TESTIMONIAL

**Clinical portion very good and I enjoyed working and learning from each clinical faculty member on the floor.**
- Dr. Jedediah Val Huss

**I thought the program hinged on the information and it’s wonderfully done. I enjoyed the humor, anecdotes, and the style of presentation very much. It’s not too rigid. Everyone involved was warm and wonderful. Thank you! Great job!**
- Anonymous

**Awesome course and great people. I appreciate the time, expertise and friendliness of everyone. I know we don’t want a “cook book” by you guys are my mentors. I learned a ton!**
- Dr. Tanner Flaherty

Parenteral Moderate Sedation For Dentists

Attendance is limited to ensure an abundance of moderate sedation experience with high standards in patient safety. Faculty will arrange for 2 dental auxiliaries to assist and learn the anesthesia care team concept, and participants will be required to provide operational moderate sedation vital signs monitors for use with this course. This intensive course in parenteral moderate sedation will also require participants to perform dental procedures while simultaneously administering moderate sedation drugs with their anesthesia care team. Clinical days will extend late into each Sunday afternoon, and participants should not schedule for flights or other transportation that may limit time to complete clinical requirements.
