Upcoming Courses

FUNDAMENTAL PRINCIPLES OF RESTORATIVE IMPLANT DENTISTRY FOR THE SINGLE MISSING TOOTH
Part I - Lecture: Friday, January 15, 2016
Part II - Hands-On: Saturday, January 16, 2016

ORAL SURGERY FOR THE GENERAL PRACTITIONER
Saturday, January 23, 2016

THE 41ST ANNUAL USC INTERNATIONAL PERIODONTAL AND IMPLANT SYMPOSIUM
General Sessions: Friday - Saturday, January 29 - 30, 2016
Hands-On Workshop (Piezosurgery): Friday, January 29, 2016
Hands-On Workshop (Regenerative Therapy): Friday, January 29, 2016
Dental Hygiene Forum: Saturday, January 30, 2016
Dental Hygiene Hands-On: Saturday, January 30, 2016
Discussion Workshop (Digital Smile Design): Saturday, January 30, 2016

PORCELAIN VENEERS: OPTIMIZING RESULTS USING SUPRA-GINGIVAL PRINCIPLES, AND UNDERSTANDING ADHESION AND OCCLUSION
Friday, February 5, 2016

IMPLANT CPR! SUCCESSFUL MANAGEMENT OF PROSTHETIC IMPLANT COMPLICATIONS
Module I - Lecture: Friday, February 5, 2016
Module II - Hands-On Workshop: Saturday, February 6, 2016

EMERGING DISEASES, INFECTION CONTROL AND CALIFORNIA DENTAL PRACTICE ACT
Saturday, February 6, 2016

CHRONIC OROFACIAL, ORODENTAL AND HEADACHE PAINS FOR THE DENTIST - WEBINAR AVAILABLE
Friday - Saturday, February 19 - 20, 2016

MASTERING MOLAR ENDODONTICS
Friday - Saturday, February 26 - 27, 2016

Refunds are granted only if a written cancellation notification is received at least 21 days before the course. 50% of the tuition minus processing fee will be refunded if cancellation occurs within 14 days before the course. No refund is granted afterwards. A $75 fee is withheld for processing. For additional registrations, xerox this form and send.

3 + 1 Free CE Program
The More You Learn, The More You Earn!
Take any 3 CE courses between January and December 2016 and receive another course for FREE.
Topics to be covered:

- Periodontal diseases and their potential impact on implant prognosis
- Tooth prognosis versus implant prognosis
- Implants as foreign bodies
- Peri-implant disease
- Peri-implantitis in comparison to periodontitis lesions
- Prognostic evaluation of teeth in treatment planning for implants
- Prognosis of traditional therapy versus implant treatment

Upon completion of the course participants should know:

- Principals of osseointegration
- Principals of implant site preparation and augmentation
- Various theories behind peri-implant disease
- Differences between treatment planning implants for sites with and without teeth
- How to assign a concise prognosis for involved teeth
- How to select teeth for strategic extraction
- Indications and contraindications for placing dental implants in periodontally compromised cases
- Generally accepted modalities for treatment of peri-implantitis

Understanding implant treatment planning requires both restorative and surgical perspectives. Surgically, implants are an obvious choice for edentulous areas, however challenges arise when replacement of questionable teeth with implants are contemplated. Periodontal literature provides insights when maintaining the dentition is possible. However, there are situations where the decision to replace teeth with implants is not very clear. The aim of the course is to explore the multiple facets of implant dentistry in order to achieve a broad perspective that will be valuable to surgical and periodontal decision making. Topics will include origins and science behind osseointegration, a basic review of surgical procedures typically used for augmentation and implant site preparation, implant success and failure, an understanding of periodontal prognosis of teeth in relation to implant prognosis, and surgical treatment planning of implants. The goal is to combine a broad understanding of the current science behind implants in order to develop a more concise treatment plan that helps navigate the difficult question of when to replace natural teeth with implants.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation.
