Friday, April 24, 2009
Friday, June 12, 2009

USC School of Dentistry is an ADA CERP and ACDE recognized provider
Part I (Lecture Only):

TOPICS TO BE COVERED
- Treatment planning for implant restorations
- Individual vs. splinted implant restorations
- Cemented vs. screw retained restorations
- Abutment level vs. implant level restorations
- Internal vs. external connections
- Biomechanics of teeth and Implants
- Occlusal schemes for implant restorations

Part II (Limited Attedance - Lecture, Demonstrations, and Hands-On):

TOPICS TO BE COVERED
- Rationale for prosthesis design
- Abutment selection, stock and custom abutments
- Fabrication of custom abutments
- Fabrication of provisionals
- Fixed full arch restorations: one piece vs segments
- Treatment planning exercises

DEMONSTRATIONS: INSTRUCTOR WILL DEMONSTRATE THE
- Fabrication of single unit provisionals
- Fabrication of multiple unit provisionals
- Fabrication of custom impression copings
- Fabrication of custom abutments

HANDS-ON: PARTICIPANTS WILL HAVE THE OPPORTUNITY TO
- Simulate abutment level & implant level impressions
- Attach abutments to implants
- Learn proper use of a torque driver
- Fabricate a single unit provisional
- Fabricate a multiple unit provisional
- Fabricate a custom impression coping
- Fabricate a pattern for a custom abutment

Patients today are increasingly aware of dental implants, and their expectations are for esthetically and functionally pleasing implant restorations that mimic natural teeth.

This course for dentists will give both the experienced and novice practitioner a better understanding of how restorative implant dentistry has evolved.

On day one, the lecture will feature treatment planning and restorative options for single implants, multiple implants and fully edentulous arches.

On day two, in addition to demonstrations by the instructor, participants will have the opportunity to participate in a hands-on workshop featuring impression-making techniques and fabricating provisionals, custom impression copings and custom abutments.
