Mastering Bone Grafting for Esthetic Implant Site Development

Module I (Lecture & Hands-On Workshop):
Saturday, March 29, 2014
8:00am - 5:00pm

Module II (Cadaver Workshop):
Sunday, March 30, 2014
9:00am - 5:00pm

Ostrow School of Dentistry of USC

★ Life-Long Tradition and Excellence ★
Speakers

**Bach Le, DDS, MD, FICD**
Dr. Le is a Clinical Associate Professor, Division of Oral and Maxillofacial Surgery at the Ostrow School of Dentistry of USC and USC Medical Center. He is a Diplomate of the American Board of Oral & Maxillofacial Surgeons, the American Dental Society of Anesthesiologists, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the American College of Dentists and the International Association of Oral and Maxillofacial Surgeons. Dr. Le maintains a private practice in Whittier, California.

**David A. Hochwald, DDS**
Dr. Hochwald is a Clinical Professor, Division of Oral and Maxillofacial Surgery at the Ostrow School of Dentistry. He is a Diplomate of the American Board of Oral and Maxillofacial Surgery and a Fellow in the American Association of Oral and Maxillofacial Surgeons, a Fellow in the Academy of Dentistry International, and a Fellow in the International College of Dentists. Dr. Hochwald has extensive experience in preprosthetic and implant surgery, which has been his focus of interest in practice. He is currently in private practice in Bellflower and Huntington Beach, California.

**Dennis-Duke R. Yamashita, DDS, FACP, FICD**
Dr. Yamashita is a Clinical Professor, Division of Oral and Maxillofacial Surgery at the Ostrow School of Dentistry of USC and USC Medical Center. He is a Diplomate of the American Board of Oral and Maxillofacial Surgery and a Fellow of the American College of Dentists, and a Fellow of the International College of Dentists. Dr. Yamashita holds a Fellowship of the American College of Dentists, and is a Fellow of the International Congress of Oral Implantologists. Dr. Yamashita maintains a private practice in Bellflower and Huntington Beach, California.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

Synopsis

This advance bone graft course will feature scientific lectures and a hands-on workshop. The course will focus on the most current and practical techniques in bone grafting to improve long-term clinical success with dental implants. This course is designed for the clinician that has prior experience in placing implants and who would like to broaden his/her knowledge and scope of practice and improve surgical skills.

Grafting the Esthetic Zone

Vertical Augmentation
Upon completion of this course, participants should be able to:

- Perform minimally invasive and esthetic grafting techniques
- Perform the screw tent-pole grafting technique for ridge augmentation
- Understand the role of growth factors on graft healing
- Know the advantages and disadvantages of various flap designs on overall esthetics
- Perform maxillary sinus grafting
- Know guidelines and indications for block grafts, particulate onlay grafts, ridge expansions
- Compare various graft materials
- Harvest ramus and chin grafts
- Apply practical methods of handling the vertically deficient posterior mandible
- Perform atraumatic tooth removal techniques to avoid damage to hard and soft tissue architecture
- Implement CT technology in diagnosis and treatment planning
- Learn how to implement piezo electric technology
- Sequence soft tissue procedures for bone grafting and implant surgery
- Understand concepts of papilla regeneration and development as it relates to grafting
- Understand the fundamentals of grafting the esthetic zone
- Know the five criteria for successful and esthetic grafting
- Recognize, manage, and prevent bone graft complications
