33rd Annual
USC Periodontal & Implant Symposium
Minimally Invasive Interventions

General Sessions: Friday - Saturday, January 25 - 26, 2008
Dental Hygiene Forum: Saturday, January 26, 2008
Pre- and Post Symposium with Hands-On Workshops:
Thursday & Sunday, January 24 & 27, 2008

WILSHIRE GRAND
LOS ANGELES
Dear Colleagues and Friends:

We are pleased to invite you to attend the 33rd Annual USC Periodontal & Implant Symposium. The focus of this year’s symposium will be “Minimally Invasive Interventions”. The minimally invasive field is driven in part by patients’ demand for procedures which will not interfere with their active lifestyle, the desire to minimize morbidity, shorten recuperation period and maximize esthetic outcomes. Moreover, the availability of a number of novel surgical procedures and enabling technologies has provided an opportunity to perform less invasive procedures. These technologies include: growth factors and biological response modifiers, imaging technologies such as cone beam computed tomography (CBCT), interactive image manipulation software, computer guided implant placement, magnification technologies such as the operating microscope and endoscope, lasers and advanced biomaterials. As exciting as these developments are, we as clinicians are obligated to demand scientific documentation prior to their clinical use. A panel of internationally renowned speakers will review and discuss the clinical and scientific merits of these developments in order to separate science from hype. The program boasts four days with a diverse range of educational opportunities. These include all-day hands-on workshops for in-depth training, as well as a full day program dedicated for dental hygienists. Although the majority of the general-session presentations are interdisciplinary in nature, there are also sessions designated as “Surgical Track”, “Restorative Track” and, “Dental Hygiene Forum” to focus on specific disciplines. This is an educational opportunity not to be missed by the entire oral health care team, including specialists, restorative dentists and dental hygienists.

We hope to see you all in Los Angeles in January 2008.

Homayoun Zadeh, DDS, PhD
Symposium Chair and Moderator
# Program-At-A-Glance

## Hands-On Workshop (Thursday, January 24, 2008)
8:00 am - 5:00 pm Workshop #1: Ridge Augmentation and Sinus Augmentation (Stuart Froum and Sang-Choon Cho)

## General Sessions (Friday, January 25, 2008)

Speakers

**Dennis A. Shanelec, DDS (USA) (Keynote Presentation)**
Dr. Dennis Shanelec completed his periodontal training at the University of Southern California. He has pioneered microsurgery in periodontics, publishing and lecturing on the use of microscopy for clinical excellence. He is recognized as an authority on magnification in dentistry and is founder of the sub-specialty of periodontal microsurgery. Dr. Shanelec is the first dentist member of the Society of Microsurgical Specialists. He directs the Microsurgical Training Institute and maintains a practice of periodontics and dental implants in Santa Barbara, California.

**Leo and Sydelle Ward Foundation Endowed Keynote Lectureship**
Topics: Minimally Invasive Dental Implants (General Session)
Basic Microsurgery (Hands-On Workshop III)

**Sang-Choon Cho, DDS (USA)**
Dr. Sang-Choon Cho is a Clinical Assistant Professor and Associate Director of Clinical Research in the Department of Periodontology and Implant Dentistry at New York University, College of Dentistry. He graduated from the College of Dentistry at Kyungpook National University, Korea. Dr. Cho has received an Advanced Implantology Certificate, as well as Doctorate of Dental Surgery, from New York University. He has a private practice in New York City in Implantology and Dental Aesthetics.

**Topic: Ridge Augmentation and Sinus Augmentation (Hands-On Workshop I)**

**Charles M. Cobb, DDS, MS, PhD (USA)**
Dr. Charles Cobb graduated from the University of Missouri-Kansas City (UMKC), School of Dentistry in 1964. He received a Certificate of Specialty in Periodontics and a Master of Science degree in Microbiology, both from UMKC in 1966. Following two years of active duty with the U. S. Navy, Dr. Cobb returned to school at Georgetown University, graduating in 1971 with a Ph.D. in Microanatomy. After graduation from Georgetown, he held teaching and research positions at Louisiana State University and the University of Alabama in Birmingham. In addition to teaching/research, Dr. Cobb has experienced 15 years of full-time private practice in periodontics. Dr. Cobb recently retired from academics as Professor Emeritus at UMKC. He is a Diplomate of the American Board of Periodontology, has published over 165 peer-review articles and presented over 120 programs at regional, national and international meetings.

**Topic: Laser-Mediated Therapy of Periodontitis and Peri-Implantitis (Dental Hygiene Forum)**

**David L. Cochran, DDS, PhD (USA)**
Dr. Cochran is a graduate of the University of Virginia and received his D.D.S., and Ph.D., in Biochemistry from the Medical College of Virginia (MCV). He was also trained in Periodontology at the Harvard School of Dental Medicine. Dr. Cochran is currently Professor and Chairman of the Department of Periodontics at the University of Texas Health Science Center at San Antonio. Dr. Cochran is a Diplomate of the American Board of Periodontology and a Fellow of the American College of Dentistry and the International College of Dentistry. Dr. Cochran has published numerous scientific articles and abstracts on various periodontal biochemistry and implant topics. He has received awards for his research work at both the national and international levels. Dr. Cochran is an active basic science and clinical researcher who has received funding from both the NIH-NIDR and private industry.

**Topic: So, BMP is Now the Market. What Now?**

**Wilfried Engelke, DDS, PhD (GERMANY)**
Dr. Engelke is a graduate of Georg August Universität Göttingen in Medicine and Medizinische Hochschule Hannover in Dentistry. He received his doctorate degree in medicine and dentistry at GAU Göttingen, and Postgraduate Diploma in ENT, Phoniatrics and Maxillofacial Surgery. Dr. Engelke is an Active Member of DGZI. He was the past director of Dental Implant Clinic at the Dept. of Oral Surgery, Professor of GAU Göttingen, and had multiple national and international publications and patents. Dr. Engelke leads national and international postgraduate programs in dental implantology and has had academic collaborations with European, American and Asian universities.

**Topic: Development and Refinement of Subantroscopic Laterobasal Sinusfloor Augmentation (SALSA)**
Speakers

**Stuart J. Froum, DDS, PC (USA)**
Diplomate of the American Board of Periodontology, Dr. Froum is a Clinical Professor at the Department of Periodontology and Implant Dentistry, New York University Krieser Dental Center. He is also the Director of Clinical Research - Department of Periodontology and Implant Dentistry, NYU Dental Center. Dr. Froum has been the President of Northeast Society of Periodontics, research committee of the Academy of Osseointegration, and trustee of the American Academy of Periodontology. He has a private practice limited to periodontics and implant dentistry in New York City.

Topics:  
- Expanded Use of Narrow Diameter Implants (General Session)  
- Ridge Augmentation and Sinus Augmentation (Hands-On Workshop I)

**David Guichet, DDS (USA)**
Dr. Guichet is a Diplomate of the American Board of Prosthodontics and a graduate of the Maxillofacial Prosthetics Residency at UCLA. He completed a Prosthodontic Residency at the VAMC Wadsworth in West LA, a GPR at the VAMC in Long Beach CA, and received a DDS from UCLA. Dr. Guichet served as editor for the Academy of Osseointegration News and as past President of the Osseointegration Foundation. Together with his brother and father, he maintains a prosthodontic practice in Orange, California where he has developed and installed a comprehensive digital clinical records process.

Topic:  
- The Immediate-Load Prosthesis: Guided, Unguided, or Misguided?

**Markus Hürzeler, DDS (GERMANY)**
Dr. Hürzeler received his dental degree in 1986 from the University of Zürich, his certificate as specialist in Periodontics in 1993 (Swiss Society of Periodontology), the Docent (Associate Professor) degree in 1996 from the Department of Prosthodontics, Albert-Ludwigs University, Freiburg Germany, and his certificate in Prosthodontics in 1997 (German Society of Prosthodontics). He is currently practicing periodontics and implant dentistry in Munich, Germany and is Clinical Associate Professor at the Albert-Ludwigs University of Freiburg, Department of Operative Dentistry and Periodontology, and Clinical Assistant Professor at the University of Texas, Houston, Dental Branch, Department of Stomatology. Dr. Hürzeler has published more than 100 scientific publications within the field of implants, periodontology, and tissue regeneration and is a regular national and international lecturer. His special research interests are in immediate loading of implants, tissue regeneration with growth factors, and therapy of peri-implant lesions.

Topic:  
- Minimal Invasive Esthetic Implant Dentistry. Paradigm Shift?

**Sonia S. Leziy, DDS (CANADA)**
Dr. Leziy received her dental degree from McGill University and post-graduate degree in periodontics from the University of British Columbia. Dr. Leziy is a Fellow of the Royal College of Dentists of Canada, a Fellow of the ICOI and is past President of the British Columbia Society of Periodontists. Dr. Leziy is a member of the advisory board of the Journal Spectrum Dialogue, a member of the Nobel Biocare Global Scientific Committee and a member of the Nobel Biocare NobelKnowledge web expert panel. She is an Assistant Clinical Professor and sessional lecturer at the University of British Columbia and co-mentors the VIP study club, a Vancouver chapter of the Seattle Study Club. She has published and lectured internationally on implants and aesthetics/periodontal plastic surgery. Dr. Leziy maintains a full-time private practice in periodontics and implant surgery.

Topic:  
- The Science and Art of Aesthetic Implant Treatment: A Blueprint for Success

**Arvie Malik, RDH, BS (USA)**
Ms. Malik received her Bachelor of Science degree in Dental Hygiene from Texas Woman’s University. She has over 23 years of clinical experience in both Periodontal and Prosthodontic practices in Texas and California. Currently, Arvie practices full time in a private Prosthodontic practice in Newport Beach, California. Arvie has been teaching part time for over 15 years at West Los Angeles College in the Department of Dental Hygiene. She serves as a lecturer in the section of Periodontics at the University of California, Los Angeles (UCLA). She also instructs hygienists on the use of magnification and other technological advances as a clinical instructor at the Newport Coast Oral Facial Institute (NCOFI). Formerly, she was a Clinical Educator Consultant for Dentsply Corporation.

Topics:  
- The Impact of Magnification on the Future of Dental Hygiene Therapies (Dental Hygiene Forum)  
- The Application of Microscope in Non-Surgical Periodontal Therapy (Hands-On Workshop II)
Speakers

**Baldwin Marchack, DDS, MBA (USA)**
Dr. Marchack graduated from USC School of Dentistry and received his MBA from UCLA. He is the immediate past President of the American Academy of Esthetic Dentistry, Vice-Chairman of the Editorial Council for the Journal of Prosthetic Dentistry, serves on the Executive Council of the Pacific Coast Society for Prosthodontics as well as on the Board of Councilors of the USC School of Dentistry. He is the author of numerous articles and has presented over 200 lectures nationally and internationally. Dr. Marchack maintains a private practice with a main emphasis on restorative and implant dentistry in Pasadena, California.

*Topic:  Immediate Function/Loading: Past, Present and Future Clinical Protocols*

---

**Christopher Marchack, DDS (USA)**
Dr. Marchack is a graduate of the University of the Pacific School of Dentistry. He has received his prosthodontic certificate from the University of Southern California. Dr. Marchack is an active member of the Academy of Prosthodontics, the Pacific Coast Society for Prosthodontics, the American College of Prosthodontists, the Academy of Osseointegration, the San Gabriel Valley Dental Implant Study Club, and the Southern California Osseointegration Study Club. He has written numerous articles in peer reviewed journals, relating to implant dentistry. Dr. Marchack serves on the editorial review board of the Journal of Prosthetic Dentistry and Quintessence International. He has lectured nationally and internationally and maintains a full time practice in Pasadena, California. He is the founder and current director of the San Gabriel Valley Dental Implant Study Club, the co-director of the Odontic Seminar at USC, and Clinical Associate Professor at the USC School of Dentistry.

*Topic:  Immediate Function/Loading: Past, Present and Future Clinical Protocols*

---

**Adriana McGregor, DDS (USA)**
Dr. McGregor holds dual degrees in Periodontology, the most recent one from the University of Southern California where she served on the faculty as a Clinical Instructor from 1990 to 1994. Her interest in Microsurgery began at the dawn of the subspecialty, training under Dr. Dennis Shanelec at the Microsurgery Training Institute in 1994, where she is now the Co-Instructor. She lectures internationally on esthetic periodontal and implant microsurgery. She is President-Elect for 2007-2008 of the Academy of Microscope Enhanced Dentistry. She maintains a private practice in Westlake Village, California devoted exclusively to esthetic periodontal and implant microsurgery.

*Topics: Esthetic Periodontal and Implant Microsurgery: Redefining the Minimally-Invasive Concept (General Session)  
Basic Microsurgery (Hands-On Workshop III)*

---

**Peter K. Moy, DMD (USA)**
Dr. Moy received his dental degree from the University of Pittsburgh, a certificate in General Practice Residency from Queen’s Medical Center in Honolulu, Hawaii and his certificate in Oral and Maxillofacial Surgery from UCLA Hospital and Medical Center. He is currently on staff in the departments of Oral and Maxillofacial Surgery as well as Hospital Dentistry at UCLA. He is also the Co-director of the UCLA Dental Implant Center. Dr. Moy has written numerous articles related to Implant Dentistry and Osseointegration, specifically, on bone grafting and augmentation procedures for the atrophic ridges. He has lectured nationally and internationally, most recently at the 98th Annual Meeting of the American Association of Oral and Maxillofacial Surgeons. He established and maintained his private practice in the West Coast Center for osseointegration in Brentwood, California.

*Topic:  Immediate Function/Loading: Past, Present and Future Clinical Protocols*

---

**Lars Rasmusson, DMD, PhD (SWEDEN)**
Dr. Rasmusson is professor at the Sahlgrenska Academy and hospital, Göteborg University, Sweden. He received his DMD in 1990 at Göteborg University, followed by clinical training in oral and maxillofacial surgery at the Sahlgrenska University hospital. He defended his PhD thesis on “implant integration in membrane induced and grafted bone” in 1998. His clinical work is concentrated on orthognatic surgery and reconstructive implant surgery. His scientific work is focused on healing and integration of bone grafts. Dr. Rasmusson is a frequent lecturer at national and international congresses.

*Topic: Application of Computer-Aided Surgery in Advanced Implant Reconstruction*
Speakers

**Masana Suzuki, DDS (JAPAN)**
Dr. Suzuki received his DDS degree from Nippon University. He is an active member of the Japan Periodontal Association, an instructor of the Japan Clinical Periodontology Association, President of the Society of Japan Clinical Dentistry (SJCD) Tokyo, and an active member of the Osseointegration study club of Japan. Dr. Suzuki has published extensively on periodontal plastic surgical and microsurgical procedures. Dr. Suzuki maintains a full-time private practice in Tokyo, Japan.
Topic: Basic Microsurgery (Hands-On Workshop III)

**Kenji Tsuchiya, DDS (JAPAN)**
Dr. Tsuchiya maintains a private practice focusing on prosthodontics, esthetic dentistry, periodontics and implantology in central Tokyo, Japan. He is the founder of the Society of Japan Clinical Dentistry and past President of the Tokyo branch (1996 to 2004). This is a prestigious dental society in Japan with over 1.000 members. Dr. Tsuchiya is an active member of Japanese Academy of Oral Implantology, Japanese Academy of Periodontics, Japanese Academy of Prosthodontics and Japanese Academy of Esthetic Dentistry. He has published numerous articles in the fields of esthetic dentistry and implantology. Dr. Tsuchiya has lectured extensively and has directed a postgraduate course in Japan.
Topic: The Science and Art of Esthetic Implant Prosthesis

**Robert L. Vanarsdall, DDS (USA)**
Dr. Robert L. Vanarsdall, Jr. is Professor of Orthodontics and Chairman of the Department of Orthodontics at the University of Pennsylvania School of Dental Medicine. He has served as President of the Eastern Component of the E.H. Angle Society of Orthodontics. He received his dental degree from the Medical College of Virginia and is board certified in both Orthodontics and Periodontics. Dr. Vanarsdall served as Chairman of the Department of Periodontics, Department of Pediatric Dentistry and has directed Orthodontics at Penn since 1981. He is on the staff at the Children’s Hospital of Philadelphia and Professor at the Medical College of Pennsylvania. In addition to his teaching commitment, he has maintained a private practice for over 30 years.
Topic: Temporary Anchorage Device

**Stephen Wallace, DDS (USA)**
Dr. Wallace is a graduate of Boston University School of Graduate Dentistry with a certificate in Periodontics. He is Associate Professor at the New York University Department of Implant Dentistry, a Diplomate of the International Congress of Oral Implantology and a Fellow of the Academy of Osseointegration. He lectures at home and abroad on dental implantology and periodontics. He is the author of journal articles and textbook chapters on implantology and co-editor of sinus elevation textbook released in Italy. Dr. Wallace maintains a private practice limited to Periodontics in Waterbury, CT.
Topic: Evidence Base Sinus Augmentation

**Marlene B. Wang, MD (USA)**
Dr. Wang is a Professor in the UCLA Division of Head and Neck Surgery and Chief of the Head and Neck Surgery Section for the VA Greater Los Angeles Healthcare System. Following her graduation from Loma Linda University School of Medicine, she completed her residency training in head and neck surgery at UCLA and was recruited to the faculty. She maintains a private practice at the UCLA Medical Plaza, with an emphasis on nasal/ sinus disease, head and neck cancer, sleep apnea, and thyroid/parathyroid disorders. She employs minimally invasive and endoscopic surgical techniques when feasible, for treatment of selected lesions in the head and neck. She coordinates the endoscopic sinus surgery dissection courses for the head and neck surgery residents at UCLA and has been an invited faculty member for neurosurgery and otolaryngology continuing medical education courses in minimally invasive skull base and sinus surgery.
Topic: Minimally Invasive Sinus Surgery

**Homayoun H. Zadeh, DDS, PhD (USA)**
Associate Professor, USC School of Dentistry, Dr. Zadeh is a graduate of the USC School of Dentistry. He completed the advanced clinical education in Periodontology and earned his PhD degree in Immunology from the University of Connecticut. He is a Diplomate of the American Board of Periodontology. He serves as the editorial reviewer for several scientific journals, and chairs a Scientific Study Section of NIH. Dr. Zadeh also leads a research team, funded by the NIH. His clinical research interests involve studies on minimally-invasive surgery and tissue engineering. He is the Director of USC Periodontal and Implant Symposium and maintains a part-time private practice limited to Periodontology and Implants in Southern California.
Topic: Minimally Invasive Soft Tissue Augmentation
General Information

EVENT LOCATION
Wilshire Grand Los Angeles

930 Wilshire Blvd., Los Angeles, CA 90017
• Right in the heart of downtown Los Angeles
• 25 minutes from Los Angeles International Airport
• Minutes away from CA-110, I-10, I-101, and I-5.

Telephone: 213-688-7777
Reservation: 888-773-2888
Website: www.wilshiregrand.com

• Book your rooms early! Special rate of $139 for singles or doubles for booking prior to January 15, 2008. Please log onto www.wilshiregrand.com and key in promo code: USC_DENT1, or call 888-773-2888 to book your room. Rates are valid for stay dates: January 24 - 27, 2008.

FUNDAMENTALS OF DENTISTRY FOR THE ORAL HEALTH INDUSTRY
Friday - Sunday, January 11 - 13, 2008

MASTERING MOLAR ENDODONTICS: A HANDS-ON WORKSHOP
Friday - Saturday, February 8 - 9, 2008

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, February 9, 2008

CHRONIC OROFACIAL, ORODENTAL AND HEADACHE PAINS FOR THE DENTIST
Friday - Saturday, February 22 - 23, 2008

NEGOTIATING THE LICENSURE HURDLE: LEARNING AND PRACTICING FOR THE DENTAL BOARD EXAM, WREB AND CALIFORNIA LICENSING EXAM
Friday - Saturday, February 22 - 23, 2008

PORCELAIN VENEERS: OPTIMIZING LONG-TERM ESTHETIC OUTCOME USING DFED AND MANAGING OCCLUSAL DISEASE
Friday, February 29, 2008

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, March 1, 2008

FUNDAMENTALS OF RESTORATIVE IMPLANT DENTISTRY FOR THE GENERAL DENTIST
Friday, March 7, 2008

ESTHETIC FULL-MOUTH IMPLANT RECONSTRUCTION
Module I: Saturday, March 8, 2008
Module II: Friday, March 14, 2008
Module III: Saturday, March 15, 2008

USC RUTH RAGLAND 22ND DENTAL HYGIENE SYMPOSIUM
Saturday, March 8, 2008

IMPLANT THERAPY IN THE ESTHETIC ZONE: A HANDS-ON WORKSHOP (COURSE C)
Friday - Sunday, March 14 - 16, 2008

BEIJING TRAVEL & LEARN PROGRAM: EXCELLENCE IN ESTHETIC IMPLANT DENTISTRY FOR THE EDENTULOUS PATIENT
Sunday - Friday, March 16 - 21, 2008

OBSTRUCTIVE SLEEP APNEA, SNIORING AND DENTAL ADVANCEMENT
Friday - Saturday, March 28 - 29, 2008

ESTHETIC BONE GRAFTING FOR IMPLANT SITE DEVELOPMENT: CADAVER WORKSHOP
Module I (Lecture & Hands-On): Friday, March 29, 2008
Module II (Cadaver Workshop): Saturday, March 30, 2008

USC-DELASALLE BINATIONAL DENTAL SYMPOSIUM
Leon, Guanajuato, Mexico: Friday - Saturday, April 4 - 5, 2008

COMMON ORAL LESIONS (1): UPDATE ON EARLY ORAL CANCER AND PRECANCER DETECTION
Saturday, April 5, 2008

DENTAL DETECTIVES: FORENSICS AND THE DENTAL TEAM
Saturday, April 5, 2008

IMPLANT THERAPY IN COMPROMISED SITES: A HANDS-ON WORKSHOP (COURSE D1)
Friday - Sunday, April 11 - 13, 2008

ADVANCED BONE AND SOFT TISSUE AUGMENTATION: CADAVER WORKSHOP (COURSE D2)
Sunday, April 13, 2008

DIGITAL PHOTOGRAPHY IN DENTISTRY
