch and refreshments during breaks.

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

Additional instructors will be present during the hands-on workshops to enhance participant’s clinical experience.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

Limited Time Offer!
Participants will enter a special raffle to win a copy of the world renowned textbook, Ingle’s Endodontics - 7th Edition, a $170 value! Winner will be chosen in a random drawing at the first day of the course.
