ENDODONTICS FROM A TO Z:
A HANDS-ON WORKSHOP FOR THE GENERAL PRACTITIONER

USC School of Dentistry
Friday - Sunday, 9:00 a.m. - 5:00 p.m.
June 9 - 11, 2006 (Part I)
June 23 - 25, 2006 (Part II)
Endodontics has gone through many exciting changes in the past several years. Recent advances in technology, materials and equipment have changed the way endodontics is practiced today. These advances have made it possible to efficiently perform successful endodontic treatment from start to finish in both single-rooted and multi-rooted teeth and will practice endodontic retreatment. During the hands-on part of this course you will have the opportunity to apply the principles discussed by the USC team of experts and practice in our famous “Sim-Lab”, one of the most modern and realistic simulator facilities in California. You will perform endodontic treatment from start to finish in both single-rooted and multi-rooted teeth and will practice endodontic retreatment. Without doubt, this course will be a complete learning experience!

Topics to be covered:
- Diagnosis and treatment planning
- Case selection in endodontics
- Endodontic emergencies
- Achieving effective anesthesia for endodontic treatment
- Management of anxiety and pain in endodontics
- Preparation for endodontic treatment
- The operating microscope and its uses in endodontics
- Current principles of endodontic access
- Canal length determination including electronic apex locators
- Root canal cleaning and shaping
- Nickel Titanium rotary instrumentation
- Intracanal medication
- Procedural errors and their prevention
- Root canal obturation
- Post-endodontic restoration
- Endodontic retreatment
- Root resorptions
- Clinical applications of MTA
- Endodontic-periodontal interrelationship
- Restoration of endodontically treated teeth

Upon completion of this course you will be able to:
- Enhance your knowledge of the clinical and biological concepts of modern endodontics
- Successfully treat single-rooted and multi-rooted teeth
- Apply system-based approaches and state-of-the-art technology for treating your endodontic cases
- Use endodontic hand and rotary instruments safely and effectively
- Understand the indications and apply appropriate techniques for endodontic retreatment
- Approach your endodontic cases with confidence and enjoy more predictable results
- Know when and what to refer
