IMPLANT THERAPY FOR EDENTULOUS PATIENTS

Lectures • Hands-on workshops on-implant surgery and prosthetics • Live surgery and restorative case demonstrations

Herman Ostrow School of Dentistry of USC
Saturday - Sunday, December 10 - 11, 2016
8:00 am - 5:00 pm

★ Life-Long Tradition and Excellence ★
Homayoun H. Zadeh, DDS, PhD

Dr. Zadeh is a tenured Associate Professor and the director of the post-doctoral periodontology program at the University of Southern California and a diplomate of the American Board of Periodontology. Dr. Zadeh directs the Laboratory for Immunoregulation and Tissue Engineering (LITE) at USC, dedicated to studying basic mechanisms to regulate bone and tissue regeneration/destruction under health/disease states, as well as conducting clinical trials of dental implant outcomes. His clinical research interests involve studies on minimally-invasive surgery and tissue engineering. He maintains a part-time private practice limited to Periodontology and Implants in Southern California.

Alireza Moshaverinia, DDS, MS, PhD

Dr. Moshaverinia has received his DDS degree in 2004. He has a Master of Science in Dental Biomaterials (2009) from the Ohio State University, College of Dentistry. He completed advanced clinical education in Prosthodontics and earned his PhD in Craniofacial Biology from Herman Ostrow School of Dentistry of USC in 2012. Dr. Moshaverinia has published more than 30 papers in peer-reviewed journals and serves as the editorial reviewer for several scientific journals such as Journal of Prosthetic Dentistry. He is the recipient of several of awards in recognition of his scientific achievements.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.
Synopsis

According to CDC data, approximately one-third of Americans over the age 65 are edentulous and their number is projected to increase over the next twenty years. Implant-supported prostheses have been documented to improve the quality of life of patients and are gaining acceptance as the standard of care. A variety of treatment options exist for edentulous patients. Implant supported prostheses can solve many of the problems experienced by patients with complete dentures. This intensive 2-day course brings together surgical and prosthodontic experts for a systematic presentation of therapeutic options for edentulous patients. The format of this course consists of lecture, hands-on workshop, and live surgery demonstration.

Topics to be discussed:

**Diagnosis and treatment planning**
- Diagnostic tools: radiographs, CT scan, cone beam, interactive imaging
- Treatment planning and case selection:
  - Implant-supported overdenture vs. fixed restoration
  - Bar-clasp vs. male-female solitary attachments for overdentures
- Surgical guides: lab fabricated and computer-generated surgical guides

**Implant prosthetics**
- Implant prosthetic considerations
- Occlusion and stress distribution for overdentures and fixed restorations
- Prosthetic space requirement for overdenture or fixed restoration components
- Overdenture attachment selection: bar-clasp, solitary attachments
- Conversion of existing denture into implant-supported overdenture
- Fixed full-arch restorative options: CAD/CAM, titanium, chrome cobalt, monolithic zirconia
Surgical placement of implants
• Surgical considerations and treatment planning
• Anatomic and skeletal considerations for overdenture vs. fixed restoration
• Loading protocol

Laboratory techniques and procedure

Hands-on workshop
• Participants will place implants in edentulous models and restore with overdenture

Live surgery demonstration
• Participants will observe implant placement and restoration with overdenture on a live patient

Who will benefit from attending this course?
This course is appropriate for any clinician who is interested in gaining a comprehensive training in implant dentistry, such as:

• Both novice and experienced clinicians
• Surgical specialists who would like to acquire a more in-depth understanding of implant restoration
• Restorative dentists who would like to acquire a more in-depth understanding of implant surgery
• Allied health professionals (laboratory technicians, dental hygienists, and dental assistants)
Upcoming Courses

HORIZONTAL AND VERTICAL RIDGE AUGMENTATION - MYTHS VERSUS REALITY (CADAVER WORKSHOP)
Saturday - Sunday, September 17 - 18, 2016

MINIMALLY INVASIVE ADHESIVE AND ESTHETIC INDIRECT ANTERIOR BONDED RESTORATIONS
Friday - Saturday, September 23 - 24, 2016

THE USC 8TH GERIATRIC DENTISTRY ANNUAL SYMPOSIUM
Friday - Saturday, September 30 - October 1, 2016

FUNCTIONAL CROWN LENGTHENING SURGERY FOR IMPROVED AND PREDICTABLE RESTORATIVE OUTCOMES: HANDS ON WORKSHOP
Saturday, October 1, 2016

COMPREHENSIVE PERIODONTAL SURGERY: ESTHETIC AND FUNCTIONAL PROCEDURES FOR THE GENERAL PRACTITIONER
Pre-Course Lecture: Thursday, October 6, 2016
Module I: Friday, October 7, 2016
Module II: Saturday, October 8, 2016
Module III: Sunday, October 9, 2016

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, October 15, 2016

PAIN MEDICATIONS UPDATE FOR DENTISTS TREATING CHRONIC PAIN AND TMD
Friday - Saturday, October 28 - 29, 2016

THE USC 9TH INTERNATIONAL RESTORATIVE DENTISTRY SYMPOSIUM
Friday - Saturday, October 28 - 29, 2016

HEALTHIER INDIRECT RESTORATIONS, USING A SUPRA-GINGIVAL PROTOCOL
Friday - Saturday, November 4 - 5, 2016

ESTHETIC FULL-MOUTH IMPLANT RECONSTRUCTION: CAD/CAM RESTORATIONS AND COMPUTER GUIDED TECHNOLOGY
Module I - Friday, November 11, 2016
Module II - Saturday, November 12, 2016
Module III - Sunday, November 13, 2016

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2016 and receive another course for FREE.
Implant Therapy for Edentulous Patients

Lecture and Hands-On Workshop Course
Herman Ostrow School of Dentistry of USC
Saturday - Sunday, December 10 - 11, 2016
8:00 a.m. - 5:00 p.m.
Online registration available at www.uscdentalce.org
